GLORIA MODELS NOW

Gloria Vanderbilt Di Cicco, heiress to railroad millions and in private life the wife of Pat Di Cicco, who is now in the U.S. Army, is reported to be working as a Powers model. She is said to get \$1,000 plus endorsement for each advertisement. It is her first job.

Only 315 Electors Vote in Markham

Markham village council was returned by an election on Monday, Reeve Frank Burkholder having been accorded an acclamation. The vote was a record small one with only 315 electors going to the polls. The election resulted as follows with the first four forming the council: W. Payne 220; Ed. Roffey 209; C. W. Reesor 198; John Torrance 184; E. Reeve 128; F. H. Tunney 72.

The T.S. class will meet on Friday evening at 8 o'clock, at the home of Esther Davis.

Holiday visitors with Mrs. M. Tindall and family were Mr. and Mrs. Roy Tindall and Norman, Mr. and Mrs. J. Symes, Eral and Shirley, Mr. and Mrs. J. Coates of Claremont, and Pte. Harry Tindall who is home for a few days leave from Red Deer, Alberta.

The January meeting of the W.I. will be held on Wednesday, Jan. 10, at 2 p.m. at the home of Mrs. A. Wideman. The program is in charge of the war work—Mrs. Wm. Reesor (con.); paper, Activities of the International Red Cross; roll call—An article manufactured from salvage and sold; current events; motto—"The Smile of God is Victory."

6th Line, Whitchurch

A very pleasant evening was spent at the Daniel's home when members from 2nd Markham church and neighboring friends gathered in the form of a house-warming. The much surprised young couple were presented with a floor lamp and plaque, after which the happy recipients replied fittingly.

Bruce Clarke is enjoying the holiday season at the home of his parents, Mr. and Mrs. J. A. Clarke.

Quite a number of homes along the line are being wired for hydro and are anxiously looking forward to the time "when the lights go on." Mr. and Mrs. Cliff Pugh and son, Glenn from Toronto, had dinner with Mr. and Mrs. Harry Pugh recently. Cliff's pet hobby is photography and so he entertained his hosts with some unique work in moving picture reels. "Say it with flowers"—Mrs. Nicely is still enjoying the fragrance from the beautiful bouquet which was wired from England by her daughter, Rita at Christmas.

The annual school meeting was poorly attended. William Paisley resigned as trustee, and was replaced by Chas. Ratcliff. The other trustees are J. A. Clarke, secretary, and Almore Barkey.

PROTECT HOG WITH ALL YEAR CABIN

Profits from hogs, like profits from most other lines, are largely affected by the size of the initial outlay. The hog does not need an expensive house but must be clean, with the possibility of being kept clean with the least amount of labour. On a farm where a few hogs are reared or even where a herd of 100 sows may be kept, the necessary housing can be provided by Hog Cabin. Such a cabin is useful 365 days in the year, no matter how small or large the herd may be.

By its construction, the all year cabin gives efficient protection in winter and summer. It is inexpensive, and is built on runners so that it may be removed to fresh ground at any time. In summer, lack of shelter from the intense heat is more injurious to young pigs than the cold winter. By the use of hinged doors, comfort both in summer and winter is assured. Specifications for making the cabins are contained in the revised circular 131 (Publication 618) "The All Year Hog Cabin," which may be obtained free from the Dominion Department of Agriculture, Ottawa.

A WEEKLY EIDR LOOKS AT Ottawa

Written specially for the weekly newspapers of Canada (By James Greenblatt)

Canadian Auxiliary Forces have completed plans for erecting skates and boots for Canadian troops in France, Belgium and Holland. Y.M.C.A. branches also working on this project. They are having a set of skates and boots, are asked to send them to Y.M.C.A. or write the nearest office of the organization for details. boys "over there" will be glad, because it gives them home recreation and keeps them in touch with a great Canadian sport.

All quiet on the labor front. Time lost through strikes lock-outs in the first 10 months this year showed a decrease more than 82 per cent from same period of 1943. There were 12 work interruptions during October, but eight of these were settled. The rest resumed work-pending final settlement of the dispute. Figures show that 485,924 man working days were lost to October 31, 1944 in 172 strikes involving 73,391 workers. This is contrasted with the same period last year when 885,282 days were lost in 358 strikes involving 165,866 workers.

Many mothers, particularly those in the rural areas of Canada, have cause to be grateful to their children's school teacher. Not only does she attend to the scholastic needs of her young pupils but frequently looks after their physical welfare by serving hot beverages to the children who bring their lunch. Some teachers even provide soup and bread and butter on cold days. To help these foster mothers cater to their young charges, the Wartime Prices and Trade Board has made arrangements for them to obtain the necessary ration documents to buy rationed sugar, butter and preserves. To do so the teachers must register with the nearest branch of the ration administration as a "quota user." They are required to state clearly the number of children they wish to serve during the noon hour, always remembering that rations cannot be provided for those who live close enough to go home for their mid-day meal.

Reflecting the general better prosperity of the primary producer this year is the record of country general store sales for October which increased six per cent in dollar volume over the same month a year ago. General store sales were 74.6 per cent higher than the average for the five years 1935-1939. Aggregate figures for the first 10 months of 1944 are 10 per cent higher than for a year ago.

While the airforce is releasing a limited number of its service women over a three-months period, the Canadian Army is seeking 5,000 new recruits for the Canadian Women's Army Corps, and thus a close liaison is now being maintained between the two services to allow a discharge if willing to be medically boarded, interviewed and assessed by the Army so that a decision can be made on how best to employ her in the C.W.A.C.

There was some curtailment of industrial activity in Canada at the beginning of last October, reports now show, being the first time since the autumn of 1931 that the trend has been downward. A combined working force of 1,861,599 persons was employed in 14,921 establishments which furnished returns to the Dominion Bureau of Statistics. It is interesting to note that salaries and wages paid by these establishments at October 1 this year aggregated \$60,250,107 compared with \$59,724,662. The average weekly earnings per employee was up from \$31.69 to \$32.36. The general shrinkage in industrial employment at the start of October this year was mainly in manufacturing and construction. A lot of the falling off was in iron and steel, with a decrease of nearly 9,500 persons in this group. There was a drop of 3,500 in lumber mills, but vegetable food factories on the other hand, added almost 5,700 to their working forces. Logging reported important seasonal expansion, while improvement was noted in transportation and trade.

A reminder to housewives, even if they know: All coupons in Ration books No. 3 and No. 4 expire on December 31.

To maintain Canada's high reputation as a wheat producing country, built on the quality of the wheats exported to other countries, special studies of samples have been going on for the past 13

years by the Dominion Department of Agriculture. It was found that while a large number of different varieties could be found in our export wheat, those which could be classed as poor or mediocre are a very small percentage of the whole. Study was made of the 1943 crop at Ottawa, for instance, in which 180 representative cargoes leaving both eastern and western terminals in the Port William cargoes a decline was found in the percentage of Marquis wheat and corresponding increase in that of allied rust resistant varieties. In the Pacific cargoes, Red Bl was the predominating variety. The Marquis, Garnet and Red varieties declined to new lows in the No. 3 and No. 4 Manitoba samples. Samples from Fort Churchill followed the same trend. The general high quality being maintained, that is definitely proved.

These are good but net collections of the Income Tax and Customs and Excise divisions of the department of National Revenue totalled \$141.7 millions for the month of November were down by over \$6 million in comparison with November, 1943. In line with this the collection of income tax alone took in net of \$99.5 millions in November, against \$117.6 millions in November 1943.

Over 1 per cent of Canadian men and women with overseas service who have been discharged for medical reasons and cases ruled on by the Canadian Pensions Commission, have been granted pensions. To the end of October this year 305 had been granted pensions of 15,335 cases. Of these 10,405 got their pensions on first hearing. Total annual liability on pensions far awarded for this year was \$3 millions at end of October.

Odds and ends: During the first nine months of this year Canada produced 2,249,690 fine ounces of gold. If logging or ploughing for the 1945 Victory Garden wasn't done in the fall, the work will have to be undertaken in the early spring as soil as the ground is dry enough to be properly worked. Soviet scientists have developed a paste of pressed milk which is effective in curing wounds. Persons residing in Canada can now make personal remittances to France with the approval of the Foreign Control Exchange Board.

THIS NEW TYPE OIL SAVES YOUR ENGINE 2 WAYS!

FAST FLOWING, it puts a protective oil cushion between "dry" parts the second you start. Thus it helps reduce starting wear which can cause up to 3/4 of all engine wear!

TOUGH BODIED, Golden Shell resists forming sludge and carbon under the heat of steady high speeds.

Golden Shell is made in a new way that takes the "bad things" out of oil. Sold in sealed bottles—sold at a price below the other premium quality oils.
