A neighboring town is arranging for the planting of 100 young maple trees to replace old stock now dead. Stouffville needs such a program since many of our lovely maples are being constantly cut because they were unsafe or dead. Since, in the neighboring town, an organization is sponsoring the undertaking, we suggest it would be nice memorial to some local organization also.

**Bridal Setting In Agincourt**

St. Paul's Church, Lamouraux, was the scene of a pretty wedding when Thelma May, daughter of Mr. and Mrs. H. N. Pickering, of Agincourt, became the bride of Clarence Austin, son of Mr. W. J. A. Powell and the late Mrs. Powell, Unionville. Rev. H. B. Snell conducted the service against a setting of pastel-colored spring flowers. Mrs. F. Sing, of Agincourt, played the wedding music and accompanied Mrs. G. Haig, also of Agincourt, who sang.

Given in marriage by her father, the bride wore a gown of white sheer over taffeta, with a fingertip-length veil flowing from an orange blossom headdress. In her arms was a bouquet of deep red Briarcliffe roses and baby's breath, and about her neck was a gold locket, the gift of the groom. Her sister, Miss Shirley Pickering, was bridesmaid in pink taffeta. In her hair was a floral wreath holding a shoulder veil, and she carried tea roses and cornflowers. Mr. Robt. Lawes was best man, while ushers were Mr. Harold Powell, brother of the groom, and Mr. Reg. Webb, uncle of the bride.

After the wedding, a reception was held at the Tam O'Shanter Golf Club in Agincourt.

**Dogs Attack Cattle Kill and Damage**

Believed to be the work of roaming dogs, cattle were attacked on the farm of Lorne Johnson, 4th concession, Whitchurch, several days ago, resulting in one animal being killed and several injured. Clerk John Crawford stated on Wednesday that the dogs which killed sheep on the farm of Dr. Devins on the 5th concession only little more than a mile from the Johnson place, were suspected of the most recent crime.

Three or four cattle were severely bitten, one animal was chased and is still missing, while one bitten about the nose apparently died of exhaustion and fright in a rather boggy spot. On Wednesday morning the hunt for the missing animal, gone several days, was still on.

**6th Line, Whitchurch**

Mr. and Mrs. Art Pugh of Barrie were Sunday visitors at the Pugh home.

Mrs. David Pugh, although not enjoying the best of health, was very pleasantly surprised last Friday by a deluge of cards conveying the good wishes of her many friends and relatives, it being the occasion of her birthday. Mrs. Pugh, a daughter of the late Steve Flumerfelt a widely known personage, was born in Uxbridge township 72 years ago. Mr. and Mrs. Pugh and son Harry have resided on the Sixth Line for 22 years.

We are very glad to report that Mrs. Lemon Baker who is now staying at Robert Ratcliff's is improving after suffering a severe hemorrhage.

Congratulations to one of our honoured young men overseas—Jack Drewery.

A number of young friends attended a birthday supper at the home of Mr. and Mrs. Chas. Conner last Wednesday, celebrating the ninth anniversary of their twin daughters, Marjorie and Marion.

Now that Harvey Clendenning has the foundation of his new abode well and truly laid we are anxiously looking for the superstructure.

There are some folk along our line who are more or less shut-ins. To these we would like to offer a cheery "Hello"—Mrs. Carver, Mrs. Macklem, Mrs. Talbot.

Arnold Harper is home after a prolonged stay in the hospital. "Buddy" is still very much handicapped having a cast from shoulder to waist.

**UNPRECEDENTED DEMAND FOR SPACE IN THE TRIBUNE**

The unprecedented demand for advertising space in The Tribune is becoming difficult to cope with. With its enormous circulation extending into three electoral districts in a rather imposing way, the publishers find it difficult to supply space to all, and at the same time maintain our standard run of news items which is our first consideration.

This issue has encroached on the news columns because we underestimated the demand from our advertisers, but next week the paper will be further enlarged to take care of the situation. The normal 8-page paper has only been issued once in two months, all other issues being enlarged editions.

**MARMILL GROWING MASH**

Protein 18%

A growing mash plays an important part in the feeding of Poultry: It is the connecting link between the feeding of a baby chick and a laying pullet, and, as such, must carry on from where the starter ration left off and fit the bird for the long, continuous high production in the fall and winter.

Marmill Growing Mash is the connecting link on many hundreds of farms. This mash, made up of only carefully chosen, high-quality ingredients, and manufactured and balanced to give the highest possible digestibility of ingredients, will give your pullets the strong, well-developed bodies and large frames necessary for pullets which are to start laying at six months of age and continue through the winter.

The MARMILL WAY is the BETTER WAY of Feeding.

**THEIR SURRENDER . . . doesn't mean it's "all over"!**

It's much too early to throw our hats in the air and cheer . . . time enough for that when the Jap is defeated; when those boys and girls in the armed forces who are sacrificing so much . . . can celebrate complete Victory with us. Till then we cannot—we must not let down . . . And so until final Victory we must all
