We learn from Mr. Allen Clossen that a magot is attacking the onion crop this season, and is responsible for a great deal of destruction. It seems that so far there is no formula prescribed with which to kill this new pest, although agricultural specialists in this branch have been working on the problem. Apparently it is another new pest, but one would have thought that onions of all field crops, would have been strong enough to protect themselves.

Mr. and Mrs. D. M. Heise, Toronto, were in town over Saturday night. Duncan was reminiscing with ye editor about the days when the present combination public and high school was built in this village. It is just 24 years ago, and the late Jacob Heise was the chief overseer, representing the school board. The quality of the work put into that building is self-evident today, for after all the intervening years it shows little wear. Great fear was expressed in some quarters when building operations were going on, that the roof would never stand. Well, the north side is still giving good service, and only the south and west sides are gradually being replaced, so that really long years of service has been had from this large expanse of roof. The job from foundation to garget is a worthy monument to the late Mr. Heise and all others who by their co-operation secured for the district, a building well and truly constructed. Thos. Williamson, so far as we know is the only resident member of the school board of 1916-17, and George Collard was secretary of the board.

Other guests with Mrs. Warriner at present are Rev. and Mrs. Totten, who are having their annual vacation.

The suggestion has been thrown out that the Public Library Board might consider cutting down the open hours for the library during the winter months. The idea is a good one. Considerable saving could be effected in conserving coal, with little inconvenience to anyone. The Library Board have a hard time getting along on their annual allowance, and such a saving would permit them to handle the work in hand with greater ease financially.

N. M. MacLean, census taker for Stouffville completed the task this week of enrolling the 1200 souls of this village. Despite the fact that he asked the age of every woman in town, interferred with getting many a dinner prepared, and put forth many seemingly impertinent personal questions, "Mac" came through without any mishap and does not admit being put out by any of the householders. On the contrary, he wishes us to thank one and all for their courtesy and co-operation.

Mrs. L. C. Murphy, wife of our H. S. principal, motored all the way to Comber near Windsor to visit her brother. She was accompanied by all the household, Jean, Marlon, and the twins, Billy and Eddie. They also visited another brother of Mrs. Murphy's at Springfield enroute home. Mrs. W. Griffith received a scare a few nights ago when a blood vessel broke in her throat, but is now healing nicely, and this busy wife of the village smithy lost no time from her household duties.

Mrs. James Atkin of Toronto has been spending a week in town with Mrs. D. Cook. Mrs. Atkin is no stranger as when a girl she resided on the sideroad north of town, a member of the "Cook family."

Mrs. Sophia Latchford has reopened her home on Main street after many months which were spent at the home of her daughter at Ayr, Ontario.

For the War Branch, five boxes was packed last Friday containing socks, sweaters, quilts, two afghans, clothes for babies, girls and boys, woman and men. Thanks to all who made a donation toward this shipment. M. Davey, secretary.

For the second year now social notes in a Toronto paper reports that "Mr. and Mrs. Harry Pennock" of Stouffville, were among weekend guests at Hollywood Lodge, Lake Simcoe. Rather disconcerting we imagine, but our bachelor linotype operator will explain everything, if you ask him.

Mr. Ed. Vanzant, well known 10th concession farmer, was taken to the Western hospital last week, and may undergo an operation for internal trouble. Richmond Hill has called in the International Water Supply Co. to seek a further supply of water for their domestic system, which ran too short this summer. Stouffville Bowling Club passed from the 1941 competition for the MacKenzie King Trophy on Monday night, when they succumbed to four Markham rinks by eight shots. Local rinks were skipped by M. E. Watts, Milt. Storey, Dawson Davis and Gordon Lemon and the winners were headed by Bob McDonald, Gordon Brown, Ed. Wurm and Max Reesor. The King trophy is competed for in this district in an elimination schedule each year, and is at present held by Markham, 1941 winners.

Constable B. Gayman of Markham Township is credited with conducting some 75 court cases last month, chiefly against speeders. It is interesting to note that one of these cases was directed against a man living in the vicinity of Stouffville who was driving to Markham at 39 miles an hour, but his plea was that he was heading for the office of Dr. Hore, with his wife and child, and there was a real emergency, and that he was driving at a time when the wayside was not burdened with traffic in the neighboring village. We understand he took along a confirmation from the medical man that he did really have to hurry, and while pleading in the police office it was noted that among other offenders caught in the police net was the genial reeve of Markham village, which at least indicated that the cop on duty was no respecter of persons.

## HOPE FOR LOWER INSURANCE RATE

The regular meeting of the School Board on Monday evening did not last very long, as the business to transact was very light. A number of small accounts were ordered paid, and one of \$72 for fire insurance. The chairman and A. V. Nolan were authorized to proceed with engaging help to lay some ten square of shingles on a section of roof lying on the school building, and which is worn out. Mr. Nolan reported that the Board might look for a reduced insurance rate shortly (inasmuch as certain changes had been made in the school entitling the building to a better or lower-rating.
