Some of the advantages of the larger school area includes a more equal school privilege for each rural pupil and more equitable distribution of school costs. The raising of the level of the unsatisfactory school in the community to the level of the best.

More local interest in the needs of the schools and more efficient school boards meeting regularly to discuss ways and means of improving the schools. Less local jealousy and prejudice in school matters. The possibility for the better placement of teachers, a more healthy competition among rural teachers.

"I never knew he was dead!"

How many times have you heard friends state that "So-and-So" was buried, before they knew that they were dead. It is one of the sad reflections of this busy age. So many people do not even take time to issue a formal funeral notice for members of their own family, and merely depend on a newspaper to advertise the fact.

GREAT RESPECT and better form is shown by issuing a funeral announcement in formal style. Your undertaker will take the order for cards and the cost is really very small. Funeral cards are obtainable in time of trouble in a few hours. They make suitable announcements to send to distant relatives too.

ASK YOUR FUNERAL DIRECTOR.
