

# Canadian Women's Army Corps Wants 3,590 Recruits

A new recruit for Canadian Women's Army Corps is measured for her skirt (LEFT). The recruits have 125 combinations in fitting to choose from. The women's corps is now seeking 3,500 recruits. The corps eventually may be as big as a division. Under the old system each girl was individually measured (CENTRE) for a tailored suit, but that system was too slow and now measurements are grouped. In the corps is this new member of the C.W.A.C. as she salutes her officer at Trinity barracks, Toronto, where women of the Canadian army train.

### MANY MUNICIPALITIES HAVE NO M.O.H.

An urgent appeal for the widening of the public health services is published in the current issue of the Canadian Public Health Journal which contains a detailed analysis of data obtained by the Committee on Full-Time Health Services.

The study shows that in 1938 there were only eighty-five communities in Canada (representing 50 per cent of the total estimated population) served by a full-time medical officer of health.

Of the eighty-five communities, twenty-eight were considered urban, four rural, and eleven serving both urban and rural populations. Although the number of rural municipalities greatly exceeds the number of urban municipalities, the population served in British Columbia, Alberta, Manitoba, and Ontario was predominantly urban.

### WOMEN REGISTER AT NEAREST POST OFFICE

Because registration of Canadian women will be compulsory under the National Selective regulations, with the first group registering between September 14 to September 19, Mrs. Rex. Eaton, assistant director of National Selective Service has issued clear-cut explanations of who must register so that no women will break the law intentionally.

The first group to register will be the age classes born between January 1, 1917 and December 31, 1921—in other words, women between the ages of 20 to 24 inclusive. All women must register, with one exception and that group is made up of the women who are employed and in possession of unemployment insurance.

Registration should be made at nearest post office.

### YOU CAN'T BUY NEW PUMPING SYSTEM EASILY

Difficult as it now is to secure new Pumping Systems and equipment for Domestic Use, the situation will gradually become worse, as more and more material is required for War Purposes and further restrictions are placed on manufacturers for home use.

It is now almost impossible to secure any water Pumping Systems, unless you can prove it is absolutely necessary for farm use and necessary for increased production of crops.

Manufacturers of these time and labour saving devices, recommend that owners of Pumping Systems have their pumps thoroughly checked from time to time. Owners can check their own system. The pressure switch can be checked to make sure it is cutting in and out at correct pressure by observing the readings on the pressure gauge. A fluctuating switch means wears and tear on the contacts. A worn diaphragm will also cause trouble.

Check the oil in the crankcase as you would the oil in your automobile. Lubrication of parts makes them last longer.

# GOVERNMENT INSURANCE IN CASE OF WAR DAMAGE TO PROPERTY

## OWNERS OF PROPERTY ARE URGED TO INSURE AGAINST LOSS BY ENEMY ACTION

The Government of Canada, by Act of Parliament, has set up a Plan of War Risk Insurance against damage to property caused by enemy action—by countermeasures taken against the enemy—by explosions of war munitions handled by third parties.

In terms of general information, it may be stated that the Plan provides a certain limited FREE COMPENSATION for damage to owner-occupied homes and to chattels, but the main feature of the Plan is that owners of most types of property can protect their property by PURCHASE of GOVERNMENT WAR RISK INSURANCE at very moderate rates.

This type of War Risk Insurance is not being sold today by private insurance companies, because of the risk involved. Consequently, the Government has established a national scheme to make it possible for each citizen in Canada to purchase the sense of security that comes from knowing that if his property does suffer war damage (and the war has come much closer to Canada in the last twelve months) he can call on the resources of Canada to help him make good his property loss.

## HOW TO OBTAIN GOVERNMENT WAR RISK INSURANCE

The Fire Insurance Agents and Companies of Canada have volunteered to the Government the services of their extensive facilities and personnel, on a non-profit basis, thus avoiding the setting up of the large organization that otherwise would be needed to handle details of this nation-wide Government War Risk Insurance scheme.

**YOUR FIRE INSURANCE AGENT OR COMPANY WILL GLADLY SUPPLY COMPLETE DETAILS OF THIS GOVERNMENT INSURANCE PLAN.**

THIS ANNOUNCEMENT IS PUBLISHED so that the public may have notice of the Government War Risk Insurance Scheme. The information given above is not intended to be a complete resumé of the Scheme. Full information regarding conditions, exclusions, etc., is available elsewhere.

### TO HOME OWNERS HOUSEHOLDERS and OTHERS

Limited free compensation is provided under the Act for War Damage by enemy action to owner-occupied homes up to \$3,000. Damage to Householder's Chattels, up to \$800—for those of his wife, up to \$400—for each child under 16, up to \$100—for others, not householders, up to \$200.

No policies are needed in this classification but insurance additional to the above amounts may be purchased.

Ask any Fire Insurance Agent or Company for complete details.
