BAKERS' SWEETNER is growing very fast. Such alarming proportions we're agast.

Another 34 gallons to the Women's Institute and 15 gallons to other people around Owen Sound along with the 30 gals. they got in June. If a gust comes in a whooping BAKERS' SWEETNER is there and no coupons.

You can easily do your part. By using BAKERS' Sweetener Chart. 1st. Mom and Dad use only BAKERS' Sweetener in tea, coffee, drinks and porridge too. Rice pudding is dandy. 2nd. Use the chart it makes baking pies, cakes, puddings the easy way.

A general rule for baking, cooking etc. is to use 1/4 sugar and 1/2 BAKERS' SWEETNER. BAKERS' Sweetener and sugar measure and weigh about the same so to use 2 cups to the pound use 1/2 cup sugar, fill with SWEETNER and another cup of BAKER'S Sweetener.

3rd. For Canning fruit use the above schedule and it will take the chokiness out of cherries, the acid sour taste out of red currants and gooseberries. It makes a splendid job of raspberries, pears, peaches, plums, etc. Its GOOD.

4th. We only need 1 1/2 cups BAKERS' Sweetener to pickle 6 qts. cucumbers and are they crisp. And do cauliflowers, beets, cabbage, Sweetened with BAKERS' Sweetener.

TASTE GOOD I should say. 5th. Our whole family have become BAKERS' Sweetenerized and don't worry when a lot of company comes, picnics, parties and throwing they have BAKERS' Sweetener on hand.

BAKERS' Sweetener is cheaper than sugar. \$5 worth BAKER'S Sweetener is as Sweet as \$14 worth sugar.

GUARANTEED as represented or money back. 25 ozs. 25c.—40 ozs. 35c.—80 ozs. 65c. Imp. gal. \$1.25—5 gals. \$5.00 10 gals. \$9.50 (large containers 25c. each extra.) We pay shipping charges up to 100 miles on orders for 6 gals. or more if cash accompanies the order. **GEORGE E. BAKER**, Ph.M.B. Manufacturing Chemist, Stouffville, Ontario.

Enjoyed Steamer Cruise

Misses Florence Barkey and Anne Bothwell of Toronto, boarded the S.S. Manitoba for a week's cruise on the Great Lakes. They sailed from Port McNicoll to Fort William and docked at Owen Sound and Sault Ste. Marie enroute. The ship sailed through various kinds of weather including fog on Lake Superior and a rollicking gale on Georgian Bay, all of which added to the interest of the voyage. An orchestra on board supplied the evening entertainment, and games and sunbathing were in order on deck during the day. The meals, accommodation and service were all excellent. Of very special interest was passing through the lift locks at the Soo. The fresh, invigorating air increased appetite and energy, and both girls report the trip as most enjoyable and an excellent way to spend a vacation.

OUR CAPITAL CORRESPONDENT

(Continued from Page Six that, in face of all arguments favouring such a policy of meat rationing for Canada on the part of the United States; yet the experience of a similar desire in United States for adding other rationing policies in Canada has not been a happy event; with the reference being to footwear. Ever since footwear has been rationed in the United States, there has been loud demands that Canada ought to follow the same road. Nevertheless, the best information in Ottawa has shown that there are enough shoes for everyone in Canada without any real rationing policy. Indeed, in the past year, Americans used an average of three-quarters of a pair of shoes more per capita than Canadians, though United States went to all the trouble of rationing and there was no such restriction in Canada, with Americans in the past year actually using one and three-quarter pairs of shoes more than Canadians. It is a lesson worth remembering.

There has been considerable unwarranted adverse publicity against Canadian mining interests lately, especially "general accusations" against a whole industry, so it is essential to report that intelligent people, outside of this country have not been gullible to these "general accusations," holding properly, as evidence indicates in this capital, that Canada is a land second to none in its untold wealth of natural resources and industrial genius. In fact, this has been given world-wide recognition in other countries on countless occasions in the past and the contributions of Canada's mines have received strong emphasis in official statements about the role played by Canada's production from her mines in the ultimate success of the United Nations in both World War I and II.
