PEANUT GROWING HERE NOW BEING TRIED

Folk look upon the humble peanut as an imported article, but they can be grown in Ontario. At New Hamburg they are being harvested with more or less success, but only in an experimental way. Then right here in Stouffville Mr. E. R. Good at the Brierbush planted peanuts in his garden and while they have not been taken up, he anticipates some success. While it may not be possible to grow peanuts locally as a paying crop, it may be quite profitable to produce them in garden lots for the home use.

Mrs. Frank Staley and Miss Marian, Toronto, were guests with Mrs. F. L. Button and Miss Todd over Sunday.

Numerous Auctions Within Next Week or Two

There is an unusual number of good farm stock sales listed right now, although there may be a lull when the advertised list is completed, that is the sales reported in the sale register. Following Piper's sale on Wednesday this week, there is the auction at Locust Hill today. (Thursday) of the furniture, including many summer fixtures belonging to the estate of the late Margaret Boyd. The property of 94 acres ideally located will also go under the hammer.

On Saturday the farm stock sale at the farm of Wm. Dunn, on No. 7 Highway a half mile west of Brougham together with the property consisting of 50 acres will be auctioned.

On Monday next, October 13, Ernest Madill will offer for sale the entire list of implements which he carried over when he gave up farming with the expectation of starting up again. As he does not intend to farm everything will be sold.

The big hog producer, J. H. McGillivray will offer without reserve 150 swine at his farm lot 21, on con-2, Uxbridge together with a nice run of cows, heifers and a couple of bulls. The date is next Tuesday, October 14th.

Frank Wagg's big sale on Oct. 23 is being posted this week by large bills. This is an outstanding sale as the owner is giving up farming after many years on the land.

"FIRE IN HIS EYE"

If the constable of Markham township may soon appear to have "fire in his eye," he may be reasonably excused. Markham council on Monday ordered a siren to replace the horn on Constable Ben. Gayman's car. When installed the siren will be capable of making cars take to the ditch when the driver imagines the equipment and company of fire fighters are demanding the road. However, Constable Gayman is not likely to abuse his new weapon for blasting traffic off the roadway to the curbing.

A quiet wedding was solemnized at the Christian Church parsonage at Newmarket on Saturday, Oct. 4, when Kathleen Gumuly, daughter of Mr. and Mrs. A. Gumuly, Brampton, became the bride of Donald Closson, son of Mr. Allen Closson and the late Mrs. Closson of Stouffville. The Rev. Arthur Greer, Newmarket, performed the ceremony. A sow on the farm of Fred Morton, just north of here produced a litter of seventeen piglets one day last week. THE PRIME MINISTER OF CANADA.

STANDARDIZED FOR EFFICIENCY

A car with Nova Scotia license plates limps into a service station in Winnipeg. Steam is spouting from under the hood. "It's your water pump," says the mechanic. "We can have a new one on in a jiffy—won't hold you up long." Only a water pump—perhaps assembled in Oshawa or Windsor from parts made in half a dozen different towns, yet it fits to a T when this Manitoba mechanic puts it on a car from Nova Scotia.

Uniformity—standardization—are big factors in telephone service, too. You can talk practically anywhere, any time, for one reason, because telephone equipment made with meticulous care fits to a T in all parts of the system. Operating methods are co-ordinated, too, so that your call is put through quickly and accurately—your voice spans the miles direct to your listener's car. To a nation at war, such standardization is a great asset.
