## Council Handles Routine Business at June Session

Very little more than routine business was handled by Pickering Township Council, at their regular June meeting held at Brougham on Monday afternoon.

A communication from the Dept. of Health sanctioned the appointment of Dr. Rogers, as Medical Health Officer for Ajax, at a salary of \$400.

A communication was also read from Mr. Gordon Duffin of the Dept. of Education, regarding the establishment of High School areas within the municipality. These area boundaries are determined by Pickering Township, and could, he stated, be presented at the June session of Ontario County Council for approval, to begin operation in January 1947.

A delegation of ratepayers from the southern end of Altona Rd. waited on council, with a request that about a mile of that road be paved. Since, only recently, this section has been given a heavy layer of gravel, the council did not deem it advisable to take any action at this time.

Dr. N. E. McEwen protested to council regarding the sale of gravel from the township pit to outside residents. Dr. McEwen stated that in the agreement of sale of the property, there was a clause forbidding such action. Both Reeve Annis and Deputy-Reeve Westney stated that they had no knowledge of any such clause, but along with other members of council they agreed that any ratepayer was entitled to the gravel if it was being sold.

However, Deputy-Reeve Westney stated that any such orders were only handled if time permitted, and thus they amounted to very little.

Road Supt. Ward reminded the Doctor that only recently he had refused the township the use of some "fill" which he was having removed from his property.

Relief accounts for the month passed for payment amounted to \$165.77, while road accounts paid totalled \$4222.07.
