The Township of King is advertising for a big power maintainer and snow plow, and like Uxbridge township, is not submitting the issue to anyone. Council takes the attitude they are elected to do the business, and would not be warranted in spending a lot of money taking a vote on an issue they should decide between themselves than two mixed an opinion from so many electors. We feel sure that when once these townships get these big machines in working trim, they will experience the same satisfaction as has Whitchurch and Markham and Pickering townships.

Lesson for April 20, 1941.
USING WITNESSING POWER

Golden Text—"They were all filled with the Holy Ghost, and they spake the word of God with boldness."—Acts 4:31

The Lesson as a Whole

Pentecost was one of the feasts of the Lord (Lev. 23:2, 15), celebrated annually fifty days after the feast of firstfruits (Lev. 23:9-11), which, on the particular year in which Christ himself fulfilled the Passover type, occurred on the day following the next Sabbath, that is, the first day of the week. Counting fifty days from this would bring one to the morrow after the seventh Jewish Sabbath, and this "first day" was Pentecost. It signified the beginning of an altogether new period of God's ways with men, the setting aside of the old dispensation and the beginning of the new, the glorious administration of the Holy Spirit, the Comforter promised by Jesus (in John 14, 15, and 16) who came in a special way to carry on the work which Jesus began to do (Acts 1:1). The fifth book of the New Testament is therefore pre-eminently that of the Acts of the Holy Spirit through certain of the apostles, notably Peter, in the first section, and Paul in the latter part.

Verse by Verse

Acts 2:1—"When the day of Pentecost was fully come." That is, when fifty days had expired, counting from the resurrection of Jesus. Of "one accord in one place." All were expectantly awaiting the fulfillment of the promise, and nothing was permitted to come in of a character that would destroy the harmony existing among the apostles.

Verse 2—"A rushing mighty wind." Jesus used the figure of the wind, as an illustration of the power of the unseen Holy Spirit (John 3:8). The whole house was affected by this divine energy, as also on a later occasion when the disciples were gathered for prayer (Acts 4:31).

Verse 3—"Cloven tongues like as of fire." Note, it does not say, as some do, "tongues of fire." There was the likeness of fire, and this in the shape of tongues, indicating the purifying, illuminating power that was to control these witnesses for Christ, enabling them to preach with conviction and assurance (1 Thess. 1:5).

Verse 4—"They were all filled with the Holy Spirit." This was for service, that they might represent their risen Lord aright. They immediately began to "speak with other tongues," that is, to proclaim the truth in languages they had never learned, "as the Spirit gave them utterance."

Chap. 4:8—"Peter, filled with the Holy Spirit." The stirring events of the rest of chapter 2, and of chapters 3, and 4:1-7, all bore witness to the endowment of the Spirit. Peter was the outstanding human agent. Here we see him filled and empowered by the Spirit to answer the rulers, as Jesus had promised (Mark. 13:11).

Verse 9—"The good deed done to the impotent man." A man lame from birth had been miraculously healed. This enraged the enemies of the Gospel, and drew many of the common people to Christ.

Verse 10—"The name of Jesus Christ of Nazareth, whom ye crucified." Boldly Peter charged the rulers with the murder of their Messiah. But he declared that he was alive again and through his name signs and wonders were wrought.

Verse 11—"The stone which was set at nought of you builders." He referred to a well-known Scripture (Psa. 118:22) which Jesus himself had used in showing up the wickedness of their hearts (Matt. 21:42). Jesus was the rejected stone, now in resurrection made "head of the corner."

Verse 12—"None other name... whereby we must be saved." God has shut all men up to Christ. Salvation is through him alone. There is no other ground of forgiveness than that of his cross: To him all sinners are invited to come for deliverance from sin's guilt and power.

Verse 13—"They took knowledge of them, that they had been with Jesus." Association with him had made such an impression upon them that it had transformed them, and now as the promised Comforter controlled them as they exalted Christ, their enemies realized there was a supernatural power at work. Otherwise, how could these uneducated and inexperienced men speak with such convincing power as did Peter

INVESTING IN TURNER VALLEY

Since the Turner Valley Royalty No. 1 Well was completed in July 1936, in the West Flank of Turner Valley, many millions of dollars have been invested in the drilling of new wells in this area of South Alberta.

As at January 31st, 1940, there were ninety-seven producing or oil wells in North, Central and South Turner Valley. Estimating average cost of drilling a well in this area at about \$165,000 (varying according to the depth at which completed), this would involve total capital outlay of no less than \$16,800,000, including production equipment costing about \$20,000,000.

It is reliably known that the cost of drilling 91 wells has been recovered from total production of all wells in the short space of 3 1/2 years. The estimated life of the Turner Valley field is from 31 to 46 years at a daily average production of 15,000 barrels, according to Dr. B. Boatright, prominent geologist.

There were by December 1st, 1939, about 18 wells actually drilling various depths in Turner Valley field, and several more are ready to start. There are also approximately 16 more wells drilling in various other fields in Southern Alberta.

Others in various stages of preparation, or standing idle, either awaiting equipment or further financing.

The King's birthday is on September 14, but with our own original way of doing things in this country we will observe it on June 9th.
