Talking About Dates
Mrs. Forsyth of Toronto who spent the Thanksgiving holiday in town at the home of her daughter on Church street, Mrs. Horace Walsh, had occasion to remember last Sunday in a special way. Mrs. Forsyth was sixty years married on that date, and also was a widow for 40 years. Her husband might well be remembered by some of our older readers from Uxbridge way, as an implement agent in the northern town.

Gather Your Own Leaves
Residents should not leave the maple leaves from their trees to blow over the pavement, for the town man to clean up. Each property owner or occupant should undertake to care for his own accumulation. Burn them or use them on the garden, but do not allow them to blow everywhere for the other fellow to clean up. This request is being made in other newspapers as a measure of economy. After you have done your best, there will still be plenty of cleaning to be done on the pavement. It is also to be noted that bonfires must not be made on the pavement, heat of which will damage the asphalt top.

The lighting outside however, comes under the same restrictions as stores, theatres, etc.

HOME POWER OR WAR POWER?

I NEED YOUR POWER!

The use of electricity for commercial purposes has already been restricted. Further restrictions are planned. But we need more power than can be saved from these sources. The voluntary co-operation of the public in the conservation of power is absolutely necessary.

Unless you cut your power consumption by at least twenty per cent—you are not saving enough.

Clear telephone lines for ALL-OUT PRODUCTION

Your telephone is part of a vast interlocking system now carrying an abnormal wartime load. Don't let needless delays hold up messages on which production efficiency may depend.

OTHER "WARTIME TELEPHONE TACTICS"

- BE SURE you have the right number... consult the directory.
- SPEAK distinctly, directly into the mouthpiece.
- ANSWER promptly when the bell rings.
- BE BRIEF. Clear your line for the next call.

These things may look trifling, but on 6,500,000 daily telephone calls, they are very important.
