Some Twenty-four Persons Affected by New Licences

Departmental and country general stores, large hotels and soda bars, manufacturers and auctioneers, every person and firm in Canada manufacturing or dealing in food feeds, livestock, poultry, yarn, cloth, clothing or footwear must secure a license from the Wartime Prices and Trade Board by December 1 of this year.

After that time, no unlicensed person or firm may buy for resale, handle, or sell any of those commodities.

The License

More than 200,000 businesses are affected by this vast plan to set up the machinery necessary for policing prices and for securing speedy reports on available supplies in the event of a wartime shortage.

Here it's expected that 24 persons and firms will soon be displaying on the door or window of their place of business the attractive gold and blue certificates which shows the public that they have obtained their wartime license.

There is no license fee. License application forms will be distributed through the mail late this month and any businessman who is subject to the licensing order and does not receive an application form should apply for one at this post office. At the post office copies of the complete licensing order will also be available. To facilitate further the introduction of the licensing plan, the Wartime Prices and Trade Board is appointing nine regional licensing directors, one for each province. Individuals or firms who, after consulting the text of the licensing order, are still not certain on all points, should communicate directly with their Regional Licensing Director.
