ANNIVERSARY SERVICES HERE

Anniversary services at the Claremont United Church will be held next Sunday, June 25th, at 11.00 and 7.30 o'clock. The speaker in the morning will be Rev. W.H. Bexton, local Baptist minister, and in the evening, Rev. W. C. Smith, of Port Perry. The special music for the day will be supplied by the Baptist Male Quartette and the United Choir.

Reeve Wm. Reesor was in Whitby on Monday and learned that the disquieting reports about Thos. Graham being dead are quite untrue. No one seems to know where the report about Mr. Graham originated, but probably with this disclosure we will all know where it now ends.

Rural School Goes Up in Flames

One of the most mysterious fires to occur in the Claremont district for sometime destroyed the brick school house known as Cedar Creek School, two miles east of Claremont. The building was comparatively new, having been erected ten or twelve years ago.

The strange thing about the loss is that the fire occurred in the night, and no one had been in the building after classes were dismissed at four o'clock on the previous afternoon. As no one saw the fire until the building was doomed, there wasn't a scrap of anything saved. The building was insured for \$3,500, with an additional \$600 on contents. School desks are all classed as part of the building, and are supposed to be covered by the insurance on building. This is a point all trustees should make a mental note of.

The trustees at Cedar Creek school are W.Pugh, W.Pegg, Mr. Snider.

Well-Known Village Residence is Sold

Originally known as the Hamilton home, and more lately occupied by the Misses McGlashan is in the process of being sold this week. Charles DeRusha was the buyer. The Misses McGlashan will shortly hold an auction sale of household effects and move to Toronto. The structure stands just south of the "four corners" on the Brock Rd. Back as early as 1840, John Hamilton whose wife was Mary McGlashan of York Mills, moved to lots 19 and 20, in the 9th concession. Here he lived until his death in 1887 in his 99th year.

The McGlashans have made many friends during their residence here, and an invitation to these folks to visit the home before they leave is extended elsewhere in these columns.

Uxbridge Pays Big Sheep Claims

The Uxbridge Township Council met on Saturday for general business, and at two o'clock as a Court of Revision of the Assessment Roll.

The minutes of the last meeting were read and confirmed, and a number of communications read. Amongst these were letters from the Minister of Highways; and also from Mr. J.F. Kelly and Mr. G.H. Mitchell, M.L.A.'s for Muskoka-Ont. and North York, all of whom expressed their desire to co-operate as far as possible in having Highway No. 47 completed to Stouffville.

At two o'clock the Council resolved into a Court of Revision of the Assessment Roll. As no appeals had been received the Court, after having a few changes in ownership recorded, confirmed the Roll, and resumed the business of the Council.

Road accounts amounting to \$514.34 were passed for payment, and general accounts, including bills for sheep killed by dogs of \$220.00 amounting to \$661.69, were also passed for payment.

The next regular meeting of the Council will be held on July 10th, at 7.30 o'clock p.m.

WARTIME ROMANCE

Dear oh dear, what some people will do to keep their old car running. An advertisement under the wanted heading we read last week read thus:

"Bachelor with Ford coach wants to correspond with a widow with two good tires."

Applications were to be address-

SINK MILLION TONS

Mines laid by R.A.F. and R.C.A.F. planes have sunk more than 1,000,000 tons of enemy shipping since the spring of 1940, the British air ministry announced. The planes mine the thousands of square miles of water along the enemy coast from the Bay of Biscay to the Gulf of Danzig. The offensive checks import of raw materials from Norway, Sweden and Spain and interrupts the coal and iron ore traffic between Germany and Sweden.

C.C.F. SWEEPS SASKATCHEWAN

The outcome of the election in Saskatchewan last week in which the C.C.F. was swept into power, was highly disappointing to both Liberals and Conservatives, and will likely alter the date of any Dominion election. Had the Liberals made a better showing in last week's contest there was a certainty that Canada would go to the polls sometime in October, but Ottawa will be inclined to view the western decision as not favorable to them and may postpone the election until next year.

The Conservatives never won a seat, and the C.C.F. swept the province by taking all but eight seats which went to the Liberals.

New Barn Goes Up in Record Time

The big new L-shaped barn on the farm of Ralph Wellman just east of here was raised by Walter Symes and company in record time on Friday afternoon. Walter Ward and John Scott headed the two teams, and it was a race to the finish. The main barn was 30x96 and the straw barn 34x65. Stan. Thompson is doing the cement work. Nearly four hundred men and women sat down to the evening meal, which was served in sumptuous style, by the ladies, neighbours, and Claremont Institute. It required seventy-five pies and baskets of cookies to fill the hungry crowd. Many came from some distance, as far away as Manchester, Victoria Square. The carpenters intend to complete the straw barn and roof at once, in readiness to receive the big hay crop expected.

COUNTY FOREST IN FINE SHAPE

The committee on Reforestation in a report submitted by the chairman, Reeve Ray Ferguson, of Uxbridge to County Council, advised that they visited the county forest in Uxbridge Township in May and found it to be in good condition. The committee expressed regret that a representative of the Forestry Dept. who had promised to be present on the tour, did not put in an appearance.

The committee recommended that, owing to the increasing fire hazard a truck, be purchased to haul the water tank and sprayer to the scene of any fire.

The report was adopted.

Inflation and Deflation... Evil Companions

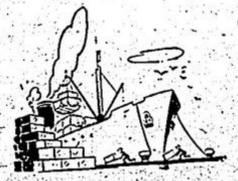

Past wars have always brought some degree of inflation.

Goods were scarce... Prices brought sky rocketted to unnatural heights.

Then one day the war stopped...

in due time goods became plentiful again.

Scarcity, prices could no longer be demanded

and "spiralling" prices went "pop"

and came down with a bang.

people stopped buying because they thought prices would go still lower

merchandise dropped in value—retailers went bankrupt

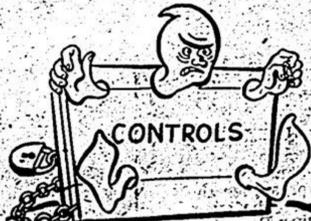

factories closed and unemployment followed

farms were foreclosed

distress was general and deflation was in the saddle.

That is why in this war prices are controlled—so that they will not ruin buyers in a rise or sellers in a slump.

Price ceilings—wage and salary controls—rationing—Victory Bonds—increased taxation—are all part of a grand strategy to head off Inflation—thus preventing Deflation.

PREVENTION OF INFLATION IS THE BEST PROTECTION AGAINST DEFLATION

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.
