Over Million Feet of Lumber Taken from Claremont Bush

Property Sold to Messrs. DeRusha and Redshaw. Expect to Cut Hundreds of Cords of Firewood this Winter

Mill Valley Lumber Co. have completed their lumbering business in the former Forsyth Estate bushland just north of Claremont, and the property has again been sold, this time to Messrs. George DeRusha and Alvin Redshaw, two Claremont men. Sale price is reported at \$17,000.

Just one year ago, the North Shore Realty Co. took over the Forsyth estate, which consisted of 449 acres of land of which 230 acres is bushland. The Mill Valley Lumber Co. set up a mill on the site and have cut timber steadily for the past year. It is estimated that well over 1,000,000 feet of lumber have been shipped to U.S. and Canadian war plants. In addition trainloads of sawdust have been shipped to Montreal destined for a synthetic fuel plant.

The Mill Valley Co. were interested solely in the lumber value of the bush, and not in firewood, and in many places merely thinned out the bush of its virgin trees.

"We expect to cut firewood in there all winter," Mr. DeRusha said to The Tribune. The new owners also come into possession of 800 cords of slabs and 1500 feet of lumber left by the Mill Valley people. Fifty acres have been disposed of in the last twelve months by auction, the last sale realizing about \$900 for the ten acres sold.

Miss McGlashen of Toronto, but formerly of Claremont, renewed old acquaintances here on Sunday.

Mr. and Mrs. Don Smith of Uxbridge, visited with his cousin and family, Mr. and Mrs. James Graham on Sunday.

The worst inflation came AFTER the war the last time . . . to be followed by disastrous deflation, unemployment and confusion. For Canada to manage successfully the change back to peace, maintain employment, and meet the world's competition . . . we must continue to have stable economic conditions. To protect the individual from rising costs of living and later unemployment we must continue to prevent inflation.

To prevent a repetition of the conditions following the last war PRICE CONTROL MUST BE MAINTAINED AS LONG AS INFLATION THREATENS US.

This can only be done if production is efficient and economical, costs are kept down and consumers refuse to pay more than ceiling prices.

One person can start it!

When one person demands more for goods or services he compels others to do the same and Price Control goes out the window.
