THE OPEN DOOR

The new year is an open door, And offers to all who believe The opportunity to help our fellow men

Then joy we will receive. And this door offers service To all who wish to give A helping hand to those in need, That they might better live.

Both Faith and Hope are needed To help us through each day So let us share them with our friends That we meet along the way.

For a cheery smile, a word of hope Will always do it's part, To make someone's life the brighter And ease an aching heart.

No doubt, this year will swiftly go As years have gone before, And may the Lord our footsteps guide As we enter the open door. —M.S.

GOATS GO TO WAR

Before this war is over Markham's champion goat breeder Fred Cole may be shipping goats to boost our war effort. Quebec bred goats have recently been called for service abroad where war conditions have caused such a shortage of milk cows. Six choice specimens from Dr. Barlow's farm at Laurel in the Laurentians were shipped by the Canadian National fast express for Kingston, Jamaica, B.W.I.

They are consigned to the Jamaican government agricultural department, which is embarking on a program to meet the domestic milk shortage. These Laurentian goats travelled in special crates and with them went a plentiful supply of alfalfa. Fresh water was furnished at all divisional points. A representative of the C.N.R. travelled on the same train to see that the instructions about feeding and water were rigidly carried out.
