Newlyweds to Live at Gormley

A very pretty lawn wedding took place at the home of the bride's uncle, Mr. Samuel Doner, on Tuesday afternoon, when Frances Eva Wideman became the bride of Mr. Whitney Thomas Johnson. Rev. A. G. Doner of Muskoka performed the ceremony.

The bride, given in marriage by her uncle, wore a street length dress of dusty rose sheer and carried sweet peas and gypsophylla. The attendant, Miss Mabel Wideman of Stouffville, as bridesmaid, was dressed in powder blue crepe and carried French Marigolds and Mr. Lloyd Johnson, brother of the groom, was best man.

The ceremony took place beneath an arch of evergreens banked with phlox and gladioli. Miss Dorine Gooding of Gormley played the wedding music. After the ceremony a buffet luncheon was served on the lawn, to about 50 guests.

For going away the bride wore a brown suit with matching accessories and a corsage of sweet peas. The happy couple left amid showers of confetti for a short honeymoon. On their return they will reside in Gormley.

REEVE LEAVES PLANING MILL, LEADS WORKERS TO FIELDS

Led by Village Reeve O. B. Hiesey, twenty of Markham's village business men including a few of their own regular employees from the Reeve's Planing Mill, visited the farm of Albert R. Wiedeman, eighth concession, and stooked twenty acres of spring grain in an hour and a half.

This Good Samaritan act was one of a series in which Reeve Hiesey has been the prime mover, and which have been the means to "save" large acreages of heavy grain during the last few weeks. A day or two ago taking some of his own paid helpers, headed another party of fifteen to the fields. They stooked ten acres of oats for D. R. Clendenning, ninth concession. The farmers visited have been highly appreciative of the service rendered, and always at no expense to the farmer.

Most surprised man in the district has been H. C. Hamill of Cedar Grove, whose farm, along with that of a neighbor, Harold Coakwell was visited by thirteen Toronto men. Organized as a platoon in the Bring-in-the-Food Campaign, the volunteer harvest hands divided into two groups and attacked the cut grain on both farms from early morning until five o'clock.

REPUTY REEVE OUT OF THE HOSPITAL

George Leary, deputy reeve of Whitechurch Township, who was removed to the General Hospital ten days ago, is home again at Gormley feeling much improved. It is possible that he may escape undergoing an operation, a condition which existed only a few days ago. When The Tribune called up his home this Wednesday morning, we were agreeably surprised to hear Mr. Leary's voice, indicating he is much improved.

There seems to be better chance of prompt delivery of ALBERTA COAL. It is being urged that consumers should use more of this coal. It is an economic fuel, and its use will retain needed dollars in Canada. To meet the threatening situation I have coming about the middle of September a car of Alberta Coal. It is especially economic for use in moderate cool weather. Try a half ton or more if you prefer. Leave your order with as little delay as possible.

NOTICE! To Our COAL Patrons

To those buying Coal through the U.F.O., and who have not yet received their coal for current year, I wish to say: Hard Coal is coming through very, very, slowly. Our suppliers however, assure us that it will come. There is no lack of coal, but a lack of cars to ship it in. It looks now, however, as though chilly weather may be upon us before all have received their coal.

To those who worry about the delay, I feel that I ought to say that if you can expect more speedy service from other sources, you are to feel quite free to obtain it from such sources as you may see fit. Meanwhile I will keep you on our list until you notify me you are cancelling, and I will dole our car loads that come to hand by the ton, or two ton lots, in so far as we can do so, in hopes that, as so far as possible all may have at least a limited supply with which to meet the fall weather.

There seems to be better chance of prompt delivery of ALBERTA COAL. It is being urged that consumers should use more of this coal. It is an economic fuel, and its use will retain needed dollars in Canada. To meet the threatening situation I have coming about the middle of September a car of Alberta Coal. It is especially economic for use in moderate cool weather. Try a half ton or more if you prefer. Leave your order with as little delay as possible.

I wish to add that I have enough cars of hard coal ordered to cover all orders booked and these orders have all been accepted by the suppliers, and I fully expect that all will be delivered. The only question is, will it come through fast enough to save all from chilly feet. I am doing the best I can to urge more prompt shipment, but we have to take our turn.
