

Ful-O-Pep Chick Starter

HIGH Livability, Rapid, Sound, Growth on FUL-O-PEP. So, this year start your chicks on Quaker Ful-O-Pep Chick Starter, the feed recommended by prominent poultrymen across the Dominion. Remember—chicks started and raised to maturity the Ful-O-Pep Way are bigger, stronger . . . the kind that lay more eggs, and stay strong and productive for several years.

SEED GRAIN, ALFALFA SEED, RED CLOVER SEED, TIMOTHY.

Orders for above are coming in fast. . . We advise booking your requirements at once. Quantities available and . . . Quantities needed are very uncertain.

STIVER BROS.

STOUFFVILLE Phone 4501

Mrs. Wm. Waddell is expected home from St. Petersburg, Florida, in a few days now.

The War Branch wish to acknowledge \$2.00 from a friend. Anyone who has any knitted articles or clothing for shipment on Tuesday, April 9th, are asked to leave them at the home of Mrs. Lee or Mrs. Davey before this date.

Men who find it hard to buy shirts will be almost as pleased as the people of Lindsay who learn that A. Bradshaw & Son have taken out a permit for a new building in Lindsay to cost \$125,000, for the manufacture of shirts. It is expected that from 125 to 200 employees will be engaged.

Fashion Show at Stanley.
A Fashion Show will be held this Thursday evening in connection with the program at the Stanley which is Foto Night. Local stores, according to the theatre announcement will articulate in this spring display. The offer this week totals \$335 which is another added incentive to be present.

Mr. and Mrs. John Angel, Judith and Joanne, and Mr. and Mrs. Art Mertens of Toronto, were Sunday visitors with their uncle, Mr. Joe Mertens.

Weekend guests at the home of Mr. and Mrs. Truman Baxter were Miss Margaret Watson, Miss Doris Hutchinson and Mr. and Mrs. McLennon, all from Manitoulin Island.

Mrs. Sarah Cook of Markham has just purchased the home in Goodwood once owned by the late Thos. Glenn. Mrs. Cook will make improvements to the place, and will look forward to making it her home.

Members of Stouffville Women's Institute attended the gathering at Agincourt last week and enjoyed the program "Summary Day" projects, salads the year through. Among those who were present from Stouffville were Mrs. Jas. Ridout, Mrs. T. Baxter, Mrs. G. Lemon, Mrs. Geo. Pugh, Miss M. Mertens, Mrs. W. Griffith, Mrs. T. Jennings, Mrs. H. J. Malloy and Miss Sadie Stewart.

Local and Personal Happenings

Mr. A. J. Lamb who recently located in Stouffville on returning from Western Canada, has purchased the Nathan Forsyth cottage at the north end of Church street.

Stouffville Fire Brigade made a mid-day call up Church Street on Thursday to squelch a grass fire which was threatening the hedge just north of the Allan Goudie home. The quick response from the firemen had the outbreak under control in a very few minutes.

This week Mr. and Mrs. Sam McKeown and family moved from Main street east to live in Ringwood, where Sam will be busy this summer on the farm of his son-in-law. Mr. McKeown has been employed all winter at the Brierbush Hospital.

It is interesting to note that Stouffville's industrial concerns are at an all-time employment peak at the moment, with between fifty and sixty men and women working at the three manufacturing concerns, the Stouffville Machine & Tool Works, the Gold Fish Supply Co. and the J.B. Home Mfg. plant.

45c for a wee box of fresh strawberries, said to be a pint in measure, is more understandable when one learns that the berries flew in by plane making a 90 minute run from Texas to Toronto. Due to fog early shipment had to cruise over the city for an hour before landing. So far as the price is concerned 45c for a couple of dozen berries is remained in the air, so to speak.

Suckers are up, but at time of making this notation none have been offered for sale in town, as customary each season. Several jaunts, have been made by local farmers to the southern part of the county where the estuary of the creeks running south provide accommodation for the millions of fish at this time.

Friends will be interested to learn that Cameron Clark, son of Mr. and Mrs. Milton Clark, Peterboro, and brother of Bruce Clark, popular manager of the local Farmers' Co-op, has been awarded the gold medal and \$100 scholarship in the Rotary Club Public Speaking contest in the northern municipality. Cameron has previously won the Junior Farmers public speaking championship.

Ice-Cream Draught
Stouffville was hard hit for ice-cream last week, and for at least a portion of the week there was not a scoopful to be had in town, from any of the seven stands which retail bricks over the counter. The abnormal weather brought on an early rush which gave the town an estimated consumption of over a hundred bricks a day. Now the sugar quotas of the companies have been used up, as have the local retailers' allotments, although relief was expected early this week.

Time to Clean Up
Although the spring season is fully a month ahead of schedule, it is not too early to begin the annual spring cleanup. There is not a shovel-full of snow in the town, and the lawns are in fine condition for raking. Indeed, many householders have the job well done now, and this goes for the boulevards as well. A neglected lawn is unsightly in this fine town, which has a reputation for beauty and attractiveness. However, if we do not get our Horticultural Society to function again, Stouffville will not be so beautiful in five years from now. Many trees have been taken down because of dying or from other reasons and scarcely one has been replaced. This situation cannot go on very long, without the town taking on the appearance of a bleak prairie village. Our fine maples are as attractive as fine homes, and this kind of work the Horticulturists looked after. You can leave your mark on the community in no better way during your lifetime, than to aid the work of a horticultural society.

HARD LIQUORS CONSUME SUGAR AND WHEAT
Frequently there appears articles in the press and statements are made otherwise as well, about the quantity of sugar used in the brewing of beer. Persons even signed a petition recently with this idea in mind, although petition was correctly worded in that it directed its protests against the use of sugar and wheat, both in short supply, in the manufacture of hard liquors.
For general information, it is pointed out that no sugar whatever is used in the brewing of beer in Canada. Nor, to our knowledge, does any Canadian brewer purchase an ounce of sugar for manufacturing purposes, nor do they use wheat in the brewing of Canadian beer. The principal grain used is barley which has been malted. This is, generally speaking, barley of a premium grade.

Will Tell of Overseas Relief
John Coffman who has spent five years in relief work in England under the direction of the Mennonite Central Committee will give an address in the Menoonite Church, Stouffville, on Thursday evening April 4th, at 8 o'clock. Everyone who is interested in relief work should hear him.

Another New Home
One of our newer citizens Mr. Alex. Brown has purchased a lot and is preparing plans for a new house on a street to be opened running south off Main between the residence of Mrs. John Hodgins and the former Harry Brillinger bungalow in the west end. Mr. Brown intends to let a contract to be finished this summer.

Stover's hot cross buns are again available, which is a reminder that Easter is close at hand. Stover's buns and maple syrup from the local farmers (if you can get it), is a most tempting dish. On Saturday some folks were able to get the buns, but couldn't obtain any syrup, others had a few quarts of syrup, but couldn't get any buns. To say the least, the good things were spread around a bit.

Butter advanced on Monday 4c per pound. We are told that later when subsidies are withdrawn there will be a further advance. Cream has been advanced 5c per pound butter fat payable to the farmer, which is calculated to pass on the increase to the farmer. There is an over-all shortage of butter. If the price appears high, it might help some to remember that butter is \$12.50 a pound in Russia.

Mr. Walter Dickson, member of one of Stouffville's longest standing families, has been in poor health for some time, and a few days ago was removed to the hospital for treatment. The Dickson acreage this year as last will be worked by Gar. Lehman who has rented it for the growing of vegetables.

Now that garden time is at hand, dog owners may expect to be warned that the bylaw forbidding dogs running at large will be enforced in town. So far the warning has not been given, but we understand that Constable Ruscill will be instructed almost immediately to enforce the law. It might be a good thing for dog owners to start the tie-up for a time each day, in order that the canines may have a chance to become accustomed to summer regulations.

Gave His Life
In the belief of 10-year-old John Wardrope, of 44 Bater ave. Toronto, brakeman Thomas Beauvais, 53, lost his life in a vain attempt to save the life of his mate, Conductor George Doust. Beauvais was a brother of J. Beauvais of Stouffville, who was summoned to the stricken home shortly after the accident. Both conductor and brakeman were killed when a northbound freight train plowed into the rear of a stationary freight in the Don Valley yards last Thursday evening.
"A brakeman was on the back platform putting up a lamp," the lad said. "I saw him turn around when he heard the rumble of the oncoming train. He had plenty of time to save his own life by jumping, but instead he turned to warn his mate in the caboose."
"Unable to open the caboose door he banged on it with his fists and then kicked it. He was still kicking at the door when the locomotive struck. He must have been smashed to pieces because the engine just ground the caboose to splinter wood," he declared.

May Spend the Interest
The United Church at Stouffville will not be in a position to dispose in one gulp the bequest from the Nathan Forsyth estate said to be around \$10,000 or \$11,000. The press is informed by the executor, Mr. F. L. Button, K.C., that only the interest is available from this investment. Thus will it ensure to the benefit of all future congregations of this church. Of course, if the officials were so minded, they might embark on an expenditure equal to the amount of the whole estate and finance it by the income from the investment of the Forsyth income. For instance, if it were thought advisable to install a carillon in the church tower, which undoubtedly would be appreciated by all people within range of such bells, and which might be a reminder of the Sabbath day to many non-churchgoers, the interest on the investment would have to be capitalized. Stouffville is one community that hears no bells from any of its churches, that is so customary in many places. No doubt the officials will have many suggestions offered them as to what should be done about their premises in the way of improvements that would stand as a memorial to a man who for half a century worshipped there, and who built the present church building that stands as a worthy monument to this standard of building.

E. A. Grubin, R.O., Optometrist, will be at his office in Stouffville on Monday, April 8th.

Lieut. Reta Nicely, R.N., has resumed her former position on the staff of the London, Ontario, Hospital, where she was engaged prior to enlisting.

Mrs. James Monks is offering three lots for sale on Church street north, a total frontage of 150 feet by a similar depth. In event of no immediate sale they may be obtained for garden use this summer.

Miss Enna Heise who has been identified with Children's Aid Society work in Toronto, has transferred to Ottawa. Miss Heise, as all who know her are aware, is a former Stouffville girl.

Persons contemplating building in Stouffville this summer, should not delay taking out a permit at the office of the town clerk. Mr. Charlie Atkinson is the building inspector.

We understand that Jos. Foote, son of Mr. and Mrs. Sept. Foote, 6th con. Whitchurch, is completing his veterinary course this month, and expects to set up practise at Agincourt.

The Easter Thank-offering of the Women's Missionary Society of the Stouffville United Church will be held in the Sunday School room on Thursday afternoon, April 4, at 2:45 o'clock. The women of all the local churches are invited to attend the meeting to hear Mrs. Aubrey Love, general secretary of Christian Stewardship.

Dr. Harry Wilson is home on leave, and will receive his discharge from the Navy at the end of this vacation period. We understand that Dr. Wilson entertains no thought of opening a medical practise in town, but may return to Northern Ontario to resume his work there in due time. Dr. Wilson, who to old timers, will be remembered as a son of the late Fred Wilson of this town, is a thorough Northerner, just as some people become completely sold on western Canada. Dr. Wilson, of course, will not be leaving Stouffville for a long time yet, so there need be no rush to rent or buy the attractive Wilson home on Main street built by his father at the time his mother retired from active business at the corner of Main and Church streets.

Mr. George Watson of Beaverton, visited at the home of his aunt, Mrs. David Watson during the weekend.

A notice in this issue warns against riding bicycles on the sidewalks. It is against the law and offenders will be dealt with.

Mrs. T. A. Reid of Coolmine Road, Toronto, entertained at a luncheon at Haddon Hall in honor of Mrs. E. A. Wilson of Stouffville, who has been her guest all winter, but is returning to her home on Victoria street in the near future.

175 ex-service men from Aurora were each presented with a set of book ends at a banquet held in their honor last week. The bids were remitted by the mayor that the gifts were paid for by the ratepayers and no doubt some of the recipients themselves were in this class, he said.

Grove's Chick Hatchery on the 7th of Markham west of Ringwood, (operated by A.D. Grove) has been turning out three to four thousand chicks per day, and the sales demand, says Mr. Grove, is good. Quite a record to maintain for weeks at a stretch.

Can You Help?
Stouffville's factory-working population is ever-increasing, but a grave predicament has risen at our one plant, the Stouffville Machine & Tool Works, where a number of additional men are being added to the payroll. Steady boarding accommodation is extremely difficult to obtain it seems. This plant is anxious to expand, and Stouffville is anxious that it should do so, but this expansion can be considerably curtailed, if accommodation for new employees cannot be found. Anyone who could take one or more reliable men as steady boards are appealed to now, to notify the Tribune office, or the Stouffville Machine & Tool Works.

The Tribune had an inquiry about an old townsman last week, Ed. Pennock, whom we regret to say is still a bed patient at his home, corner of Main and Fair streets. Ed. has been steadily confined to bed for a year or two, but has been almost helpless much longer than that. Mrs. Pennock is his faithful nurse. Despite his long illness this former rugged individual, prominent in lacrosse days 40 years ago because he was strong and powerful as a stick handler, has outlived many another of his pals of those former times.

C-I-L Paint Painters

Write for the cottage

C-I-L TRUTONE WHITE stays white, year in and year out. That's because C-I-L TRUTONE WHITE is self-cleaning. For a bright modern accent, why not paint the shutters and window boxes in C-I-L Togo Maroon or Florida Orange?

Varnish always looks shipshape

There's something solid and substantial about a varnished front door—something which offers your guests a dignified but warm welcome. Use C-I-L Navalite Varnish for a handsome, natural-wood door which will stoutly defy the weather.
