## Injured During Threshing

While assisting with the threshing on the Wellman farm east of here last week, John Murray misjudged his standing space on the feeding table and fell backwards to the floor injuring his shoulder. He has had X-rays taken of the injury, and will be away from work for some time.

## Religious Survey

Something unique in religious work will be attempted in Claremont a week from Sunday, Sept. 9th when men representing the two local churches will make a religious survey of the entire community. The door-to-door canvas will be carried out on Sunday afternoon and the co-operation of all is sincerely asked for by those who are

giving freely of their time in an effort to bring a closer bond between the churches and the large percentage of people who are affiliated with no religious denomination.

## Cannery Prepared For Big Season

Work is being rushed to completion on the addition to the Claremont Cannery in time to receive the new crop of tomatoes. The new building is of cement block construction 40x30 feet, with beams 14 inches square. These fine timbers were taken from a railway elevator at Parry Sound, and their quality is unobtainable today. The new building will be used chiefly for storage.

The local cannery has 98 acres of tomatoes under contract, and with a good yield should receive nearly 40,000 bushels. However the cool weather is retarding ripening, and it will be a few days yet for any fruit is received.

Mr. Williamson hopes to employ nearly 35 peelers, and will operate it will be a few days yet before any clear the tomatoes once they start to arrive.

## Reward Offered for Alleged Mafrauders

Two posters in the Claremont postoffice announce a reward of \$50 for information leading to the apprehension of alleged mafrauders on the R. G. Roy farm just south of Claremont. According to the posted information, threatening notes have been received by a workman on the Roy farm, while the second notice states that a gun was used on person or persons found damaging property.

Provincial police were called in by Mr. Roy, the press was informed, but so far no one has been treated for gunshot wounds, and no one has been apprehended on a charge of interfering with the Roy property south of the village.

## Drop in Taxes for the Villagers

Claremont tax payers will read with pleasure that they are to receive a nice reduction in taxes this year due to the government taking over more of school costs. Last year the school rate was 8.6 mills and this is dropped to 5.2 mills. However the whole saving cannot be passed on as the general tax rate had to be increased 1.3 mills, leaving a net reduction to the tax payer on his total taxes of a little over 2 mills, all of which will be greatly appreciated. Taxes, of course, have been very moderate here in Claremont.

If there is any plan to abandon the "Alaska Highway" which appears to be the insinuation of stories circulating on Parliament Hill, this move would be accompanied by strong opposition, especially in the United States where this one hundred million dollar project is deemed to be most useful in the postwar era for Canada. At least, this appears to be evident now in Ottawa.

Several of our Jr. boys under the leadership of Frances Wilson and Allan Ellicott went camping over the weekend in Ramer's bush. The weather was wet and cold but the boys reported a good time.

Mrs. Fred Hamilton was at the wedding of her nephew, Mr. Kenneth Raven.

Mr. Brennen has been busy decorating the inside of the school. Electric lights have also been installed.

Miss Ruth Gillman returned home on Sunday after spending a week with her sister, Mrs. W. Vickers, of Cambridge.

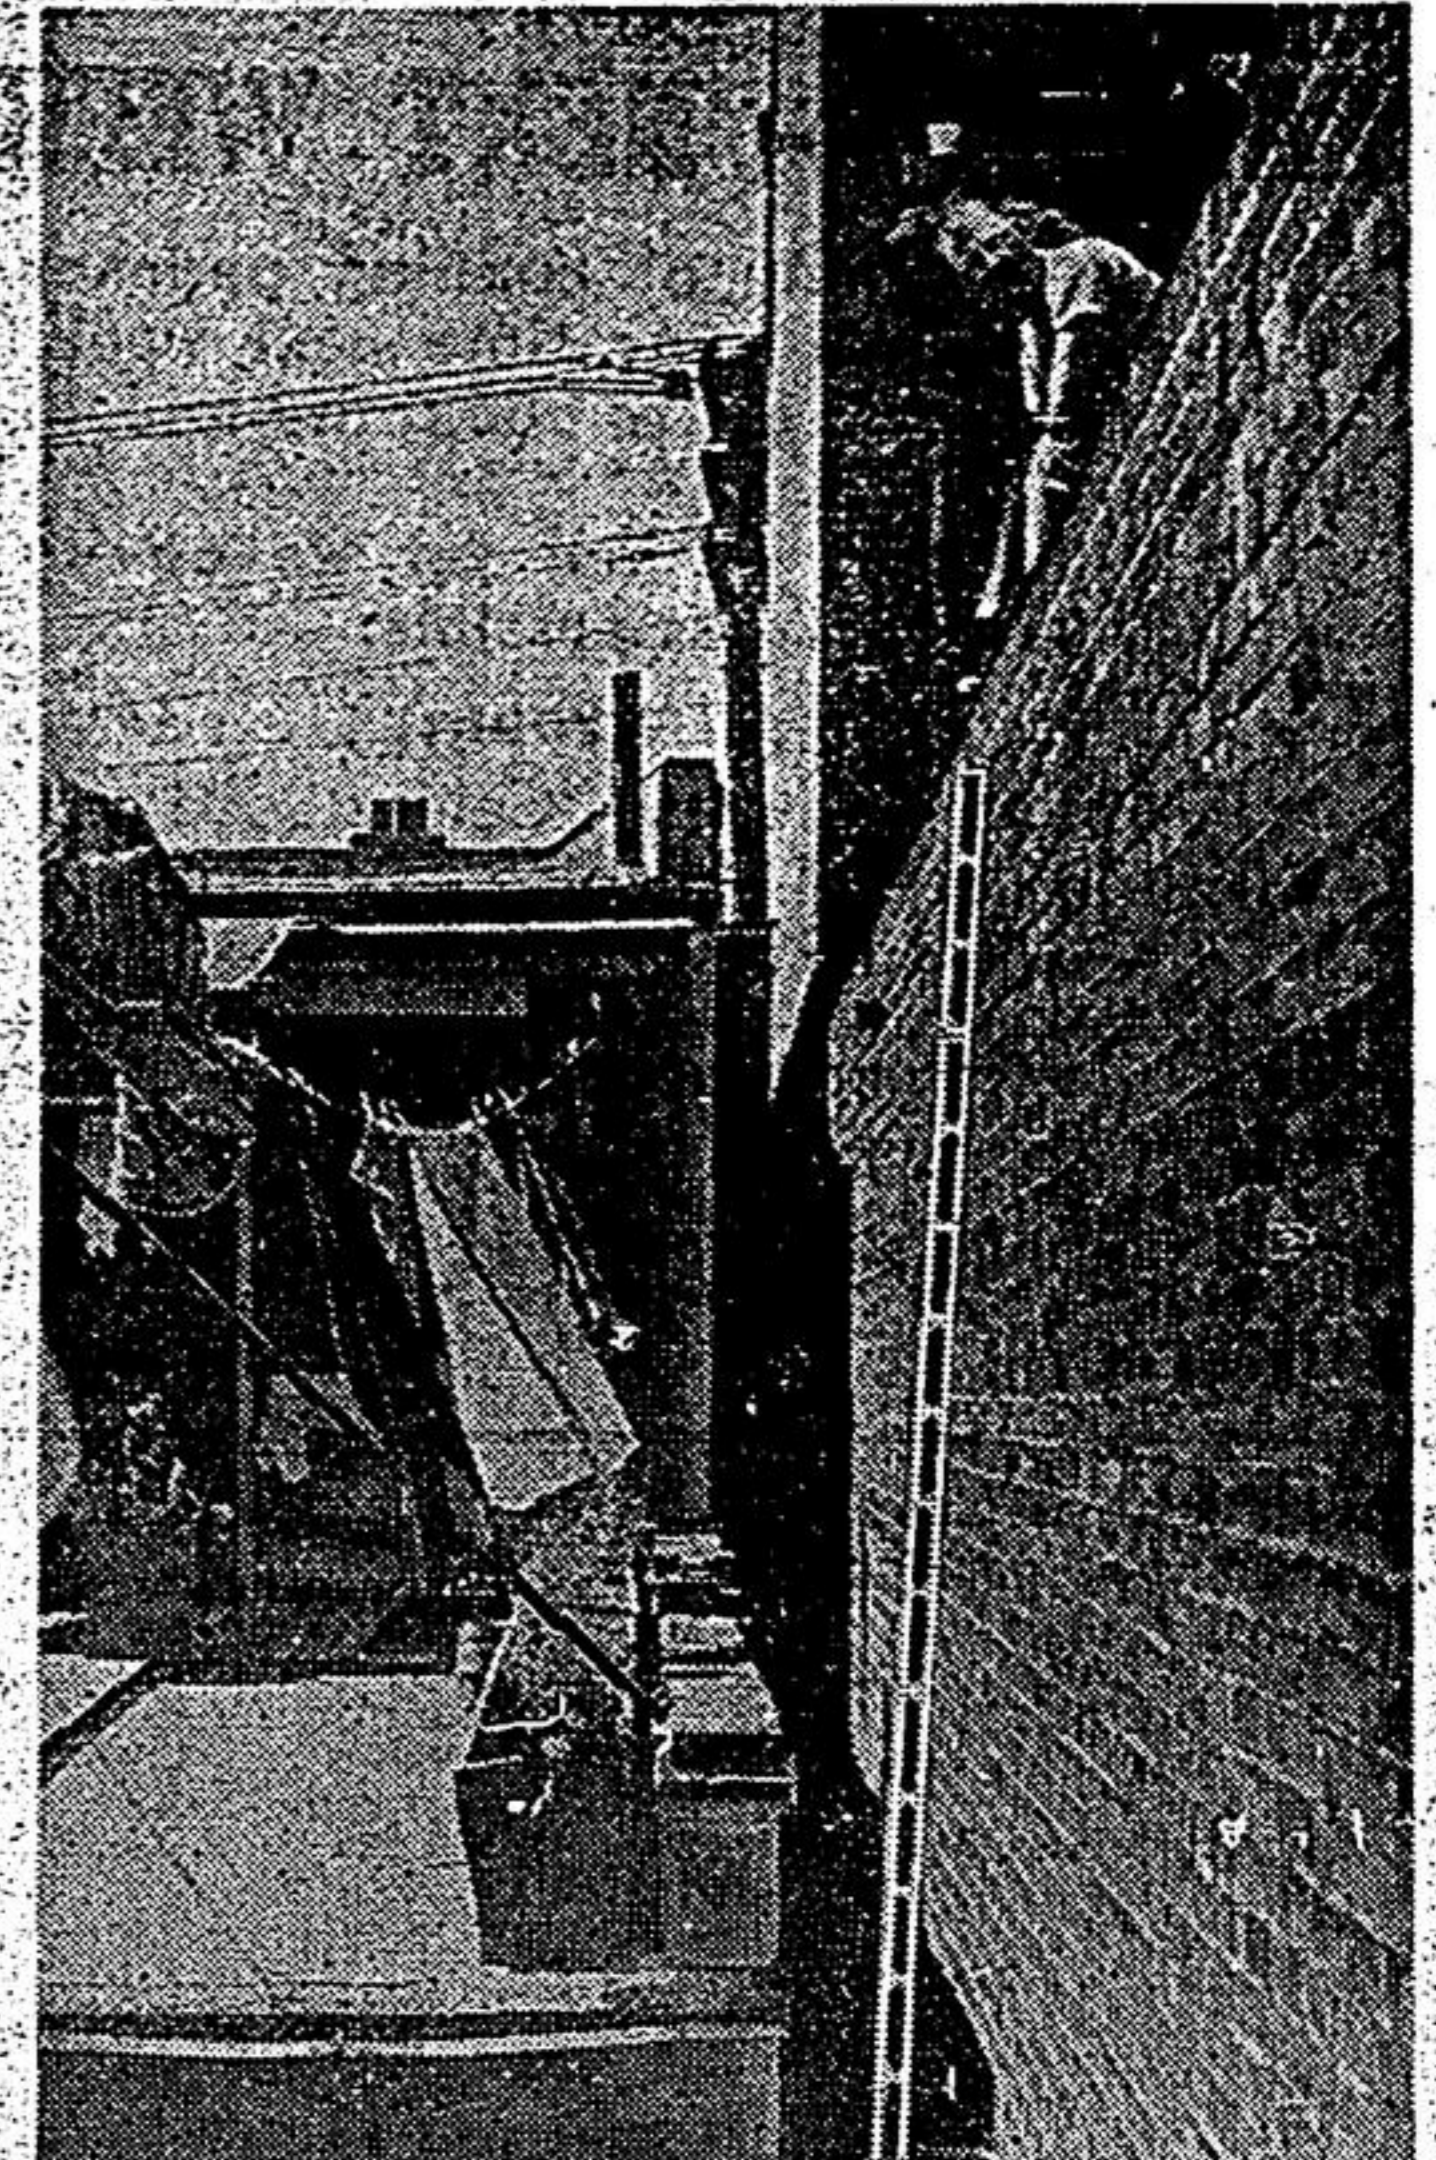

The combined synthetic rubber output of the United States and Canada has supplied the armed forces of the Allies with all the rubber they need.

## Claremont Lady Injured in Fall

Suffering a weak spell while hanging clothes on the flat roof of a two-storey apartment-store building at 671 Danforth ave., Toronto, Mrs. Blanche Cook, 55, toppled 25 feet into an alley. Mrs. Cook was a Claremont resident up until a short time ago.

The alley is blocked at the front and rear by sections of the building and firemen had to lower extension ladders to reach the unconscious woman. She was removed to the Toronto East General Hospital with severe cuts to the head and face and

Dotted line shows where Mrs. Cook fell from flat roof into deep alley, possible internal injuries.

Walter Scott, a resident of the same apartment house, said Mrs. Cook always had a terrible horror of falling off the roof into the narrow space between the two buildings. Mrs. Cook had warned other residents of the danger, he said.

**FARMERS' BULLETIN**

### HUNGRY EUROPE NEEDS MEAT

The shortage of food in liberated Europe is desperate. Meat is one of the most critical needs.

As a great food-producing nation, Canada must, can—and will—help to meet this emergency.

That is why slaughtering has been placed under strict control.

That is why ration coupons will soon be used again by Canadians to buy meat.

There is only one objective—To reduce meat consumption in Canada in order to provide direct aid for the hungry peoples of Europe.

#### Slaughter Control

Farmers who slaughter meat for their own or their farmer neighbor's use are required to submit monthly reports (Form RB-61), and to surrender coupons for the meat they use and sell.

Any excess of meat over the farmer's or his neighbor's needs may be sold only to the holder of a regular slaughter permit.

The minimum amount which a farmer may sell to such a permit holder is one quarter of beef or half a hog carcass. Sheep, lambs or calves slaughtered by a farmer for his own or his neighbor's use may not be sold into the meat trade.

#### Locker Operators

Under the meat rationing regulations, locker operators are required to submit a list of their patrons to the nearest Ration Branch Office.

A supply of Consumer Declaration forms is being forwarded to each locker operator who will, in turn, distribute them to his patrons. The patron is responsible for completing the form and filing it with the Ration Branch Office.

Consumers must surrender coupons for all meat held in lockers over and above 4 lbs. for each person in the household at a rate of 2 lbs. per coupon. However, no more than 50% of the "M" coupons in the ration books of the consumer and his household need be surrendered.

### MEAT RATIONING FACTS

Amount of Ration will be roughly 2 lbs. (carcass weight) per person, per week.	2 1/2 lbs. per coupon; Group "E", 3 lbs. per coupon.
Rationed Meats. All cooked, canned, fancy and "red" meats.	Tokens. Tokens, eight of which are equivalent to one coupon, will be used as coupon change.
Unrationed Meats—beef brain, head, tail, blood, tripe; calf brain, head; pork brain, head, tail, pigfeet, spare ribs; lamb brain, head, tail, fries; poultry, game and fish (canned or fresh).	Farmers must turn in to their Local Ration Boards a coupon for each 4 lbs. of meat (carcass weight) they use in their households from their own slaughtering. So that they may buy other meats from their butchers, no more than one-half of the valid coupons in the hands of the farmer and his household need be surrendered. Farmers who sell meat to a neighbour farmer must collect coupons at the rate of 4 lbs. (carcass weight) per coupon.
Coupons—brown "M" coupons in Ration Book No. 5. One coupon will become valid each week.	
Coupon Values—Group "A", 1 lb. per coupon; Group "B", 1 1/2 lbs. per coupon; Group "C", 2 lbs. per coupon; Group "D",
