PUBLIC CONVENIENCE IS ABUSED

We have again been asked to appeal to the decency of the general public using the free lavatories in the municipal building to do their part in keeping them clean. The village provides a caretaker, but notwithstanding, the ladies and gentlemen's booths are shamefully used by a certain element.

Unless the public is aroused to its responsibility, the places will be locked, and available only on application for the key, in which case a check may be maintained. Don't force the council to issue this kind of an order.
