

**EARL TOOLE, WHITCHURCH FARMER, AND THE PROGRESSIVE CONSERVATIVE CANDIDATE, NORTH YORK**

"Candidates have officially embarked on their Federal election campaign. More than 900 men and women have been nominated to run for representation in Canada's House of Parliament. What manner of men are these that seek your vote?" Earl Toole, Progressive Conservative Candidate for the York North seat in the House of Commons asked his fellow electors at various campaign meetings throughout the constituency this week.

"There are crackpots and idealists. There are opportunists and would-be dictators. There are great men and small men, dilettantes and workers. There are stout hearted men of courage and there are snivellers, filled with fears. There are men of outstanding ability and men of mediocre ability. There are men who want only to serve Canada and men who want only to serve themselves.

"You, the voters, must decide not only the course of Canada's future but also the type of men you want in Ottawa to steer that course. It is your duty and your right to make such decisions and never in Canada's history has that duty been a more important one.

"We have seen what happened to other countries—Germany, Italy—when the wrong men were given power to forge the destinies of those countries. We have seen what one man alone can do to a country. Therefore, it behooves us, not only to study the platforms, as presented by the different parties, but also to look closely at the men who have gathered under the banners of those parties. Look at their past records.

"It is not necessary, nor advisable to discuss personalities but I do want to point out the calibre of candidates that has joined the Progressive Conservative ranks," continued Mr. Toole.

"It is interesting to note that more than half the Progressive Conservative candidates offering

themselves for election on June 11th have also offered their lives to the service of Canada and Canadians. More than half the Progressive candidates have served in this war or in the last war or both. From the Army, Navy and Air Force these men have come," said Mr. Toole.

THIS STICK-UP IS O.K.

It would be a pleasure to be held up if two-gun Diana Lewis did the stick-up job. The actress is shown as she was garbed for a bond-selling job during the annual four day Hellsdorado celebration at Las Vegas in Nevada.

Send The Tribune to absent friends.

HERBERT MORRISON Home Secretary

Churchill will lose these two men from British "Caretaker" Cabinet.

CLEMENT ATLEE Deputy Prime Minister

Have you purchased your tickets for the big Lions Club draw on June 27th. There are 27 fine prizes. Be sure you get a ticket from some member of the club.

**2,000 New Cars Monthly Next Fall**

Canadian automobile plants are to be given an immediate right-of-way to produce not less than 10,000 to 12,000 passenger cars in 1945.

The cars which will come off Canadian production lines in the last quarter of the year will be "1946" models. They will not be very different from 1942's except for some "face-lifting" in their general appearance.

Present "allotment" is temporary and may be enlarged at a later date. This compares with a similar allotment in United States of 200,000 cars for the last quarter and an over-all U.S. allotment of 2,150,000 for the 12 months period starting from "go-day."

In Canada, details as to price and the basis on which the new cars will be distributed have not yet been determined. Price discussions

are now being held with WPTB officials.

What is under consideration for distribution of the new cars in Canada, is an allocation by provinces based on earlier consumption patterns. Within this allocation, dealers would probably be instructed to make the first cars available to would-be purchasers on an essentiality basis.

Main emphasis in Canadian automobile plants in 1945 will be on truck production. Already the release of capacity not now needed by the military, has made available a considerably larger number of trucks for domestic civilian needs and for the liberated areas. On the basis of earlier figures released by Mr. Howe after V-E day, it is estimated that civilian trucks will be turned out in the last quarter of 1945 at the rate of 2,000 a month.

What is thought possible is that Ford is contemplating putting the new cars on the market at a price which will be at or close to, the 1941 price.

With the removal of the special manufacturers' tax on automobiles, manufacturers could sell their 1946 models at something like \$120 more than 1941 base prices without violating the ceiling prices to consumers. What may conceivably happen is that Ford will market its 1946 cars at a price which did not take advantage of this "margin."

If Canada follows the present U.S. pattern, there would be about 100,000 to 120,000 civilian passenger cars turned out within the next 12 months from Canadian plants. This compares with 110,000 cars produced in 1940, the last complete year before the imposition of wartime restrictions.

**JUST PLAIN SENSE!**

The Canadian people have made a magnificent contribution to the common victory in Europe.

The Liberal administration can say with honesty and justice:

This is the Government which has directed Canada's war effort at home and abroad.

This is the Government which during the war worked out a program of full employment and social reform.

These things are now a matter of record and of common knowledge.

On the basis of its record the choice of Prime Minister King's party to form the next Government of Canada is a matter of just plain sense!

*Let the Liberal Government finish its work*

**DON MORRISON**

D.F.C., D.F.M.

is your FEDERAL LIBERAL Candidate

Morrison's record: 150 flights against the enemy, 16 Nazi planes downed and damaged. He lost a leg in combat and spent one year in a German prison camp. Following repatriation, the R.C.A.F. made use of his outstanding organizing and directing ability in Canada until March 1945.

Morrison knows how Canadian farm produce was made available to Britain under King government policies—and he knows how essential that food was to supply the people of Britain and the armies of the United Kingdom, Canada and the United States before D-Day. Without Canadian farm produce, victory could not have been achieved.

Morrison, himself an amputation case, understands the rehabilitation problems of returning service men.

*His is a Proud, Clean Record*
