Notes and Comments

Refrigerators Coming Soon

The Wartime Prices and Trade Board has just taken the ban off the manufacture of electric refrigerators and a few thousand units will be on the market toward the end of the year.

Refrigerator production has been resumed in the United States and Canadian manufacturers will be assisted in obtaining priorities for imported materials and component parts.

Whitchurch Council Should Supply the Facts

There is no denying the fact that people who have to travel the ninth concession of Whitchurch from Stouffville to Musselman's Lake are more than incensed about the bad condition of the road.

It has been clearly demonstrated that a road that carries the amount of traffic, cars and busses, that the ninth bears, cannot be kept good unless the gravel is oiled at least.

Councils are slow to face the expense of oiling roads, but the day is not far away when gravel will be so hard to get that it will be a prime necessity to oil in order to save what gravel can be got at high prices.

In view of the emergency and the general dissatisfaction about the 9th, Whitchurch Council could have rendered a good service by supplying the cost of oil from Stouffville to the lake, and by giving the matter some consideration.

SUNDAY SCHOOL LESSON

Lesson for July 29 Golden Text—I will establish my covenant between me and thee and thy seed after thee in their generations for an everlasting covenant, to be a God unto thee, and to thy seed after thee—Gen. 17:7

fleshly expedients. Verse 2—"I will make my covenant between me and thee." It was a covenant of pure grace. God gave the promise that He would multiply Abram exceedingly. His gifts and callings are without repentance (Rom. 11:29). This covenant still stands and will have its greatest fulfillment in a future day, when all things written will have come to pass (Luke 24:44; Acts 3:19-21).

Heaven. We are not to spiritualize this pledge made in regard to the land. It is the land of Palestine itself which God gave irrevocably to the seed of Abraham. He has said of it, "The land shall not be sold for ever; for the land is mine" (Lev. 25:23). "He disposes of it as it pleases Him, and it is His will that Israel, Abraham's literal seed, shall possess it and dwell in it. Therefore, though scattered as they have been throughout the past centuries, He will see to it that they return as a nation to that land in due time, when they return in heart to Himself" (Isa. 11:10-16).

around the lake. The general approval, we hope, will encourage this work to be extended another year. One ninth concession farmer told this paper he would gladly contribute a special tax for oil if the whole stretch from town to lake was done.

Weed Cutting Time

The time is right here when all property owners should see to it that weeds are cut, especially noxious weeds. Under the Weed Control Act, all noxious weeds must be destroyed as often as necessary to prevent them seeding.

Appeals are being made in our advertising columns by both Uxbridge and Markham townships, calling upon property owners to observe the law. There is another angle besides the law, of course. Think how much better roadsides and properties look when weeds and long grass are mowed down.

So far as Stouffville is concerned, the cutting of Main street boulevards pays dividends, for as the slogan of the former Horticultural Society ran, "Beauty Brings Business," is very true. How many people have been induced to locate in this place largely because they were attracted by the general appearance of our Main street, which is quite a model from one end of the town to the other.

Judge Gently

Pray don't find fault with the man that limps, Or stumbles along the road, Unless you have worn the shoe he wears Or struggled beneath his load.

Don't sneer at the man who's down to-day, Unless you have felt the blow That caused his fall or felt the shame That only the fallen know.

Don't be too harsh with the man that sins, Or pelt him with word or stone, Unless you are sure—yea, double sure— That you have no sins of your own.
