"DUMBO"
A WALT DISNEY PRODUCTION

Pte. Allen McConnochie of the Canadian Postal Corps is in Stouffville this week visiting with his wife and family here.

Mrs. Ira Anderson is in town from Port Perry visiting with Mr. and Mrs. Howard Malloy.

Stouffville Red Cross Notes
Contributions gratefully received include: Mrs. Briard, quantity of used clothing; Eleanor Marshall, baby blanket.

Owing to the serious shortage of yarn all sock knitters are urged to very carefully check their work, keeping the length of leg down to the prescribed 11 inches. Sweater knitters should ask conveners about the new shorter lengths for the side seams. —Mrs. Roy Grovo

Do your bit for the Red Cross. No other organization, no matter how worthy, can do the work assigned to the Red Cross overseas and among our boys who are prisoners in enemy hands. This work alone costs a lot of money, and every cent is needed to make up the total.

Air Cadets Camp
On July 13th-18th.

The Stouffville Air Cadets will attend the camp being set up by the R.C.A.F. at Kingston on July 13th to 18th. There will be no expense attached to the individual cadets. Train and bus fare will be provided. The boys will be taken on a most complete tour of the city of Kingston during their stay. While they are at the air station they will get an insight into every phase of the training, and will be allowed to occupy the cockpit of the various types of planes stationed there, including the Anson bomber and the Harvard trainer. No cadets will be taken aloft however. The officers of the Unit with the exception of one, who will accompany the cadets, will go for two weeks to Jarvis centre.

Local & Personal News

Miss Mary Curtis of the Lindsay school staff was in Stouffville for the weekend.

E. A. Grubin, R.O., Optometrist, will be at his office in Stouffville on Monday, May 18th.

Mr. and Mrs. Ed. Warner and son Bob of Toronto, spent Saturday with Mr. and Mrs. H. D. Sawyer.

"Slender Tablets harmless and effective." Two weeks supply \$1.00 at Storey's Drug Store.

The village of Elora recorded 65 fires the last 28 years, which is a most interesting record.

Ralph Parkinson who performed for the Markham Intermediate hockey team this past season will join the ranks of the athletes entering the services. Ralph will don the navy blue. He is, we understand, a softball player of no mean ability, and will play for the navy softballers at Davisville this summer.

Thomas Williamson, one of our 90-year-old citizens found the going so hard one morning last week, that he had to be assisted home when he came down town to get the mail in his accustomed manner. Since that day he has been unable to leave his home due to weakness. This veteran citizen has hopes of soon being able to travel about again however.

The passing of Mother's Day last weekend brought real sunshine into the life of one Stouffville mother, Mrs. Edw. Lintner has two sons serving with Canada's Fighting Forces. Mrs. Lintner reports a cable from her son Bruce, who has been with the Royal Regiment of Canada in England for over a year now, and a warm letter from Charlie, who is stationed at Newfoundland.

Rushed to the Toronto General Hospital for an emergency operation for appendicitis about ten days ago, Miss Joyce Ball, daughter of Dr. S. S. and Mrs. Ball, will be home again this week. A number of friends who called at the Private Patients Pavilion on Sunday reported that Joyce was making excellent recovery. Joyce is a student taking upper school work here, but we understand that her advanced standing on the term work will stand her in good stead at this time.

Frosts Damage Gardens
Severe frosts several nights during the past week affected some gardens more than others, according to reports. Strawberries and early vegetables in parts of the town were unharmed whereas in other gardens the young shoots were blackened off. The cool weather and absence of hot sun did much to alleviate the frost damage, which some mornings showed white on roof tops.

Packard Burns on Highway
A 1937 Packard sedan, stolen from Toronto, was badly damaged by fire one evening last week on the 4th concession of Whitechurch. Les Harper and son of Whitechurch first saw the flames shooting high in the air. So intense was the heat that the burning vehicle could not be approached. Constables Sloss and Watt investigated and learned that the car had been reported stolen from a Toronto address.

"Dundalk" council has instructed their town constable to ring the curfew bell every evening at nine o'clock and to have inserted in the newspaper of that village for two weeks section 16, of chapter 312, R.S.O. respecting children on the street. The writer was under curfew law in Uxbridge forty years ago, and recalls that we just had to scramble off home, and a good thing it was.

Renewing her Tribune on Saturday evening a lady from Gormley said that she invariably took advantage of the grocery bargains in this paper, and that recently her husband sold an advertised piece of machinery from the farm that brought in \$40 and which they would have given away for salvage at one time, so that the subscription price was taken care of for many years to come. There's a tip to the local advertiser as well as advice to all others in what this lady had to say.

A local touch was added to the tour of the Ontario-Quebec weekly press party's trip through the John Englis plant, Toronto last week, when The Tribune representatives came upon Harold Cook working away at one of the thousands of drills operated in this huge works. The plant is being constantly extended, and Harold who is a native of Lemonville, and a Stouffville ball player of long-standing, is working in one of these new additions. There are 10,000 employees on duty at present, a number which is to be raised to 16,000 by fall. Over fifty per cent of these are girls who are working two 12-hour shifts a day.

Mr. Martin Tait is serving on petit jury in Toronto although he was first called as a grand jurymen. Eighty-eight men were challenged one day last week on one case alone, and men on the grand jury were called in to fill the gap threatened by discarding so many of those called.

The Stouffville Floral Co. cut no less than 30,000 roses last week, which seems to us something of a record. Mother's Day was not forgotten judging from the patronage accorded the local rose firm whose product is rated very high on the market.

Uxbridge Township Donates \$25
Uxbridge Township Council on Saturday granted the Stouffville Air Cadets the sum of \$25, which is greatly appreciated as has been the splendid co-operation of all surrounding municipal councils in aiding to train the youth of the district along these lines.

Richmond Hill's 93rd annual Spring Fair will be held Monday, May 25th. This is one of Ontario's oldest Horse Shows and this year some of the finest horses in the province will be seen in the show ring. In addition to the showing of light and heavy horses there will be a program of thrilling saddle and hurdle events with some of Canada's finest jumpers competing.

Air Cadet Unit Commended
By Headquarters
Flying Officer Rogers and Flying Officer Douglas, both of No. 1 Training Command R.C.A.F., in charge of air cadets were warm in their praise of the drill display by the local Air Cadet Unit on Friday evening. The Stouffville officers were commended for the way in which they handled the regular drill period, which showed an accurate knowledge of R.C.A.F. methods.

Boys From Markham Call at Editorial Sanctum
Reeve James Rennie, Deputy Reeve Charlie Hoover, and Councillor Harry Barber gave this paper a friendly call on Monday afternoon while on an inspection tour of roads in Markham Township. While they may differ sharply in matter of policy and religion (what's religion) the members of Markham council are all men of the type fair enough to disagree and still be friends. Of course with a smooth course and no financial worries or entanglements the Markham legislators can afford to wear the everlasting smile.

Dog bylaw being Observed
Judging by the scarcity of foot-loose canines running the town, dog owners generally are observing the bylaw which is enforced at this season of the year in most towns, in the interests of flower beds and gardens where the house pet insists in hiding that choice bone or morsel of meat to dig up another day. So far there has been no complaints that the press has heard about against dog owners, and this is something pleasant to announce.

The Tennis Club Officers:
The Stouffville Tennis Club are planning a big tournament to be held on the local courts on Victoria Day, May 24. Organization for the season recently took place and resulted in the following officers being appointed:
President - Morris Hornsby
Vice President - Mrs. Bailey
Secretary-Treas. - Eulah Brillinger
Scribe - Marguerite Grubin
Grounds Committee - Cameron Aldred, Gerald Brillinger, Stanley Schmidt, Kenneth Schell.
Games Committee - G. Spence, Arnold Schell, Ruth Barker, Jean Westlake, Irvin Borinsky.
Entertainment Committee - Mrs. Bailey, Edna Agnew, Helen Stouffer, Mrs. Barker, Audrey Jennings. Note, all those wishing to participate in the holiday tournament are asked to leave their names with Mr. Gordon Spence as soon as possible.

Meeting the Train
To visit the local depot around nine o'clock any Sunday evening now, is just like stepping back into the days of 30 years ago when every body went to "meet the train." Last Sunday night we estimate there were 150 people at the station to "watch the train come in," or better still to "see their friends off." Probably fifty or sixty people entrained Sunday evening for Toronto and other places after spending the weekend in the country. Many motor cars were in the station yard, indicating that city folks were being brought in from the farming district to travel home by train. At the time of all this commotion some 40 freight cars stood on the siding waiting for the Toronto passenger train to pass, and we could not help thinking, how we seemed to have turned back to take a leaf out of the way of life of 30 years ago or more. Not long ago people sneered at the old "iron horse" as a means of travel, but now it is all different, and they are proud to accept the services of the passenger train. Somehow, we like it.

"QUALITY" SERVICE

For NEW FORD TRACTORS and Ferguson Implements

Patented 1942

Holden's Automatic Depth Control, Straightener Evener, and Side Hill Hitch Device

This device automatically controls the hydraulic depth required regardless of the condition of the varying soil to be tilled, either in plowing or cultivating for general purpose, or Row Crop work. It is not necessary for the operator to watch and move the manual controlled hydraulic lever to maintain an even depth. You can change the desired depth if necessary while the tractor and implement is in motion, by a simple adjustment that only requires 1 or 2 seconds.

The Straightener, Evener & Side-hill Hitch allows the operator to set the plow as desired independent of the tractor draw bar hitch, at the desired width. It enables the operator to steer the plow to take a wider, or narrow furrow to take out a crook, by the simple operation of turning a cranked screw adjustment to vary width six inches either way, or to hold his plow up on a steep side hill when the tractor slides away. It can be adjusted to change width from one sixteenth of an inch up to six inches. With this attachment an operator can go out and do a show job in striking out and finishing a land in such a way, that it makes it the best outfit to do a show job of anything on the market to-day.

Price of complete attachment including printed instructions for installation is \$30.00 F.O.B. Stouffville, Ont. If you reside out of this locality and would like to have one, send Money Order for \$30.00 to D.F. Holden & Sons, Ford Sales & Service Stouffville, Ont. We will ship you complete Attachment. Shipping charges collect at destination. It only requires ten minutes to install, and any one can do it by following instructions.

DOMINION STORES LIMITED

Mother's Day services were held in most of the village churches last Sunday.

Miss Elsie Johnston has returned from Toronto and will spend the summer at the old home on Charles street.

The New Cop Steps Out
Saturday evening Constable Ira Rusnell was on duty regulating traffic, and while he is not yet equipped with a complete new uniform, the police cap, belt and holster, gave him added police bearing. The mere appearance of an officer moving about in the heavy traffic, has a splendid effect on the conduct of motorists that keeps them all doing the right thing. Constable Rusnell had little trouble in keeping the entrances to side streets open to traffic also the entrance to the fire hall which is so often blocked up with cars that would prove a menace if an alarm were sounded when this condition prevails. Citizens were congratulating the new officer for the manner in which he handled traffic on Saturday evening.

Miss Margaret Byer, daughter of Mr. and Mrs. N. W. Byer, is the new junior clerk at the Bank of Nova Scotia.

Mr. and Mrs. Allen Clossen left on Friday for Royal Oaks, Mich. Mrs. Clossen's former home, where they will spend a month.

Four Generations Gathered
Sunday, there were four generations among the eleven guests at the home of Mrs. Thomas Bacon at Claremont which included her mother Mrs. Wm. Watson and her uncle Wellington Lehman from Stouffville. The fourth generation was represented by the baby son (Gary) of Constable and Mrs. Edgar Kidd of Richmond Hill, Mrs. Kidd being a daughter of Mrs. Bacon. Some of the other guests were Miss Hazel Bacon teacher at south Gormley and Mr. Earl Booth, Miss Myrtle Bacon of Toronto, Douglas Bacon teacher at Schomberg. During the day Master Gary Kidd was one of a class of children to be christened at a church service in Claremont village.
