**ASSESS FOUR \$100 ON GAMING CHARGES**

Were Arrested After "Flying Squad" Raid

Fines of \$100 and costs with an alternative of one month in jail in each case were assessed four Uxbridge men Friday afternoon by Magistrate F. S. Ebbs when they admitted charges of operating common gaming houses. Three slot machines were ordered confiscated.

The charges were laid last week after a "flying squad" from the provincial police office in Toronto under Staff Inspector Edward T. Doyle, raided the Maple Leaf Cafe, The Mansion House, and the poolroom and cigar store there. The men charged were William Carnegie, Henry Leask, Arthur P. Martin and Robert Ansel Beverley.

Carnegie and Beverley were both charged as partners in the slot machine seized in the Maple Leaf Cafe. They admitted operating the machine on a 50-50 basis and were both fined. Martin was charged in connection with the Mansion House, and Leask the poolroom and cigar store.

**PRICES ON BEEF SUIT FARMERS**

Report of Agricultural Committee Submitted to York County Members Last Week.

Several members of York County Council, representing farming communities in the municipality frankly admitted that the farmer was satisfied with the present price he was getting for beef in a discussion of the agricultural committee's report.

"As I view the situation from the information I have received here today the farmer is in pretty fair shape," declared Reeve F. G. Gardiner of Forest Hill Village. "He has exercised the alternatives he has at his disposal. He sold his hogs at an equitable price. When pork became scarce and people turned to beef, a shortage in beef arose and the farmer is now taking the enhanced value of his machinery of milk production rather than the interest on his investment, represented by the milk produced by the animal.

"As the dairy herds were reduced milk will become scarce and he will get an increased price for milk. I cannot see that there has been any case made out for puncturing the price ceiling. The Wartime Prices and Table Board are taking the only sane course to prevent inflation which would be followed by a slump a hundred per-

cent worse than the one through which we have just passed. While there may be some criticism of some smaller detail of its manner of applying the principles of economics we should realize that they are following the only course to give the working man and everyone else a fair break," he concluded.

J. S. Osborne, of East Gwillimbury, declared that the shortage of beef was only temporary. "There is always a shortage of beef at this time."

Charles Hooper, Deputy Reeve of Markham, warned that "if farmers turn dairy herds into beef a serious situation will develop, and urged council to do something about the situation. He pointed to the increased number of cattle slaughtered during the first 21 weeks of 1942 as compared with the similar period last year.
