

TOWN TOPICS

Miss Eulah Brillinger, also Miss Audrey Hoover, R.N. were weekend visitors at Port Dover, Ontario.

Next Monday is Labor Day, and a public holiday. Not many will forget that even had the fact not been recorded here.

The open season for trout fishing has been extended to Sept. 15, as a result of so much restocking of the lakes in Ontario.

It didn't happen here, but one of the dazzling 18-year-olds when asked at the registration booth what she would like to do best answered, "be a good dancer."

Four local boys are now receiving military training weekly at Aurora having joined the York Rangers non-permanent militia. They are Alfred Thomas, Claire Bell, Bill Sanders and Don. Cadieux.

Mrs. W. H. Shaw and Miss Lucy Waters are holidaying this week at Elgin House Muskoka. The couple motored to the north country last Thursday accompanied by Mr. and Mrs. Lambert Malloy.

Mr. and Mrs. Sam McKeown and family are moving from the Yake place at corner of Main and Tenth streets farther west on Main street to occupy the east half of Richard Burton's double house opposite Walter Dickson's farm.

The Tribune's report on the recent trip to Western Canada of the Canadian Weekly Press Party was reprinted in the Printer and Publisher, a high class trade journal with one or two pictures accompanying the article which were taken by the writer of the article "C.H.N."

Misses Irene Timbers, Kay Turner and Betty Leslie of Stouffville registered this week at various Toronto Business Colleges, in secretarial courses.

A large crowd attended the shower held at Stanley Slack's on Wednesday evening for the newlyweds, Mr. and Mrs. Gordon Taylor. They received a host of lovely and useful gifts from their many friends. The tin pan band was also present, and rendered several of their choice selections and later treated the crowd to ice cream.

Prof. John Coulson of McDonald College, Quebec, was in town last Friday in company with his sister Mrs. R. Weatherill and her mother who live in Unionville. Prof. Coulson is interested in the purchase of a 100 acre farm in this district and looked over several that are known to be for sale.

As forecast in our last issue early on Wednesday there were more than 1,000 people 16 years and over registered at Stouffville at closing time that night as ordered by the government. To be exact there were 1067 names listed and each of them were supplied with a registration slip showing they had carried out the requirements of the regulations.

Children belonging to the residents of the Lake Wilcox area turned their hand to helping the Red Cross last week when they organized a "Children's Circus" during an afternoon and raised \$50. The venture was under the direction of a young lady who is employed by the lake residents as a special summer guardian. On Sunday night the same group gave a concert in the Park when an added \$56 went into the Red Cross fund.

The Betty Beauty Salon will be closed on Saturday, August 31, until Thursday, Sept. 5.

Miss Ethel Wagg of Midland and Mrs. F. Palmer of Uxbridge were in town a few hours on Monday calling on friends. Miss Wagg is a member of the Midland public school staff of 25 years standing. She is a cousin to Mr. K. Ross Davis.

Mr. Lorne Kester, son of Mr. and Mrs. Ross Kester, residents of the Markham-Pickering townline, and clerk in the Bank of Nova Scotia here, was moved this week to the branch at St. Catharines. Miss Ruth Marshall will replace Mr. Kester in the bank here.

Mr. Walter Talbot, local truck driver came home on Thursday from the Newmarket hospital where he underwent an operation but is now believed to be fast regaining his health again. Walter Talbot was always the perfect picture of health, but as we all know, sometimes looks do not tell the whole story.

Light frosts were reported about town last week, as the weather dipped to an unusual coolness on several nights. Some of the coldest August nights in many years are recorded, all of which put a crimp in the number of visitors at the lakes. A number of cucumber vines were nipped, but for the most part little damage was noticed.

Mrs. J. Driscoll, superintendent of the Children's Aid Society spent several hours in town last Friday checking homes and making arrangements in case a number of children from the British Isles arrive unexpectedly for placement in homes in our district. Quite a number of local people have agreed to care for one of these children for the duration of the war. However, if too many of school age are placed in town, accommodation at the big knowledge works will be clogged, and this will present a new problem.

Mr. E. Calder, a subscriber to this paper, and a cottager at Musselman's for twelve years, has bought a farm in Scarborough to which the family are moving this week.

Mrs. A. V. Nolan, also Mrs. Perron (Blanch Todd) and son Bain who are spending the summer with Miss Gertrude Todd, were guests of Mr. and Mrs. T. G. Gold and other friends in Uxbridge on Sunday.

Mrs. Alex. McPherson of Chatham, Ontario, her son Hesley, wife and son Alex. spent a couple of days last week with Mr. and Mrs. W. E. Risebrough. Mrs. Alex. McPherson is Mr. Risebrough's eldest sister, aged 84 year.

Save your old newspapers and magazines for the War Branch, we are asked to announce. Cereal Cadieux is undertaking to make a collection within the next few days. Your contribution to the paper tonnage will be appreciated.

Newmarket is the latest town to realize that unless the citizens petition council demanding an election plebiscite, they will automatically elect their 1941 Council for a two year term under the legislation passed by the Legislature this year.

Mrs. I. McLaughlin, Toronto, was in town on Saturday, visiting with Mr. and Mrs. Morgan Degeer and other old friends. The McLaughlins and Degeer's were farm neighbors up the second of Uxbridge until the former family moved to Toronto.

Miss Betty Urquhart of Ayre who is attached to the nursing staff of a Waterloo hospital was in town for a couple of days visiting her grandmother Mrs. Latchford on Main street. Miss Urquhart is just now assigned to special duty at the Isolation Hospital in Toronto where there has been an influx of soldiers.

The electric lights on the post office steps have been out all summer, and its a wonder someone has not met with an accident for the lighting is anything but good for elderly people coming to the office. Enquiry brings forth the fact that the bulbs broken last winter cannot readily be replaced, and this is the reason for the front of the public building remaining in darkness. It ought not to be a serious matter to procure some sort of bulbs for the tops of these light standards, so that a normal service may be rendered the public and perhaps an accident may be avoided.

Visitors to the Exhibition this week and next are cordially invited to visit the booth in the Process Building, of the Pneumatic Insulating Co., who are "fleece lining" so many homes in and around Stouffville. Here one can see the rock wool in its different stages of manufacture, see it in action in a home and have explained how it will keep in the heat and keep out the cold. Before investing in a "fleece lined" job on your home it would be well to visit the firm's exhibit. There is no substitute for rock wool which is ground out of actual stone, and is everlasting.

Just now the mails are flooded with advertising matter of Toronto and other firms offering this and that to the prospective exhibition visitor. We obtained one of these letters last week, purported to have been sent to us because the company wanted to do us a favor. They never met us in their life, of course, but just singled us out for a friend, so they said. In fact we couldn't obtain the big furniture bargain they offered without bringing along the letter. This little touch was calculated to impress us deeply. In addition to allowing us \$24.50 off regular price of a set offered, a fine valuable floor lamp was being thrown in. It all sounded good, and we are sorry that we are not in the market, and that the bargain is confined to just a preferred list of people. However, we may be able to duplicate the same bargain at the same low price right at the furniture dealers in Stouffville if we find ourself requiring this line of furniture.

"Quality" ... "Service" Schumacher Feed

QUAKER SUGARED SCHUMACHER FEED is better than Corn, better than Oats, better than Barley, better than Wheat, because it is a blend of all four of them. It is better than a blend of all four of them because it contains minerals and molasses.

Schumacher Feed is a great utility feed—it serves all types of livestock—for growing young stock, raising ton litters, keeping the work horses in splendid condition.

Schumacher Feed is tops in quality, usefulness, price and value. Schumacher Feed has no superior as a service feed. Many poultrymen have found Quaker Sugared Schumacher Feed excellent for cockerels.

Quaker Pig Starter

Quaker Pig Starter is a complete ration for small pigs to be fed from two and a half weeks of age to seventy pounds in weight.

Stiver Bros.

STOUFFVILLE

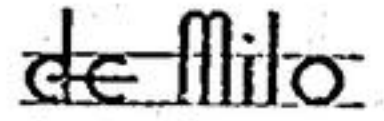

ONTARIO

The next issue of The Tribune will be on September 12.

A new water pipe is being laid from Main street to Barkey Bros. foundry. It was found that a leak was sprung in the pipe near the foundry, and it was decided to instal a complete new pipe which is an inch and a quarter in size.

K. Ross Davis, the new tax gatherer, was making his rounds last week distributing those annual statements to the ratepayers from which there is no escape. The first instalment of taxes in town is due on Sept. 3rd. This instalment is one half the tax bill, and if you choose to pay the second half with the first on or before the date mentioned, a discount of one and a half per cent will be made on the second instalment. The second instalment must, however, be paid on or before Dec. 3rd. A penalty will be added to any instalment not paid by the due date. It will be noted that the total tax runs the same as last year unless your assessment has been changed. The council has done well in holding the rate to that of a year ago, in view of the fact that the Ontario government subsidy is one mill this year as against a mill and a half in 1939. From now until the 3rd of Sept. the collector may be found at the office of the village treasurer. Don't wait until the last day. It is better to call right away and avoid the last day rush.

Elsewhere in this issue the Farmers' Mutual Fire Insurance Co., have inserted an interesting and informative advertisement which will be read by farmers, because they are all

PERMANENT WAVES of quality

Priced from \$2.50 to \$7.50 Including Hair Cut shampoo and wave

Commencing August 1, prices at the DeMilo Shop will be slightly increased.

MARIE'S BEAUTY SHOP Phone 176

interested in fire insurance, and this is one of the large companies, probably holding the bulk of insurance in the local territory. It is interesting to discover from the adv. that our local insurance broker, Mr. Thos. Birkett, has been making out policies for the Farmers Mutual for 32 years, a record not surpassed by any other agent. In fact Mr. Birkett was on the staff before any one of the present directors was identified with the company.

TOWNSHIP of WHITCHURCH PROCLAMATION

TAKE NOTICE THAT THE Township of Whitchurch has been declared a Game Preserve under the terms and conditions as set out by the Department of Games & Fisheries for the Province of Ontario.

Persons are forbidden to carry firearms or hunting without a license. Pheasants have been deposited in the area, and enjoy the full protection of the Games & Fisheries Act.

By order of the council John Crawford, Clerk

Stouffville Continuation School

Reopening Monday, Sept. 9th
Registration, Tues., Sept. 3

This school is equipped and the staff fully qualified to teach Music, Home Economics, and Shop Work to Grades IX and X.

Students prepared for entrance to Normal and the Universities. All Middle and Upper School students are urgently requested to register on Tuesday, September 3rd, or to interview the Principal prior to that date in order that the subjects taught may not conflict on the time table.

The Staff

- Miss Pearl Wilson, B.A., Assistant—French, Music, English, and Physical Culture.
- Miss Ruth Miller, B.A., Assistant—Mathematics, Science, and Home Economics.
- Mr. Ralph Haist, B.A., Assistant—Science, Shop Work, and Physical Culture.
- Mr. Gordon Bailey, B.A., Assistant—English, Latin, and History.
- Mr. L. C. Murphy, B.A., Principal—Mathematics, Geography and Shop Work.

Dr. H. B. Free, Chairman.

J. S. Dougherty, Secretary.
