Buy war stamps with every spare quarter.

The Stouffville Junior Band will play at Musselman's Lake swimming events on July 1st.

Mr. Peter Lehman was taken to the Toronto General Hospital on Saturday, but favorable hopes are held for his early return.

Mr. Charles Stouffer of Ringwood has secured a position in the Office Specialty at Newmarket, and is now located in the Yonge street centre.

Norm Baker, son of Mr. and Mrs. Frank Baker of Stouffville who moved from the Bank of Commerce here to Brechin has received a further move this week to St. Thomas.

Pete Clendenning who has been employed at Creighton Mines, Sudbury for several years has been down from the north recently visiting at his home on the townline.

So severe was the drop in temperature one night last week that a surprise frost nipped an entire bean patch belonging to Mr. Percy Brillinger in the east end of town.

Light frost is reported by some people around Stouffville, while last Sunday it was so chilly numerous people started their furnaces and the coal heater or kitchen range was a popular thing to stick round.

The congratulations of his many friends were pouring in on our townsman, Mr. Isaac Boadway, June 15, the occasion of his 82nd birthday. He's a smart man for his number of years, and while he is a little too old for the army, he can do a good day's work with anyone many years his junior

A GENE AUTRY WESTERN

Mr. T. B. Rae of Stouffville is the new district deputy Grand Master of the I.O.O.F. for the local district and was placed in office at the annual sessions of Grand Lodge held in the city of Guelph last week. This is the second appointment of the kind to come to Stouffville within a short time, Mr. W. E. Morden having served in the same capacity a few years ago.

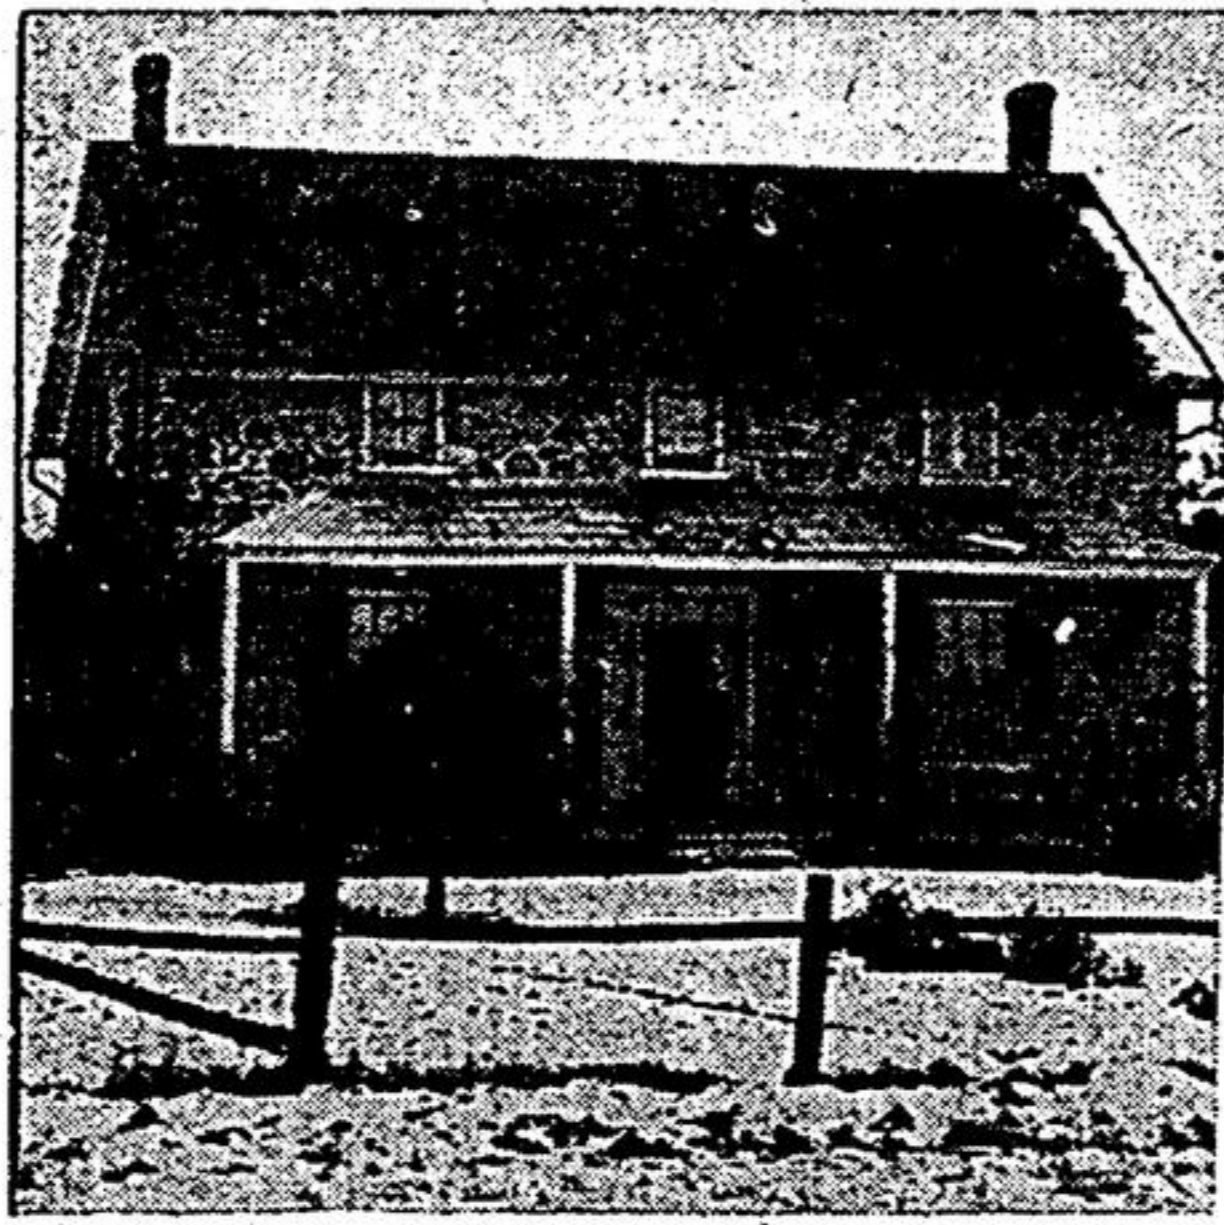

How many motor drivers know that it is unlawful for them to run their engine while the service station man is putting gasoline in the fuel tank of the car, and it is also unlawful for service station attendants to so service any car with gasoline while the engine is in motion. Its just a little thing not commonly known and too often neglected by those concerned.

F. H. Roberts, Markham, Township trucker had a narrow escape last Friday when his 10-ton truck, loaded with four yards of gravel, got out of control on a down-grade on the Whitechurch and Markham townline. The steering gear locked and the heavily loaded truck capsized in the ditch. He received scalp wounds.

Mr. and Mrs. Jack O'Neill who were married early this year and took up residence at Belleville have moved to Madoc where Mr. O'Neill will conduct the undertaking establishment for his Belleville employer. Mrs. O'Neill was the former Nelda Lehman, while her husband is the brother of our local undertaker.

Thirty members of Clovelly Chapter, Weston, were the guests of Jubilee Chapter, O.E.S., Stouffville, at their closing meeting for the season on Tuesday night. Among the guests were Mrs. Bertha Scrace, D.D.G.M., elect. Mrs. Susan Shankel, convener of war work for Jubilee Chapter, announced the shipping of a bale to the O.E.S. Patriotic Association. Plans were made for a summer picnic to be held at the summer home of Mrs. Elmer Still, at Caledon Lake, in July.

New potatoes larger than hen's eggs have been grown in less than four weeks under chemical process at the Continuation School, and samples were shown to The Tribune last week. In the same container was snapdragon which had bloomed all-winter, strong and healthy. It is being demonstrated in numerous Experimental Farms and research laboratories in Canada and the United States that whole crops of grain or vegetables may be grown without earth at all. The idea is that the same chemicals that go to make up the earth are placed in water, which will give the same response to seed as if that seed were placed in the ground.

Mrs. Martin Wideman, aged 86 years, passed away on Monday, at this historic homestead, built by Henry Wideman, father of the late Martin Wideman who died 1933. This fine stone structure at lot 28, con. 8, Markham, was built in 1856.

The War Veterans will hold a business meeting this Friday evening at 8 p.m. in the Fire Hall. Important.

Mr. Martin Reesor suffered a slight stroke a few days ago, but has rallied considerably since, friends will be glad to learn.

Miss Ruth Nendick who is with the Consolidated Advertising Co. at their North Bay Branch, was home last week for the funeral of her grandmother, the late Mrs. F. W. Silversides.

Teddy Williams who makes his home in Stouffville with Rev. and Mrs. C. E. McLeod was successful last week in passing his grade 7 piano work with honours. Ted is a pupil of Mrs. H. Barnes.

Jim Smith, son of Mr. and Mrs. Bert Smith of Stouffville was in town on Saturday in the uniform of the Irish Regiment. Jim joined His Majesties forces two weeks ago.

Miss Ruth Miller of the High School staff was compelled to enter the hospital in Toronto this week suffering from appendicitis. There is every expectation that Miss Miller will make a quick and complete recovery. Miss Miller will welcome the long holiday season more than ever this year.

William Rennie was talking on the street the other day, and we were impressed with one bit of information that this 10th concession farmer disclosed which indicated that he must keep books as every farmer should. Mr. Rennie said that he had been on the farm these 23 years, had 36 colts born on the place of which he raised 33. That's a rather remarkable record, and one worth keeping track of.

The abundance of rain has not done nearly so much harm to the farm crops throughout the county of York as the drought which threatened the county early in the spring when the ground was parched, was the answer given us by W. M. Cockburn, district representative of agriculture at Newmarket, when he made a brief call at The Tribune office on Monday. Mr. Cockburn says that an abundant crop is in the offing, and that dry weather and warmer atmosphere is needed to finish it off.

What might have proved a very serious accident is reported this week from the farm of Aaron Burkholder, 7th con., of Markham. It is understood that Mr. Burkholder's hired man, a Mr. McDowell was operating the tractor with the cultivator when he toppled backward off the seat while leaning over to avoid being struck by the branches of a tree. He was dragged over fifty feet by the teeth of the cultivator, which then passed over his body severely injuring his head. However the injured man was able to get to his feet and shut off the tractor which had travelled on without a driver. We understand the young man was later moved to Markham where a doctor's examination revealed a slight concussion.

"Old Father Time" is finding an unusual man in our Mr. Nathan Forsyth, Church street. Five years or more ago he was insulted when some of his churchmen thought he was of too great an age to undertake an extension to the building. But now, all these years later, and bordering on his 88th birthday we find that he has been in Toronto the last week, building a sun room which he completed. We wonder if this is not a record in this province, for the number of men who could do a job of this kind or any other kind for that matter, at 88; are few indeed.

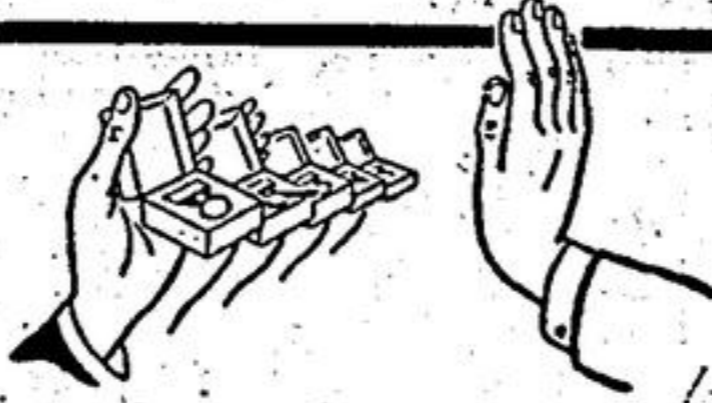

### HURRAH FOR MIDHURST

Members and friends of the Stouffville Horticultural Society are reminded that the Annual Summer Outing of district No.5, will be held this year in Springwater Park, an entrancing area of woodland in the midst of the vast reforestation plantations at Midhurst.

Springwater Park with its labyrinth of winding paths, cooling trout streams and pools, ornate bridges and rockeries, wild life havens, zoo, and excellent play grounds, offers an ideal site for a picnic of the magnitude of that planned by the committee.

Stouffville should prepare now for an even larger representation than that which journeyed to Guelph last year. Hunt up your largest picnic basket and make it both dinner and supper at the park. There is ample pavilion space up there, and dozens of tables await us beneath the trees. The date is Wednesday, July 10. Registration is at 11 a.m. d.s.t. Sports at 2 p.m. If you or your friends are

**THANKS—but we'll pass up the medals**

No, we don't deserve any medals just because we take more than a casual interest in your car. We figure if you find our service is quick, careful, thorough, YOU'LL COME BACK.

That's why we make a habit of checking your radiator, tires and oil. We really polish your windshield. We keep an eagle eye on your battery, too, and fill it with distilled water whenever it needs it.

Add to this the fact that we've got Shell products and you've got the makings of Satisfaction — with a capital S. Try us.

interested in arrangements for the big outing it is not too early now to call T. B. Rae or Miss Margery Mertens for further particulars.

### YOUTH JAILED FOR MAKING IDLE REMARKS

"It is things like this that are undermining the spirit of this country when it is so sorely needed," Magistrate F. S. Ebbs declared in district court in Uxbridge town last Thursday when he sentenced Oliver Yakely, jr., 19, to one month in the county jail on a charge under the Defense of Canada Regulations. Yakely is a resident of Stouffville district on the 10th Concession of Whitechurch at Island Lake. He was born there.

"It seems too bad that a boy of this age should be in court under these circumstances, but he is 19 and there are a good many boys of that age and younger in the army to-day," Magistrate Ebbs pointed out. "It is very unfortunate that we have this kind of people, but we will have to deal with them

accordingly. The time has come when these things have got to, and will, be stamped out by the courts of this country."

Pierre Evans, Uxbridge township farmer, told the court that Yakely had brought some grain to his chopping mill on May 30 last. He had asked the boy when he was going to "join up," and Yakely had replied: "What's the use of signing up, that country is licked already, why don't they lay down their arms."

"Yakely then said this country isn't worth fighting for anyway," Evans stated.

Evans' evidence was corroborated by Jack Murphy, and the incident was reported to Provincial police.

Yakely, in giving evidence on his own behalf, claimed he had not made the remarks attributed to him, but had said he was not signing up right away because they were not taking recruits. He had also said that if Britain and France were defeated there would be no use of Canada continuing the fight (Continued on page 4)
