

Claremont and District

By Staff Correspondent

Local dealers—Mowder's Store and Overland's Store.

The Vacation Bible School which was held this week in the Baptist Church Sunday School proved a great success as a new venture. The school was handled by Mrs. Jud Ward, Miss Hazel Hinan, Miss Ollie Forsyth, also Miss Margaret Cowie with Rev. Wenham as "headmaster". A parcel of clothing collected by the kiddies is being sent overseas, along with \$25 in cash.

Mr. and Mrs. Jas. Coates and Mr. and Mrs. Morgan Pugh of Uxbridge intend to go on a holiday trip this week to the Haliburton district.

Mr. and Mrs. Hurlburt of North Claremont visited friends at Beaverton recently.

Wesley and Mrs. Lehman and Mrs. Jack Lehman and son, spent Sunday with Jack and Mrs. Morgan of Brooklin.

Bert Jones from Ashburn is in ill health and in the Oshawa Hospital, friends will regret to learn.

Mrs. G. Richardson returned home this week from Toronto where she has been visiting her sister and niece.

Miss Doris Dolphin of Toronto visited over the weekend at her home here.

The regular meeting of the Ladies Circle of the Baptist Church will be held on Tuesday afternoon, Aug. 28th, at the home of Miss S. E. Evans, Mrs. C. H. King of Toronto, wife of a former pastor will be the guest speaker.

Dr. Tomlinson is having his home painted. Jas. Briscoe is the artist.

Mrs. Jess Warden has been visiting friends in Toronto this week.

John Farr, young son of Mr. and Mrs. Jos. Farr underwent a tonsil operation last week, but is feeling fine once more, and has gone to Haliburton to enjoy the balance of the vacation time with his parents.

Mr. and Mrs. Ken Johnston and family of Toronto, spent Sunday with Roy and Mrs. Morgan.

Friends will be pleased to learn that Mr. Kirk Beelby, brother of Mr. John Beelby of Claremont is steadily improving in health although still confined to hospital in Oshawa.

Gordon Benson, son of Mr. and Mrs. Mill Benson is home from his army post on the west coast for an extended leave.

Friends of Mr. and Mrs. Allan Prouse gathered at the home of the bride's parents, Mr. and Mrs. Arthur Prouse, to charivari the couple one evening last week while a few nights later the same group plus many former pupils of Mr. Prouse tendered the couple a miscellaneous shower of gifts.

Mrs. Esther Stevenson and daughter were visitors last week with Mr.

and Mrs. Jos. Empringham, Mt. Zion, and Mr. and Mrs. W. P. Boynton, Blackwater.

Mrs. Arthur Loyst and son, of Oshawa, are spending a few weeks with Grant and Mrs. Taylor.

Master Gerald Morgan returned to his home in Brooklin after spending the past two weeks with his grandparents, Roy and Mrs. Morgan.

The special thanksgiving service in the village park was well attended on V-J Day. Rev. Mr. Wenham delivered the address, while the choirs of both churches joined in rendering special music. On the whole the holiday was observed without incident, as was the evening previous when the great news arrived. Crowds gathered in the streets for a dance on Wednesday evening, but everything was quite orderly.

Mrs. Will Palmer has not been enjoying the best of health for the past couple of weeks her friends will regret to learn.

Mrs. Dave Dawson and Mrs. Stevenson from the U.S.A. were visitors on Friday with Mr. and Mrs. Jas. Coates.

Miss C. Doughty of Peterboro, and former school teacher here visited at the home of Miss S. E. Evans last week.

Frank and Mrs. Loyst returned home after a week's holidays with their daughter and family at Tweed.

Miss Evelyn Tweedie of Whitevale has been visiting at the home of Mrs. Harry Boose.

City Team Fails to Show Up for Scheduled Match

Slovaks failed to show up on Saturday evening for the scheduled football match with Claremont much to the disappointment of a considerable number of fans who turned out for the affair. We understand that there was a disagreement between the two teams as to when the game should be played, the Toronto team favoring Friday evening. Since no official referee turned up, the game will be re-dated. This Thursday evening, the local team will play Rogers in the Claremont Park at 6:45.

Frontier Farmer Takes a Bad Fall

C. M. Forsyth suffered a severe shaking up and injury to his back when he tumbled from a ladder while taking an insect nest out of a tree at his home in the north end of Claremont. Mr. Forsyth was completely incapacitated over the weekend, but hopes are that he will be back on his feet again before too long.

BROUGHAM

Flt. Lt. Bruce Warren D.F.C. of Ponoka and his bride, the former Miss Lois Burroughs who were recently married at Wetaskawin called on the bride's aunt, Miss I. Bate, recently. The groom who is stationed at Trenton returned to his duties with the R.C.A.F.

The Misses Corbett of Greenwood called on Mrs. A. B. Matthews one day last week.

Mrs. Robt. Birrell has returned home from a week's holidays with her brother, Beverley and Mrs. Robson of Guelph.

Mrs. Albert Harvey and little son are holidaying with Mr. and Mrs. Bert Harvey.

Mr. and Mrs. Munroe King and son of Toronto called on Mrs. Gannon on Sunday.

Rev. L. M. Wenham of Claremont was in charge of the services here on Sunday afternoon, and delivered a very inspiring sermon which was enjoyed by all who were privileged to be present.

Miss Evelyn Woodward returned home from Oshawa Hospital on Sunday. Her many friends hope to see her around in her usual place again soon.

Mrs. Bennett, Markham was visiting with Mrs. Geo. Philip during the past few days.

Mr. Wm. Gray, of No. 7 west of Brougham, had the misfortune to be kicked by a cow one day recently, fracturing his knee. He is now confined to the house with his leg in a cast. He was attaching a new milking machine to the cow at the time.

Mr. and Mrs. Gannon attended the funeral of Mrs. Gannon's sister, Mrs. Ferguson of Carnarvon, on Monday.

Mr. and Mrs. E. L. Crocker of Toronto spent Wednesday with Mrs. L. Matthews.

Mr. and Mrs. W. J. Brown and sons Thos. and Jack, lately returned from overseas, also Mrs. Drynan and little daughter spent the weekend with Mrs. T. C. Brown.

Mrs. John Gillman and daughter Ruth are visiting relatives at Gatebridge.

There will be no service in the

United Church here next Sunday.

The Women's Institute held their regular meeting on Tuesday afternoon at the home of Mrs. N. Burton with a good attendance. First Vice-President, Mrs. Thos. Robertson was in the chair. Minutes of the previous meeting, letters of thanks for remembrance from members & letter of thanks for assistance to "Jam for Britain Fund" were read.

Mrs. M. Annis, the present president sent in her resignation as she found it impossible to carry on because of other duties. Mrs. Thos. Robertson, former 1st vice-president, was elected to fill her place. A report on current events was given by Mrs. Birrell. Roll Call was answered by a well known proverb. Hostesses Mrs. N. Burton, Mrs. O. Burton, Mrs. Hutchings and Mrs. Hodgson served a bountiful lunch.

The W.M.S. reunion picnic held on Thursday afternoon proved a real success. The afternoon program consisted of quizz games, guessing contests and other sports. Roll Call was answered by "What We Think of Brougham" followed by a delicious supper on the lawn, to which about sixty sat down. Friends were present from Toronto, Markham, Whitevale, Brooklin and other surrounding districts.

Ajax to Become a Second University of Toronto

To make room for an influx of ex-service personnel that may double its prewar registration, the University of Toronto has obtained lease to 700,000 square feet of floor space in the huge Ajax plant of Defense Industries Ltd. as a post-war emergency measure, it was announced in Ottawa by Minister of Munitions and Supply and Reconstruction C.D. Howe.

The new school at Ajax will be used to house and train first-year, and possibly second-year students in applied science and engineering, and perhaps those in some chemistry and physics courses as well. President Sidney E. Smith said.

The space leased is all within the plant compound and does not include the 600 houses built in Ajax Village by Wartime Housing Ltd. The university property does contain, however, the 21 big dormitories inside the compound, where single women workers have been living, and can accommodate about 3,000 students. And President Smith said that married veterans might be able to acquire living accommodation near the Ajax division.

Governments Co-operate

The Ajax undertaking has been made possible through the co-operation of the Dominion and Provincial Governments with the university, said Col. W. E. Phillips, chairman of the university's board of governors. Dominion authorities had made the premises available, he said, and Premier George Drew of Ontario had assured the university that his government would underwrite the capital and additional current cost of operating the Ajax branch.

The work of converting the property into classrooms, laboratories and residences will begin almost immediately. The Ajax plant, built at the cost of \$12,000,000, is scheduled to close after four years of operations. The first lecture will be given there in January, it is hoped.

Plans are now being formulated for co-ordinating curricular, social and athletic activities of Ajax students with those on the Queen's Park campus.

Building Being Turned Over

Among the buildings that are being turned over to the university are the 36-bed D.I.L. hospital, dormitories, cafeteria seating 1,000 and the recreation centre with its bowling alleys, theatre, lounge and refreshment bar. An official party from the university, led by Dr. Smith, visited the premises.

So great is the task of accommodating the thousands of servicemen and women already discharged or yet to be released who plan to take advantage of the Government's educational re-establishment program that facilities had to be found off the campus, Dr. Smith explained.

Estimates of the volume of veterans that Canadian universities must eventually admit, he said, range from 35,000 to 70,000. On the basis of the minimum estimate, pre-war percentage figures would give the U. of T. more than 8,000 of these. These, added to the university's civilian students, would double its normal peacetime population.

SHOOTS WOLF FROM TRACTOR

Chatham, Aug. 18—A wolf was shot and killed last night on the farm of Albert Houston, two miles west of Dresden, when it failed to clear a barbed wire fence in an escape bid. The wolf was flushed from its den in a field of four-foot sweet clover during mowing operations by Elmer Broom, 29, of Dresden.

Broom tried to ram the wolf with the tractor-mower. The wolf eluded him and attempted to jump the fence. The fence proved too high and the wolf fell back only to have its two hind legs severed by the mower. Broom, who was carrying a shot-gun on the tractor, shot the animal.

South Pickering Ratepayers Urging a Big Program

South Pickering Ratepayers Association are fairly up in arms over being refused the use of the Dunbarton School in which to hold their meetings, from time to time. According to the information received at the ratepayers' meeting, held in the town hall, Pickering village, the school trustees refused the ratepayers this privilege.

A representative of the Dept. of Education stated that there was nothing the Department could do, but privately gave the opinion that the trustees' attitude was the only case of its kind in the province, but that the trustees were elected by and responsible to the people. "The remedy is in our hands", remarked Horace Brown, president of the association.

The main issue of the meeting was the report from the associations' delegation to Pickering township council. The report covered two sessions of the council. At the first they asked for a polling subdivision for Dunbarton, which was promised by the next municipal election. The council promised to approach the Highways Department concerning a proposed sidewalk from Morrish's store to Dunbarton School.

When more police protection was advocated, it was promised that the matter would be looked into. The question of a school area is being gone into, although such a thing has not been met favorably so far. Snow removal promised, providing equipment is to be had. A policy of

anti-mosquito protection, it was decided, would be too difficult to apply throughout the township. The questions of life-saving equipment and weed control were both thought to be responsibilities, the first, of the beach owners and the second, of the landowners or tenants. The Dept. of Highways will be approached with the proposition to widen the corner of the Fairport Beach Road and the highway, and to move the letter boxes there further back.

Nothing was done by the time of the next session regarding the sidewalk question. The council repeated its promise of a polling booth at Dunbarton. As to police protection, the reeve stated that they must have definite facts to substantiate the claim that such protection was necessary.

BEARS, BLACK, BROWN AND A FEW WHITE

Evidently neither trappers nor hunters are afraid of the big black bear nor of the big brown bear, or white bear, for more than 1,000 of the three colours find their way into the fur trade every year. In 1944, 1,442 black and brown and 80 white bears were sold. The two first kinds came from all the provinces except Prince Edward Island, but only two came from Nova Scotia. The principal source of supply is Ontario, Quebec, and British Columbia. Of the 30 white bear skins sold last year, 69 came from the North West Territories and 11 from Quebec, but the skins from the North West sold at an average price of \$5, while the Quebec pelts brought \$25 each. All the white bear skins are used as rugs, so too are the black and brown bear skins.

BETTER GASOLINE SOON

Steps are being taken to restore pre-war qualities of motor fuels and to use the results of war research and development to produce even better quality, according to R. V. LeSueur, chairman and president of Imperial Oil.

The first steps are to get back to the higher volatilities and better octane rating of pre-war gasoline. This will result in easier starting and improved performance. However, a great deal of ship and rail movement from refineries is involved. There is also the problem of getting supplies of tetra-ethyl lead.

Mr. LeSueur said that but for the war, higher than pre-war qualities of motor fuels would have been on the market. Commenting on improvement in quality, he pointed out that the aviation gasoline used in World War I was not considered good enough for operation of even a jeep in World War II.
