

Large Congregation for Centennial

It has been the privilege of but few churches in Ontario to celebrate 100 years of continuous service, such as was marked by the congregation of Melville United last Sunday when large congregations gathered morning and evening, many coming from distances to worship again in the place they were accustomed to in bygone days on the 6th concession of Markham township.

Morning and evening a former pastor who left in 1918, Rev. Dr. John Mutch, now of Hamilton, left two messages of lasting importance. At the morning service he told his congregation to beware of passing up those opportunities that would enrich their lives, basing his remarks on the text, "The stone which the builder rejected, became the head of the corner." Again in the evening, Dr. Mutch pointed out three great lessons from the war.

The speaker had in the congregation many who sat under him some 30 years ago, when as an active young man he took keen interest in the work among groups of young boys.

Locust Hill choir provided the music in the morning and Stouffville United in the evening. Next Sunday, Rev. Isaac Bowles will preach morning and evening, continuing the anniversary celebration, and on Monday evening Dr. Archer Wallace will lecture on "People I have met in Churches."

A neatly printed book containing an historical sketch of the congregation and district over the century, compiled by Mr. A. D. Bruce, has been placed on sale at 75c per copy.

ONE MILL FOR HOSPITALS

(Continued from Front Page) Markham Township \$3,862, making a grand total for the township of \$19,312 for the five years. Whitchurch township would have been called to pay \$2,082 annually for five years, thus it will be seen that the figures are imposing. Then add to them annual charges for indigent patients in hospitals and you have an annual cost perhaps too high.

Opposes System
"I am opposed to the present system of hospitalization. If we are going to have a hospitalization program let us have it on a uniform basis," commented Reeve George Mitchell, North York.

"We have got to stop screaming about social security such as hospitalization and start paying," advised Reeve F. G. Gardiner, KC, Forest Hill. "Do you realize that 50 to 60 per cent. of the cost of the new Hospital for Sick Children will still come from private subscription?" he asked his fellow councillors.

"We could not build and equip a hospital to care for York County residents for \$750,000, the amount of the grant proposed during the next five years. And then we would have to operate it," pointed out the Forest Hill reeve.

"By making these proposed grants for additions to well established hospitals, we are offered something very cheap in view of the services we receive," he added.

Favor Grants
Deputy Reeve Horace Purdy, Long Branch, favored grants to hospitals but opposed the principle of committing councils for the next five years.

"There is no reason why capital grants to buildings, which may last for 50 to 75 years, should be saddled on any one year," answered Reeve F. J. MacRae, York Township, chairman of the special hospitalization committee.

It was also pointed out that \$681,000 is being donated by the members of the Board of the Hospital for Sick Children and their families alone, while the staff at that hospital donate their services for three hours a day.

"This would have a commercial value of more than half a million dollars a year," it was stated.

During the forenoon some 30 members of York County Council inspected the present Hospital for Sick Children and saw its many needs. The original hospital was built in 1893 and the latest addition in 1914, councillors were informed.

"I am authorized to state that the Mayor of Toronto has promised that the city will double whatever contribution York County Council makes to the Hospital for Sick Children over and above its already pledged \$1,000,000," Norman Urquhart stated.

Mrs. H. Talbot has returned home after a visit with friends in Agincourt.

Arnold Harper is again confined to the hospital for further treatment on his arm.

Our farmers are anxious to get started on hay cutting, which is prevented by the incessant rains. The hay has greatly improved in the past ten days, yet the second cut it is predicted, will be better than the first. Time will tell.
