## McCONNELL SAYS ---

(Continued from front page)

machine he took German industry into State control. Like the C.C.F. he promised to respect private property. German business men may still hold title to their shops, or factories, or mills, and German farmers may still have the deeds to their farms.

The farmer may own the cows, but the State gets all the milk. That is how the C.C.F. will respect private property, he says.

.. The C.C.F. not a Labor Party .. We hinted that the C.C.F. was a Labor Party, when McConnell promptly answered that he had too much respect for the intelligence of organized Labor to believe that Labor could support the C.C.F. "The C.C.F. is not a Labor party," he declared flatly. "There are Labor men in the party, and some of them are candidates. But trade unionists know that the C.C.F. has appealed to the ambition of Labor leaders and that it is trying to use them to ride to power.

"If ever that happens, Labor will be thoroughly organized—regimented is the better word—to obey the boss, the State that then becomes the absolute master. Under the bureaucracy that the C.C.F. would set up the first sign of discontent in the ranks of Labor would bring swift legislation that would make an attempt to strike treason, punishable by death.

Destroying Labor  
"Even now the C.C.F. is destroying Labor. I have good reason to believe that solid rank and file trade unionists see full well that the C.C.F. is trying to draw away its leaders, filling them with political ambitions, promising those leaders that they will be the big-shots who will issue the orders. For ambitious men the C.C.F. offers alluring promises. Our people should never forget that the C.C.F. aims to control all industry, agriculture included.

Mr. McConnell is a man of strong convictions, and he puts his viewpoint in a direct, forceful fashion. Asked about himself, he talked a little about the last political campaign, about his service overseas, and his work afterwards in Soldier Civil Re-establishment.

Fifteen Air Cadets and M.E. Watts, Commanding Officer of the local unit left here by train on Saturday for the week's training at Mountain View
