It was disclosed at Whitchurch Council meeting on Saturday that road expenditures to date this year total \$12,000, which is a reminder that we had one of the worst winters in history for snow, and that a real effort was made to keep the roads open. However, the road appropriation is \$20,000 and it is believed that the remaining \$8,000 will about care for the summer road work. Accounts passed at this meeting and included in the foregoing total were \$2,961.074.

The Dept. of Highways requested council to estimate any amount of sprayer they might require, since the Department can supply them with Elephant Brand Ammonium Sulphate for weed control. The problem, as council saw it, is the securing of a spraying outfit, and if this can be accomplished weeds will be sprayed this summer. The cost varies from \$17.00 to \$30.00 a mile depending on the density of growth. Councillors Les Harper said a bit of spraying done last year proved highly successful despite the fact that it rained just after the spray went on.

H. Roberts quoted a price of \$1.25 per yard for crushed gravel, and he will be asked to do certain work when weather conditions permit.

Austin Yake asked council to deal with a long-standing account sent in by Herb Law of Lemonville for \$14.40 for cutting weeds last year. Yake declared he believed the work was done, even though the authority was not just regular, and he thought it ought to be paid for.

Council was unanimous that such a bill could not be paid unless some authority was given for the work. The road foreman had reported that he gave no authority, so council refused to recognize the amount.

Lorne Taylor was present to enquire about his claim for cattle mauling and chewed by dogs and about one animal killed and one still missing, and believed to be in the mire. Since the valuator's report had not been filed, Mr. Taylor was asked to call again.

The insurance adjustors reported against paying a claim for H. Odgen's car which was in collision with Stouffville Planing Mill truck on icy roads around Lake Musselman.

The Dept. of Highways approved of the township appropriation by law for \$20,000 for road work this year.

Public School Inspector McKillop's report on the distribution of \$525.90 Clergy Reserves Fund was approved and which is on the basis of teacher's salary this year instead of on pupil attendance. The schedule to be paid the various schools are as follows:
