Lake Building Restricted by War

The cost and shortage of building materials are showing their effect this year on the amount of cottage building around Musselman's Lake. While building has not ceased altogether, the number of new cottages that have gone up, or are in the course of construction are only half that of previous seasons.

Rose Hill Drive, which is an offshoot of Cedarvale Blvd., north shore, has a practically completed residence for Mr. and Mrs. Kennedy of Toronto. Wes Schell of Stouffville was the contractor.

A second cottage being built by the Stouffville contractor is on the same drive, and will be occupied by Mrs. Bathington of Toronto.

On the west shore of the lake-shore drive, a lot has been purchased from Mr. Fretzer and a cottage is being built by Mr. E. Alms of Toronto. Mr. Alms was at one time a carpenter in the city of Windsor, and is doing much of the work himself.

One new residence is under construction on Evans Drive, for Mrs. H. McQuillan.

Other small changes in real estate have been made, including an addition to the Walton Cottage on Evans Dr., and the purchase of the McNelly cottage on the south shore by a Mr. Smith of Toronto. The place has been repaired, a new roof and paint job being done. This was the former Levi Hoover cottage.

Mr. George Davies of Cedar Beach contemplates increasing his number of cabins, while Mr. Hoskin of Moon-Haven has added two new double cabins to his park.

One of the most unique buildings being used this year, is a portable cabin in William Evans camping ground. The small one room set-up arrived in sections from Hamilton and is put together with about a dozen bolts, sides, roof, floor, awnings, all complete. The place is the property of Mr. and Mrs. Bennet. Mr. Wilbur Bennet has also erected a small summer cabin on this drive.

The foundation is in for the new pavilion being built on the south shore by Fred Coultee, and the place is expected to be completed before the year is out.

GO TO CHURCH SUNDAY

IS IT A SQUARE DEAL For you to neglect the church when you would not live in a community without the church? If the church is the backbone of any community; the center of all our best life, thought and development; the greatest builder of private and public character; the soul's school for a character that will live through eternity; and the fiercest through its membership of more than 80 per cent. of all charity—is it a square deal for you to let others do all this for you—and carry your dead weight beside?
