**\$8 Harrows 25
Years Ago Sold
For \$7 Last Week**

The strong position of farm implement prices was well exemplified last week at the Duncan Dolphin sale at Claremont when the set of harrows purchased by Mr. Dolphin 25 years ago for \$8 was knocked down by Auctioneer Farmer, for \$7 at Thursday's sale.

Improved prices for horses were seen in the sale of the farm team at \$275. The 4-year old mare brought \$127.50 and the 7 year gelding \$147.50. Charles Newman was the purchaser. The high priced cow realized \$122, and her twin calves brought \$50 each, a big price for this one family. Baby beef sold at \$50 each and fat steers around 950 pounds brought \$100 each. Pigs just weaned went for \$6.60 each and sows recently bred \$50 each. Mixed grain brought \$26 ton, and the sale ran around \$4,000.

Patriotic Girls Do Their Bit

Two Newmarket high school girls who helped to harvest this year's crop are Mary Jean Marritt (at the wheel), who operated the tractor for all harvesting operations on the farm of her father, Frank Marritt, Keswick, and Audrey Hunt (shown with her), who helped her father, Charles Hunt, Newmarket all summer.

THE MANY-SIDED NICKEL

Stouffville citizens will be able to find nickels in their pockets among even a handful of other silver coins, now that the new 12-sided 5c pieces have made their appearance here.

Made of copper and zinc, the new coins are called "blackout nickels" because of their dark coppery shade, and odd shape.

Replacing the present large nickel this new coin was created when war industry demands created a shortage of nickel. Although the same size as the old nickel, the new one will be easy to distinguish even from a copper because of its unusual circumference.

While the local banks had received no issue of the new nickels on Monday, they have made their way here from the larger centres and were to be seen in town last week. We were curious to know why they were made with 12 sides, but after seeing them, the reason is apparent. You couldn't tell them from coppers otherwise.

Stouffville Red Cross Notes

Bethesda unit is sincerely thanked for a fine donation of 1 pair of army blankets, also a fine lot of completed work including a quilt, sweater, socks, girls' blouses, knitted garments for babies. Our new knitting quota has arrived and your help is needed for gloves, mitts and sweaters. Mrs. Roy Grove.

**WE'RE GOING TO NEED SO MANY THINGS
WHEN THE WAR ENDS ... things that are hard to get now**

Every day, almost, we find that something else is getting scarce. So often, we are told "they're not making it any more". Factories are making guns instead of ploughs, tanks instead of tractors, planes and shells instead of stoves and beds. We'll have to replace so many things when the war ends ... things we can't buy now.

**MONEY INVESTED IN
VICTORY BONDS**

will provide the cash to buy them

TWO WAYS TO BUY VICTORY BONDS NOW

- with Cash

... in one lump sum, with money we have saved. There is no safer investment ... no better way to protect our savings.

Or—we can buy bonds and pay for them through our banks in monthly instalments. As the instalments come due the bank will charge them to our accounts.

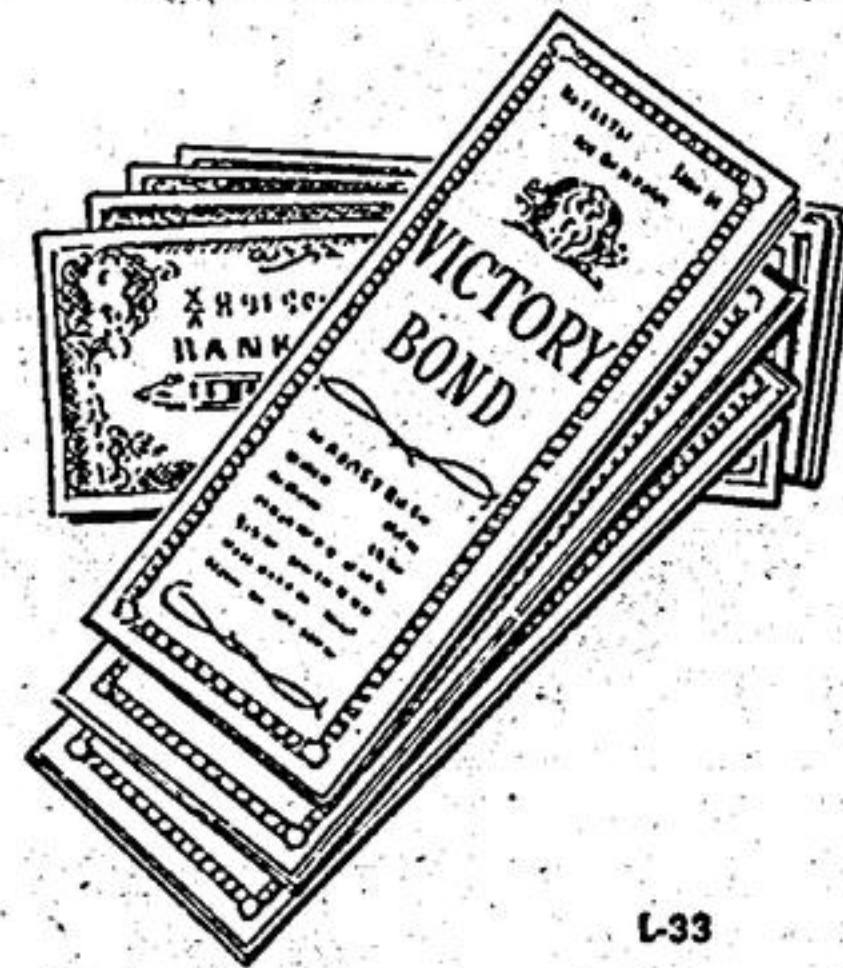

- with Produce

Farm folk can pay for Victory Bonds in another, convenient way—by using the "PRODUCE FOR VICTORY" TICKET. By simply signing a "Victory Ticket" you can authorize those who buy produce from you to send all or part of the proceeds to the War Finance Committee to buy Victory Bonds for you. (Ask your local War Finance worker for details.)

**WHAT A
VICTORY BOND IS**

Look at a dollar bill. A dollar bill is like a bond. It's a promise to pay to the man who has it. You get bills when you sell things and pay them out when you buy things. A Victory Bond is "a bill" intended to be saved. When you keep a \$100.00 Victory Bond for a year you receive an additional \$3.00. (3% interest). Buy all the Victory Bonds you can—lend money to Canada to help to win the war. Save your bonds to have money for things you'll need when the war ends.
