A telephone call from Uxbridge town just as we go to press informs us that ten organizations in that town and district have combined to implore the Department of Highways to complete the pavement from Goodwood to Stouffville now being constructed from Uxbridge to Goodwood. We are assured that the few who presented a claim for pavement as far south as Goodwood only, do not at all represent popular demand. Organizations petitioning the Dept. are the U.F.O., I.O.D.E., Board of Trade, Veterans, Liberal Club, Kiwanias Club, town and country truckers, the Town Council and others.

## Local Girls Stand Chance to Win Beauty Contest

"All the pretty girls don't live in Toronto by any means," stated Bob Armstrong, publicity man for the big Civic Holiday attractions at Cedar Beach, Musselman's Lake, when he asked The Tribune to urge local damsels to enter the big show.

Miss Burkett, winner of the "Miss Toronto" title last week will be on the grounds all day, and will act as a judge for the beauty contest, but will not be a competitor. It may be noted that this year's winner of the Toronto show was an unknown girl, until she stepped into the limelight at the Police Games on Saturday. Previous winners have all been "unknown," and so some fair Miss from this town would stand a good chance to carry off the \$50.00 award being offered at Cedar Beach.

It promises to be a big show with between forty and fifty competing in the Beauty Contest alone, many of the runners-up in the Toronto display having already entered. Entire net proceeds go to the Red Cross.

## Your Duty is to Help the Farmer

With farm helpers few and far between, Ontario farmers are in desperate need of immediate aid to salvage the hay crop, states A. MacLaren, Director, Farm Service Force, Ontario Department of Labour.

Canada is committed to large quantities of food for Great Britain, 112,000,000 pounds of cheese for 1941 and millions of pounds of bacon as well as vast quantities of powdered milk. This means that every wisp of hay must be placed in barns in good condition. This cannot be done with the pitiful amount of man power at present available on farms and calls for quick action on the part of men who could spare at least one day a week on a farm in the vicinity of his city, town or village.

Already thousands of High School boys have been placed with farmers in various parts of the Province, and the farmers are so pleased with the magnificent response of Youth and the efficiency shown that the Farm Service Force has been asked to supply an additional 500 boys.

There are many industries—particularly in smaller towns and communities—which have among their workers many men who have had experience on the farm and are physically capable of doing a good day's work in the hayfield or harvest field. Our appeal is to such industries as are not engaged in essential war production—to allow such workers as will volunteer to help in haying and harvest, one day a week so that they may spend it on some nearby farm, helping to bring in the hay or harvest.

Contact the district representative Ontario Department of Agriculture, Newmarket, or notify the office of this paper if you can help.
