## Train Cancellation First in 18 Years

As this issue of The Tribune goes to press this Wednesday afternoon, Stouffville and the countryside is bound in the worst snow blockade in years. An all-day storm on Tuesday lasting into the night was responsible.

All morning trains on this line were cancelled for Wednesday, and not even a snow plow had penetrated the district up to mid-afternoon. Outgoing mails had to lie over, and rural mail couriers took a holiday.

At the Creamery only a half gallon of cream reached the plant on Wednesday morning, and that came in by hand sleigh.

Meetings were postponed that were scheduled for Wednesday or Thursday, notably the United Church annual, and the Markham Sunday School Convention today at Unionville.

Reeve James Rennie and Reeve A. E. Weldon were stalled in town and could not get to Toronto for County Council session.

Gray Coach bus left town Tuesday afternoon, but failed to reach the city, and it was still stranded Wednesday afternoon. East and west roads escaped the storm best, but those north and south avenues were piled high in places, and plows broke down in bucking the heavy weight of snow.

Mr. Ed. Davey, retired railwayman declares Wednesday's cancellation of trains to resemble the great storm of thirty-eight years ago when a big plow turned sideways at Yake's bush. There hasn't been a cancellation of trains like this in the last eighteen years.

Some Tribune correspondents used the telephone to get their news across, and this was appreciated. Other places were so bound in snow they hadn't any news.

The continued storm which raged all-day Tuesday, piling the snow higher and higher, completely tied up the rural mail routes, and not one of the four deliveries could be completed on Tuesday from Stouffville. The lads who deliver the love letters and every other kind of mail have been having a rough time of it since the New Year set in.

Arrangements are being made to use 100,000 students from Ontario schools on the farms. A. M. McLaren, director of the Ontario Farm Service Board, so informed the annual convention of the Ontario Vegetable Growers at the King Edward on Monday. There will be a flat rate of 25c an hour paid, but where the help is worth more farmer-employers may pay a bonus at the end of the season. The flat rate will avoid the discontent experienced last year, when rates varied from 22½c to 27c.

Release of secondary school students will be sought as early as April 15, and arrangements made as to class standing. Other arrangements will provide students from August 15 to October 15 to harvest late vegetables and fruit.

Job Insurance—Farmers must pay 10 cents a day as unemployment insurance, most of which, if unexpended, will be returned.

## Reports Across Canada Claim Hens Are Laying Like Mad

Just as if the Hen World had heard about the Canadian Nutrition Program and all the nice things the Nutritionists say about the wonderful food value of eggs, Canadian hens are laying for all they're worth;—brown eggs, white eggs, speckled eggs.

Of course the color of the shell does not affect the food value of the egg one bit, though there are still people who say they would not give two cents a dozen for eggs that are brown, while others insist that a brown-shelled egg is vastly superior to any other.

Canada's Official Food Rules say that everyone should have at least three or four eggs a week and recommend one a day when possible.

Eggs, like meat are a building or protein, food and they may take the place of meat in the main meal of the day. They are also valuable as providers of iron, Vitamin A and the B vitamins, and are one of the few foods which supply a small amount of the sunshine vitamin D.

According to Nutrition Services, there is no difference in food value between eggs graded A, B, or C, though there is a difference in price and flavor. The lower grade and less expensive eggs may be used in dishes where other flavors predominate.

It is important that eggs and egg dishes be cooked at low temperatures for high heat toughens the protein.

quire 50 or more students camps will be organized, probably at Hamilton, London, Ottawa and Windsor. Water and sanitary equipment will cost from \$2,000 to \$5,000, which the Ontario government will pay.

Arrangements will be made for day-to-day service, similar to that donated by "Commandos" last year. If the workers agree they may donate their wages to some war relief fund or the Red Cross. Last year 12,750 volunteers worked for their dinners.

**29,000 Last Year** School help last season was reasonably satisfactory, with 9,309 public school pupils, 10,614 boys from secondary schools and 10,251 girls. One grandmother who went on a farm with a granddaughter, in three days picked 169, 175 and 182 bushels, respectively, of carrots.

Another day she pulled and topped 120 bushels of beets and, again 109 bushels of tomatoes.

Miss Badgero reopened her Beauty Parlors this week after an enforced holiday due to illness.

The Stouffville Red Cross is in need of a sewing machine. Anyone who could make the loan of a machine would earn the whole-hearted thanks of all.

## The EGG FACTORY

Stouffville folks, we are right in your neighborhood with fresh cage laid eggs from battery layers. This is the most modern and up-to-date way of producing hen fruit in its most sanitary form. These birds are raised on wire floors, never ever getting to the droppings. On maturity they go into individual cages, on sloping wire floors, eggs when laid, roll to the front. They get pure sterilized water, and special cereal food fed the Ful-O-Pepway, to secure fine upstanding yolks, with delicious odor and flavor. Once tasted you will never have the barnyard or floor variety. These eggs cost you no more than the ordinary kind. From producer to consumer, gives you guaranteed fresh eggs, with a saving to you and a profit to us. A phone call brings them to your door, phone 8411, Stouffville or at Stiver Bros.
