

MONTMORENCY CHERRIES

We have been to our Bronte orchards and find that the Montmorency Cherries will be some later this year than last. These cherries have been a proven success for some years being left on the trees to mature properly, and then brought directly to fill your orders. They will be at their best for canning about the end of the month, so leave us your name and we will notify you on arrival.

J. H. Carver Found Dead in Bed

The funeral of the late James Henry Carver, of Toronto, took place on Thursday, July 11th, to Victoria Square, service being held in the United Church there, and interment in the adjoining cemetery. The Rev. Mr. McKay, pastor of the church conducted the service. Pall bearers were, Messrs James Carver, Arthur Frisby, George McCron, Toronto, James Dennie and Joseph Smith, Gormley, and Norman Carver of Flint, Mich., and Bruce Winterstein.

A number of relatives and old friends gathered at the Church to pay their last respects to one who had spent his youth in this district. The late James Carver, in his 74th year was a son of the late Robert Carver and Julia Anne McKenzie. He was born on the north-west corner of what is known as Old Gormley, but when a small lad moved with his parents to Victoria Square. While still a young man he left the old home and spent many years in the United States having lived in Minneapolis, Minnesota, North and South Dakota and Flint, Michigan. When he retired from active work, he returned to Toronto where he made his home until his sudden death.

He was one of a family of eleven children, two of whom Elijah, John and Norman died a number of years ago. Four sisters and four brothers survive: Mrs. Eliza McCron, Mrs. Robert McCron, Mrs. Arthur Frisby, all of Toronto; Mrs. Wm. Dennie of Gormley, Robert of Stouffville, Benjamin of Picton, Ont.; Lambert of Flint, Mich.; and Ernest of Detroit, Mich.

The late Mr. Carver retired to his room on Sunday night apparently in his usual health but when he failed to come down at the usual hour on Monday morning, investigation found that he had been dead for some time. Death was due to heart trouble. He had never married.

Mr. Carver was a familiar figure in the district since his return from the United States, being a frequent visitor at the home of his sister Mrs. William Dennie of Gormley and at the home of his niece, Mrs. Ross Winterstein, Sixth Line, Whitchurch.

At either end of the town motorists are said to have no regard for speed limit at all, and residents in those sections are asking for a stop to be put to it. After July 15 all men who get married will be treated as single men for military purposes, hence Quebec lads made a rush to take on a wife so that should they become conscripted later, the pay would extend to their "better half," likewise their chances of being conscripted would be lessened by reason of them being married.

Canada to Supply Army with Universal Carriers

UNIVERSAL machine gun carriers will soon be added to the list of army vehicles made in Canada for the fighting forces at home and overseas. These are equipped with caterpillar treads and are very manoeuvrable and speedy. They are armoured against small arms fire and will carry three Bren guns, or can be used to carry ammunition, wireless sets and other necessary equipment. They will be produced in the Windsor plant of Ford Motor Company of Canada, Limited, which has been selected as the most suitable for the production of this vehicle. In the lower photograph, Mr. Wallace R. Campbell, president of the Canadian Ford organization, is shown with Lieut.-Col. D. C. Warrnie, officer commanding the Essex Tank Battalion, Windsor, inspecting one of the Universal carriers. Other army vehicles now made in the Ford plant in

Windsor include the powerful four-wheel drive gun tractor pictured above. These and other types of military vehicles are rolling off the assembly line of the Canadian Ford plant which is supplying nearly 10,000 units to the Canadian army and another 25,000 units for military purposes to other Empire governments. The plant is now being expanded by a \$700,000 addition to provide facilities for building Universal carriers and to increase production of other types of military vehicles.
