

Suspect Four of Port Perry Holdup

Taken into Custody After Running Gun Battle at Peterboro

City and provincial police narrowly missed death in a thrilling 70-mile-an-hour chase through the city streets of Peterboro after 9 o'clock last Tuesday night, which resulted in the arrest of four men wanted for an alleged car hold-up on No. 7 Highway, west of Lindsay between Oakwood and Manilla.

The four, Norman Waters, Donald Fairlie, Thomas Marston, and Thomas Fred Gillard, 16 to 19 years old, all of East York, Toronto, are suspected of complicity in the bank robbery and attempted office robbery at Port Perry.

The four appeared in Lindsay police court Thursday afternoon at 1:30 on a charge of armed robbery. They were remanded for one week without bail.

The four youths allegedly held up John Kirkwood, 27, of West Hill, his wife and baby at the point of firearms. During the police chase which ensued some 25 shotgun slugs were fired through their car.

After a mile chase through Peterboro streets, the driver was fooled by a checkerboard sign. Police said he apparently thought it meant a dead end, whereas it cautioned against excess speed on the turn. Two youths jumped out and leaped in the Otonabee river. They began swimming for the opposite shore but gave up when Constable W.C. Clark of the Peterboro city police fired two shots at them. Two others were discovered hiding in a bush. They came out when police warned that they would fire a fusilade of shotgun if they didn't give up.

BIG CAR OUTPUT PLANNED
Canadian companies may turn out 200,000 cars next year, reports The Financial Post. Regarding the balance of 1945, the picture is reported still clouded with so many uncertainties that no one will offer any specific predictions or promises. Manufacturers, however, are aiming for production of at least double the quotas set for them after V-E Day, between now and the end of the year. This suggests a volume of some 20,000 cars in 1945.

Opinions concerning the postwar market vary considerably, but some members of the industry look for an annual output of close to 200,000 for the first two or three years at least. This would be about double immediate pre-war production.

ONE SLICE OF MEAT A WEEK IN FRANCE

You're lucky if you get a thin slice of meat a week in France. The ration is one-tenth of a pound per week and that is just about enough for a mouthful and no more. A recent law declares that Sundays and legal holidays are the only days on which beef, mutton, horse or goat meat can be served in public eating places.

These facts were revealed last week in Ottawa by Michel Dumont, director of French Information. 6,000,000 people are suffering seriously from lack of food and another 9,000,000 exist on a very slim diet. Anæmia affects 50 per cent of the children of France. Tuberculosis has increased 40 per cent since the beginning of the war and the infant mortality rate is up 50 per cent.

ADMIT DISPLACED EUROPEANS?

Most of a group of well informed Canadians queried by The Financial Post would admit European immigrants sparingly until Canadian veterans are re-established and world trade relations clarified. A few, however, saw an opportunity to people this country quickly in the thousands of displaced persons now roaming Europe.

NEWEST V.C. WINNER
Squin Lorrian Willoughby Brazagette, who won the V.C. posthumously for his efforts to have his crew after his bomber was hopelessly damaged in action, was born in Calgary.

AUCTION SALE

ITEMS OF

RENTAL APPEAL PRIVILEGE WAS IN ORIGINAL ORDER

Some confusion arose about the right of landlords to apply to a court of rentals appeals to have notices to vacate reinstated, despite the recent "freezing" of leases. Wartime Prices and Trade Board points out that this right was written into the original order of July 25, and is not the result of any recent action.

Landlords, if they intended applying to a court of rentals appeals, had to do so before August 31.

CHICKEN EATING BEAR IS KILLED BY FARMER'S SON

Fort William, Sept. 3.—Returning to his Arthur St. farm home eight miles west of the city early this morning, Aldo Zatti, 18, heard an uproar in the chicken house where 150 6-month-old pullets were quartered. Looking in the window of the coop in the bright moonlight, Aldo saw that a huge black bear had the birds crowded into a corner and was striking them down with a swift-moving paw. He ran to the house, seized a 30-30 rifle and fired at the bear through the door. Apparently the youth hit the bear with the first shot, for it came bounding out of the chicken coop door with a roar of pain. Bruin loped swiftly down a neighboring field, followed by Aldo on the run with his rifle.

At a high fence a quarter-mile distant the animal was temporarily balked, allowing the lad time to catch up. From close range another bullet blew the top off the animal's head.

Returning to the chicken coop, Aldo Zatti found remains of 11 chickens which the bear had eaten, as well as two other dead birds. The other chickens had scattered all over the farm.

Today, Aldo's father, John Zatti, dragged the bear's body to the house with a tractor and found it weighed 200 pounds. He plans to have the pelt made into a rug. This was the first time Aldo shot anything larger than a rabbit and the first time in years that the farm has been bothered with bears.

Send The Tribune to absent friends.

TO CALIFORNIA VIA THEIR THUMBS

MARIE SPEARMAN AND BARBARA DENNISON

"California or bust!" is the slogan of two Ontario girls of the Canadian Women's Army Corps, who, like the '49ers, are bound for the Golden State. They haven't got a covered wagon but they have four good thumbs. With the first leg of their journey behind them, they are Cpl. Marie Spearman and Pte. Barbara Dennison, both of Ottawa, and they intend to travel the 6,000 miles there and back, via their thumbs.

It will take four years to build cattle herds in France to the pre-war level. Consumption of beef and mutton in Paris has dropped from

11,000 tons to 5000 tons. Any help which Canada can give to alleviate the serious meat shortage is most welcome.

YORK COUNTY'S THIRD ANNUAL

JERSEY SALE

Saturday, Sept. 8

40 Choicest Females

Carefully Selected by Sale Committee from 17 Herds

Playing safe with TEXTILES

The supply of textiles is not adequate to the demand.

Fox six years, most of the world output has gone to war.

Victory has not improved the situation.

There will not be enough textiles in Canada for many months to come.

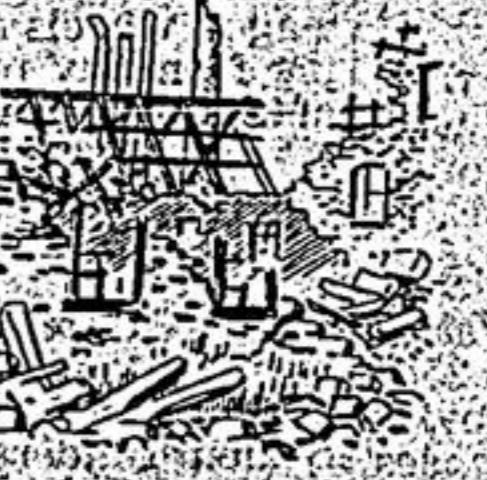

HERE ARE SOME OF THE REASONS

Canada depends largely on other sources for raw materials and for some yarns and fabrics.

A serious manpower shortage still confronts the textile industry of all Allied countries.

Shortages overseas must be met. It will take months before production is resumed in Europe.

Substantial quantities of all kinds of textiles are still required by occupational forces.

Domestic demand for textiles increased sharply during the war. It is still going up.

Civilian clothing needs of returning servicemen and women are swelling the demand here at home.

CONSERVATION IS THE KEYNOTE

This year, production directives have again been issued to the textiles industry.

They are intended to divert output to more essential goods.

But directives alone cannot cure a situation arising from world conditions.

The answer lies in conservation. More than ever, the need is to conserve, to take care of what there is, to mend, make-over and make-do.

TO PROVIDE CANADIAN WOMEN with guidance and practical assistance in maintaining the family wardrobe, the Board has prepared a series of advertisements which illustrate several ways of styling new and fashionable clothing from outgrown and outmoded garments. For valuable tips on economy and conservation.
