# Local and Personal Happenings

Good Friday falls on April 19, next public holiday.

If any one has a pair of used nylons they do not like we suggest they try an adv. In The Tribune, and watch the results which still might be very gratifying.

Mrs. Stevens, O'Brien avenue, was called to the home of her brother in Owen Sound this week, owing to his sudden illness.

Annual Commencement time for our High School once more impresses the hardship the school undergoes in Stouffville because no public hall is available for their concert. Will it be possible to have a hall of some kind ere another winter rolls around is a logical question one might ask.

## Hydro Improvement Soon

Engineer Ferguson of the H.E.P.C. was in town on Friday and assured the authorities that it would not be long now before a noticeable improvement in the voltage at Stouffville would be felt. New equipment for the sub-station at Ringwood is on the way and when it finally arrives and is installed the bad period between 5 and 6 o'clock in the evening will be improved greatly.

With Shrove Tuesday next week, it is time to talk about pan cakes, says the consumer-branch of the Dominion Dept. of Agriculture. Hot griddle cakes, pancakes, flannel cakes or flapjacks—all have but one meaning—golden hot cakes, fresh from the griddle. They may be thick or thin, served at any meal of the day to make a feast. Shrove Tuesday was a time when people were shrove or shriven by fasting at the beginning of Lent. Seems as though in modern times we have changed things around, and so we have pan cakes being suggested for the feast instead of a day for fasting.

## New Projectionist

Receiving his discharge from the Army last week Charlie McDonald intends to enter the employ of the Stanley Theatre where he will complete his apprenticeship that will enable him to be labelled a fully qualified projectionist. This work is in charge of Mr. Sid Schmidt at the Stanley, and he will take with him the army lad as a helper. Charlie has been engaged for over three years at this work in the army and has a good grounding. He is a married man with a wife and one child. They have an apartment at the Mansion House. Prior to the war Charlie McDonald who is a native of Scotland, was employed in the district as a farm helper.

## 1946 Domesday Book

Town Assessor Blake Sanders is now on his rounds setting up the annual village assessment, which runs to half a million dollars. The great book compiled by the assessor was known as the Domesday Book when first started by the early Norman Kings, for the purpose of setting up a system of taxation which has stuck with the nations to this day. Nobody likes it, and nobody knows how we can get along without it. It seems very fitting that this work in Stouffville should be entrusted to Mr. Sanders. There has been a Sanders holding some official position in town almost continuously since its incorporation. The late W. B. Sanders (uncle to our assessor) was one of the town's early Reeves, and held the position of Justice of the Peace for 30 years. His son, Mr. H. W. Sanders, O'Brien avenue, also served several years as Reeve in very recent times, so that it seems only natural that this pioneer family in Stouffville, should in some manner be identified in an official capacity with the conduct of our municipal life.

Over 7,000 people read these Classified ads every week—they're your best advertising medium. Send the Tribune to absent friends

## PRaises SPY ROUND-UP

Praise for Canada's "forthright action" in cracking down on the alleged Soviet spy ring comes from Senator Styles Bridges, here, member of the U.S. Senate foreign relations committee, who also is calling for a U.S. investigation.

There are so many parties on these winter nights, that we heard one woman say there was not enough evenings in the week, and dates are booked well in advance to prevent clashing.

The Uxbridge High School Board contemplates installing equipment costing \$7,000 or \$8,000 for teaching Household Science and Shop Work next term which will be along similar lines to the classes established at Stouffville.

Scheduled to arrive on the Queen Elizabeth which docked last week at New York were Pte. W. D. Burrows, CIC of R.R.3, Stouffville, Pte. G.I. Stuart, RCASC, also of R.R.3, Stouffville, and Pte. L. W. Hopkins, RCASC of R.R.1, Claremont.

If the turnip you cook is hard and difficult to mash, don't forget to try out the Mix-master standing in your kitchen. Somebody brought a Mix-master to a church party and mashed the turnip and potatoes to such a nicety that the best cooks present marvelled, says a note in the weekly paper coming to our desk.

Active on her 102nd Birthday Mrs. Elizabeth Carpenter, of Gananoque has attained the remarkable age of 102 years and is believed to be the oldest woman in Leeds County. She is still interested in current events. In addition she lives alone in her own apartment, does her own housework and entertains her friends with all the active hospitality of a young woman. Mrs. Carpenter for Leeds and Andrew Penny for York county both 102 are running neck-and-neck for provincial honors in respect to being the eldest persons.

## Warning to Wedding Parties

Milburn R. Stinchcombe of Chatham last Friday was acquitted on a charge of man-slaughter arising from the deaths of two members of the party he was driving from his own wedding on Jan. 7, but was convicted of dangerous driving and sentenced to four months in the Ontario reformatory. Drivers of wedding parties who race through town at a fast speed, do not show very good judgment. If they only stop to think what an awful thing it would be if they met with an accident or possibly killed someone. Then honeymooners would be in sorrow, and the friends would be in the gloom too.

## FALSE TEETH VS. NYLONS

A mere set of teeth are nothing as compared to being able to buy a pair of nylons, according to one lady in Portland, Oregon. At a departmental store's lost and found department there is a set of false teeth found on the store floor following the line-up for nylons. Clerks said they saw a heavy lady drop something to the floor when she was jolted, but her hand quickly to her mouth, but held her place in the line. After all a set of teeth could be readily replaced, but nylons, well the woman just had to have them at the cost of feeding only on mush for a few weeks.

## NEW UNIFORM NEEDED HERE

The Port Perry village council at its last meeting decided to purchase a new uniform for its town cop, and you can take it as a good guess this limb of the law will need something with authority for at the same meeting a by-law was passed. This is what one clause says, according to the Port Perry Star:

No horse or vehicle shall stand upon any street or boulevard, and no horse or vehicle shall be left in such a manner as to obstruct the ordinary traffic of the streets, and no horse or vehicle shall be parked on any street at an unreasonable time, having regard to the traffic requirements of the streets.

If it is left with the cop to determine what is a reasonable time, he is going to be gray headed soon, for his opinion may not be approved by some one else. Since there is no law defining "reasonable time," the by-law will be almost meaningless.

## Ballantrae Finished with the Cleanest Record in League

Ballantrae finished their schedule of the Aurora town hockey league, with the cleanest record of any. Their players drawn from Ballantrae, Stouffville and Claremont spent a total of only 14 minutes in the penalty box.

In the points department, Herb Simpson who heads the Ballantrae crew finished up with 16 points, made up of four goals and 12 assists. This gave Herb second place just 3 points behind Biocchi of the Army team. The twentieth spot goes to Geo. DeRusha of Claremont with 6 points and Ross Redshaw, another Claremont product, also with six points.

Al Boadway, son of Mr. and Mrs. Carl Boadway of Stouffville, guards the net for the Simpson men, and has been turning in a neat effort in this position.

## TORONTO MAN SLAIN IN BRISBANE RIOT

Dr. James C. Taylor, 31, son of Mr. and Mrs. W. E. Taylor, Toronto, and nephew of Dr. S.S. Ball, Stouffville, who died in a hospital in Brisbane, Australia, was fatally injured in a street fray, Brisbane police reported. George Ernest Cowan, 24, an Australian, has been charged with murder. Dr. Taylor was en route to Melbourne University to accept a post in the department of philosophy. There was some delay in establishing his identity since the rioters stole his papers and other valuables which he was carrying.

The next regular meeting of the municipal council will be held on Thursday evening next week.

The town of Preston will go on Daylight Saving Time for five months this summer.

Mr. Maurice Montieith of Toronto spent the weekend at the home of Mr. and Mrs. Wes. Schell.

Mrs. David Wideman of North Markham is reported as in a very precarious condition at the Brierbush Hospital. Mrs. Wideman is a sister of Mr. Simeon Hoover, Dickson Hill.

The petitions which are being circulated by the local Temperance group which are asking that there be no further distribution of liquor through stores, etc. may be signed in any of the local churches, or at Frank Riches Hardware and Heise's Variety Store.

No drive for funds this year by the Canadian Red Cross, but there is a concerted effort being put forth to have everybody take out a membership in the worthy cause.

Dr. Neil C. and Mrs. Smith moved this week to their own residence on Main street, one door west of Dr. Ball's residence. For the winter they occupied the home of Mrs. Wm. Ratcliff, Church street north.

Mrs. Robt. Gowe, daughter Linda and baby, are leaving Stouffville for New York next week, where Mrs. Gowe will rejoin her husband who is stationed there with the Associated Press. The family have been making their home with Mrs. Gowe's parents, Mr. and Mrs. Horace Walsh.

## Stouffville 14 Leaside 4

Stouffville defeated Leaside Rotary Club team by the score of 14-4 on Friday night, and while the score was lopsided, it did not entirely indicate the calibre of play, as the Leaside boys gave a good account of themselves despite the nine goals the home team rapped in on them in the last period. Sellers and Minton were the big guns, getting seven of their team's 14 counters. While players on both teams were nearly all of juvenile playing age, the visitors found the Stouffville club quite a rugged outfit in comparison with what they were accustomed to play.

Weekend guests at the home of Mr. and Mrs. Harvey Moyer were Mr. and Mrs. Donald Moyer, Toronto, Miss Joan Hicks and Miss Margaret Sirman, both of Hamilton.

Mrs. Charlie Ward was suddenly seized with illness one day last week and was rushed to St. Michael's hospital where she underwent an operation. Latest reports are that she is getting along well.

Richard Caseley, 90-year-old Thornhill resident died on Feb'y. 21. He is survived by his wife, the former Frances Elizabeth Harding, Mr. Caseley died at "Resthaven," Langstaff.

"I feel that we get plenty for our money when we receive The Tribune here in the U.S.A. for \$2.50 a year," writes Mrs. Mable Sanders, former resident in town, from her home in Hollywood.

## Did You Know?

That experience carried out by Dr. Dana Warren of Omaha University estimate that the average speed of a hockey puck is 88 miles an hour, when shot at the net. An instrument known as an oscilloscope was used to estimate the speed.

With the "cooling up" at Brilinger's green houses at the rear of Monkhouse's tailoring shop, Jack McMullen is again on the job as night fireman. Veteran of the First Great War Jack is not very good on his feet, but he has no intention of giving up and sitting at home, so long as he has the energy to go.

Suffering from an infection in the hand Miss Flossie Barkey became a patient at the Brierbush Hospital last week, suffering intensive pain, and with some fear of complications setting in careful nursing was advised by the doctor. We understand an improvement is noted this week.

Gray Coach Lines bus bound for Stouffville on Saturday broke down just outside the city and the driver had to walk to a farm home and telephone for another bus. After it arrived and the passengers transferred, this bus also gave out at Agincourt. Some of the passengers engaged a private car to bring them to Stouffville. Replacement of the second bus delayed the final arrival here several hours. We understand Gray Coach is doing everything possible to obtain new equipment which is delayed on account of the series of strikes in the U.S.

With about a dozen homes having installed oil burners we hear that one firm had booked orders for that many more which are to be installed before another winter. Our coal dealers who have been doing a good job in keeping the home fires burning under most difficult buying, should get into the oil business too, so as to retain their customers. From Main street along Albert street north there are no less than four homes being heated with oil—The Stouffville Co-Op, Councillor J. Smits, Mrs. Hutchinson and Mrs. T. Ratcliff. Two other homes on the same street contemplate installing oil next summer.

Coconuts certainly were not taken into account by the officials setting the cost of living index which has risen very little. Coconuts are offered in town at 39 cents each, a big jump from 5 and 7 cents in pre war days. We presume that the margin of profit is little greater now than before the war, but being imported and scarce, they reach the wholesaler at a fancy figure. Coconuts, we presume, come from the Philippines. The plantations were not damaged by the Japs, but the problems are bagging, transportation, warehousing, and the very important matter of trade goods exchange for native money—we must provide goods—not money—in exchange.

Mrs. Alf. Hoover former Church street resident now living in Scarborough is in town visiting with Miss Mae Mowder and Frank.

Mrs. Leslie Hodgson and Miss Sadie Stewart attended the funeral of their cousin the late Robt. Ashenhurst in Uxbridge on Saturday.

N.W. Byer's & Son, General Electric Store are displaying prominently both in this issue of The Tribune and in their windows, recordings of song hits from "A Song to Remember," outstanding film playing at the Stanley Theatre next Monday and Tuesday.

Mrs. Will Reaman and family of Mt. Pisgah spent a few days with her parents, Mr. and Mrs. Jake McMullen.

Just around the corner is spring—that season when in many homes the furniture in the home changes corners.

Although Richard Avery of Little Britain attained his 86th birthday last Friday, he isn't giving up his usual duties of shovelling snow and attending to other tasks about the home and village where he lives.

## Firemen Get Sunday Night Call

Just before midnight on Sunday firemen were called to the hospital to stand by while the big chimney burned lively and sparks shot into the air. Patients were unaware of the presence of the brigade and the danger was gotten over with the minimum of disturbance. The chemical engine stood in the hospital yard ready for action, but fortunately the sturdy big stack was just as good as it looks, and contained the fire until it burned itself out. One of the highest gales of the winter was blowing at the time.

Through Sicily and Italy with the Canadian troops was the subject of a talk delivered Monday evening before the Stouffville Lions Club by Dr. N. C. Smith, who related his experience and observations in a manner that was most interesting to his fellow Lions. Dr. Smith was the chief dental officer attached to the Headquarters Staff, Canadian Corps, and set out for the Italian campaign after two years in England. Following the address of the evening, two new members were installed in the club, by Lion M.E. Watts. They are, K. N. Wagg, local Jeweller, and Bolton Slack, High School teacher.

## REV. J. H. BARNES

Rector of St. Peter's Anglican Church, Toronto, will address The Stouffville Christian Men's Fellowship in the Stouffville Baptist Church at 8 o'clock.

## MONDAY EVENING, MARCH 4th

In view of the fact that the Upper Canada Bible Society have had an urgent call to supply ten million copies of the Bible for Europe, and are in great need of extra funds, the entire proceeds of this meeting will be donated to the Bible Society. Let's do all we can.

Plan to Come You Will be Welcome
