WILL EXPAND COUNTY COUNCILS

The Mayor of Owen Sound, W. Garfield Case, states his views that the County Council is destined to play a greater part in local government than people now think. Speaking at the annual conference of Ontario Mayors and Reeves held in Toronto, Mayor Case, who is also president of the conference, predicted in the post-war period a cutting down of provincial authority, an expansion of county councils and other municipal authority in order that we might avoid duplication of services. The expansion of county council authority could cover planning for the whole county, the elimination of needless duplication of effort and a corresponding reduction in cost. It is from the last-named standpoint that it should appeal to ratepayers. County planning will give greater efficiency, and more dollar value for work done than can be secured under present methods, to say nothing of continuity of services such a business-like set-up could render.

TURNIP COMPETITION IN BRUCE

65 farmers in the turnip shipping area of Bruce County undertook to produce 800 bushels of marketable turnips per acre in 1944. Old man weather had other plans. The summer season was too dry to produce a heavy yield of turnips. The highest yield recorded was a gross yield of 1013 bus. per acre grown on Wilfred Dippel's farm at Walkerton. Too many of these were not marketable and first prize went to Anthony Weber of Formosa with 761 bushels per acre. N. Durrer was second and Alex. Fischer of Mildmay third. The competition was made possible by the co-operation of the Walkerton and Carrick Agricultural Societies, Canaca Packers, Walkerton, and J. A. Goetz, Mildmay. The prize money totals \$230., and is divided into 31 prizes. The object of the competition is to draw attention to factors involved in producing a large yield of quality turnips per acre. Judging was done by W. F. Strong, Guelph, Chief Turnip Inspector.

149 Bus. of Wheat to Acre in Russia

But average yield is 16.6 per acre—300,000 Tractors 180,000 Combines in operation in 1941 in Russia.

"Grain crops are now grown in northern Russia and Siberia," Dr. M. Timonin told the agricultural panel at the second annual congress for Canadian Soviet Friendship in Toronto last week. Lenin's dream of 100,000 tractors for Russian farms in 1919 has been more than fulfilled by Stalin's practical methods, he said. "In 1941 the number of tractors in use exceeded 500,000 and combines 180,000." "By 1940 the Soviet Union was leading the world in the areas cultivated under grain in general and in yield per acre of land in particular. The total grain harvested in 1937 amounted to 4,200,000,000 bushels. The average yield of grain amounted to 16.6 bushels per acre. However, on some fields in the new Altai region the yield of spring wheat in 1939 was equal to 149 bushels per acre."

Between 1933 and 1938, he added, the increase in cattle totalled 25,000,000 head with 52,000,000 head of sheep and goats. The total number of cattle on farms in 1940 amounted to 17,725,000 head. The U.S.S.R. has organized 52 state breeding farms with 664,000 head of cattle. "Dr. Lazar Volin of Washington, said that in 1938-39 there were over 60,000 students in Soviet agricultural colleges, nearly 140,000 in agricultural high schools and about 600,000 in schools and courses training various agricultural workers. Graduates from agricultural colleges increased from less than 2,000 in 1909-13 to over 40,000 in 1933-37. Experimental stations rose from 44 in 1913, to 303 in 1938 to which must be added 87 agricultural research institutes of various types, he added. The number of research workers increased from 250 in 1913 to 9,800 in 1938.

COURT ACTION OVER SALE OF GOODWOOD CAR

The estate of the late Hezekiah Roach was to be the defendant in court at Newmarket last week on a charge of selling a motor car above the ceiling, or using some method to obtain above ceiling price, contrary to the regulation, but the case was adjourned for two weeks. Several Goodwood men were on hand for the hearing which did not come off.

It will be recalled that the car was worth far more than the ceiling price, and at least six bidders offered to buy at ceiling price. A rug was then sold and brought over \$200.
