### Goodwood

Everybody is looking forward to the big free show to be given in the Township Hall by Councillor Jack Rae in conjunction with the big tire companies with whom he deals. Next week you will read all the details, so keep your eye open. Monday afternoon's rain looked like a million dollars to the parched lands of Uxbridge, where hundreds of thousands of plants were at the breaking point for lack of moisture. The shower which came in gentle falls at various times saved a bad situation from becoming worse. Mr. Walter Davey was in town on Sunday visiting the McDonald and other homes here. Had our old friend remained in Goodwood instead of going to Toronto and mixing up with printer's ink, he might easily have been mayor of the village. The coal situation is at a standstill with the local dealer being unable to get any through, although he has a well placed order. Every farmer should look well to his woodlot if he is fortunate enough to have one. Those troublesome coal miners and John L. Lewis are still fighting. Lewis, to our way of looking is a great ally of Hitler.
