

In Line with the Times

We have had a few trying years. Much needed goods have been hard to get. Many of them rationed, others carried priorities, and still others were off the market entirely. Our armed forces came first and most of us were content to have it that way.

We have been quite fortunate in getting our share or possibly a little more through our many sources of supply. Connections which we have built up over a period of twenty five years business.

Now although the war is possibly far from being won, raw material is coming through very much better and our Government has seen fit to release many articles that heretofore have been unobtainable. Now as in the past we will endeavour to distribute all available goods in the fairest possible way.

Our stock at the present time is at the highest figure in the last three years and in most cases we can give prompt delivery.

WE appreciate your business and your patience of the past and sincerely solicit your continued patronage.
