Provision is also made that students who have to remain on farms where a lot of work remains to be done can return by October 1st without losing their standing.

Troubles Never Come Singly

Says the Cooper Family

As if putting one's shoulder out of commission wasn't enough to happen in one family at a time, since Frank Cooper was injured his son Charlie received a call from the military last week to present himself for medical examination.

The calling of Mr. Cooper would cause the most serious distribution to business that would be possible in Claremont, the Cooper establishment being one of the oldest and largest hardware, garage and motor sales in the district. Only a year ago nearly twenty hands found employment with our genial businessman, while this year sees all but two taken for military service, this week the boss himself being given the first call.

BARBED WIRE OUTPUT CUT

Humble barbed wire, even though the war demand isn't so heavy nowadays as it was when trench warfare was in vogue, came under regulation today by the Wartime Prices and Trade Board, with output restricted.

bumper crops stand everywhere in sheaves and more sheaves. Weather has been most favorable to giving us more time to get the crop under cover with so little help to do it.

Income Tax is Fair to All

In the fourth year of war, Canada will need almost four billion dollars. This is the equivalent of nearly \$350 from every man, woman and child in the country.

Even with the highest income tax in history, 52% only of the money Canada needs will be raised by taxation. The rest will have to be borrowed by means of War Savings Stamps, Certificates and Victory Bonds.

Starting with the first pay period in September representing September earnings only, your employer is required by law to deduct your income tax from your wages or salary, and send it promptly to the Government. Everybody will pay his share as he goes along.

It's going to be tough... but not too tough! Here are some good features:

1. You will pay as you earn, so that you will not be faced with a large lump sum payment next year.
2. The National Defence Tax already deducted during the first 8 months of this year has been taken into account in the Table of Tax Deductions.
3. Though the income tax rates show a sharp increase over last year, a large portion of this increase is actually savings, to be paid back to you with interest after the war.
4. The money you are paying for life insurance premiums, annuities, principal repayments on your home, or into a pension fund may be deducted (up to a certain maximum) from the savings portion of your income tax. In many cases this may be sufficient to make payment of the savings portion of the tax unnecessary.

Unless you are single, without dependents, and not making payments of the types mentioned in paragraph 4 above, you should file Form TD-1 with your employer. Otherwise, you may not be allowed the credits to which you are entitled. DO NOT DELAY. File Form TD-1 with your employer at once so that you may get the full allowances from the start.
