

Dairy Feeds -

We have received a few hundred bags of Dairy Concentrate. If pastures should start to dry up, Dairy Feeds could become very scarce. We advise that you put a few bags away for future use.

MILL FEEDS

We are taking orders for BELL COW BRAN, BELL COW SHORTS and BELL COW MIDLINGS that we are expecting in a few days.

WESTERN GRAIN

We have a stock of WESTERN OATS and BARLEY. Our deliveries are about three days back. So we ask you to give us about three days notice on orders. Then we try not to have any disappointments.

HAY SALT

Salt adds to the quality of your hay and is definite insurance against spontaneous combustion in barns. We have a fresh stock of PURITY DRY SALT on hand Half ton Lots \$8.00.

INSECTICIDES

KING BUG KILLER SPECIAL in 50 lbs., 20 lbs., 10 lbs. and 5 lbs.; B & I Control in 50 lbs., 20 lbs.
CIL "Deetrox" in 50 lbs. BLIGHT CONTROL and DDT.
CIL 3% DDT Dust, for Cabbage and Cauliflower.
CIL Garden Dust for Garden Plants.
CIL WEED KILLER.
CIL "DEENate" 50% DDT. Barn and Stock Spray.
PURINA 50% DDT. Barn and Stock Spray.
GREEN CROSS 50% DDT Barn and Stock Spray in liquid and powder. DR. HESS Stock Spray.

WHAT'S WRONG WITH THE BOYS

The Park Commission is doing fine work this year with their new grounds man Charlie McDonald, but even Charlie who is proud of the work accomplished, and well he may be, receives heart-breaks. Last Thursday night boys went into the park and did a good deal of damage that required hours of work to repair broken seating, pick up broken bottles, and repair other damage.

It is most difficult to understand the mentality of some boys in Stouffville who carry on this sort of rotten treatment against an organization that is spending money and time to fix things nice for the enjoyment of the kids who turn around and damage the property at every opportunity.

Local and Personal Happenings

All schools closed on Friday last week, and will reopen on Tuesday, Sept. 3rd, the day after Labor Day.

Mrs. George Lawson left last week to spend her holidays at Wasaga Beach.

Miss B. A. Clark left this week for Felpark Lodge, Cameron, to spend summer holidays.

Mr. and Mrs. F. L. Button and Miss Gertrude Todd are holidaying for two weeks at Elgin House, Muskoka.

Mrs. Morris Hornsby (Blanche Slack) former member of the local post office staff is assisting at the office at present while Miss Dorothy Moyer is having holidays.

The recent sale of the Jack O'Boyle farm to Jack Spang, jr. reported last week in this paper was put through by the Willoughby Farm Agency and their local agent Harvey Moyer.

Mr. Alf. Hill of Unionville has been installed as Worshipful Master of Markham Union Masonic Lodge. He is an old Stouffville boy, and of course will be a very efficient officer.

Mr. Clarence Burkholder of Breslau, member of a well known Stouffville family, was in town last week. Clarence has made no less than three trips to England conducting prisoners of war from this country enroute to Europe.

We see the Aurora Tennis Club has re-organized under the presidency of Warren Barnard. As is the case in Stouffville, the courts have not been used greatly in several years, and as a consequence are in a state of repair. Donations are being sought in Aurora to meet this heavy expense in re-organizing.

Canada Geese Arrive
New arrived residents in these parts, but very interesting to the people of the district are a few Canada geese which have just been brought in to take up residence at the Altona Bird Sanctuary, Mr. Alexander who is developing the idea of a bird sanctuary there, announces. Owing to various causes the development has been slow, but accommodation is gradually being provided for the feathered residents that will be induced to make the old mill pond their future abode.

The yearly subscription rate of our neighboring weekly, The Markham Economist, has been increased to \$2 per year, which is in line with the subscription rate of weekly newspapers throughout Ontario. We are sure that our contemporary will not find its demand for the standard rate will in any way affect the circulation of the newspaper. Readers who want a paper are not adverse to the standard rate and if they do not want the paper a reduced rate is very little inducement to them. The Tribune has been \$2 per year since 1917, and will remain at this rate, no doubt, for a long time to come.

Steel Standards Expected Soon
Over a year ago Stouffville Hydro System contracted for four steel standards to be erected in the main business block of the town to replace four huge poles that it is deemed wise to remove as soon as possible. Information is just to hand to the effect that the long delay in filling this order is shortly to be ended, since the poles are reported to be enroute from the Canadian Line Materials Co. who are filling the order. When the poles finally arrive and are placed on the street, there will be a decided improvement in the appearance of the thoroughfare, which is marred by the present ugly poles that are required to carry a street lamp only. They were erected in the days when wires were carried on cross-arms on the north side of the street, but which wires were taken down when the telephone Co. carried through the cable running along the south side of the street.

ATOMIC BLAST HERO DIES

Photo shows Dr. Louis Slotin, 35, of Winnipeg, who died in Santa Fe, N.M., as a result of exposure to atomic radiation. His body will be brought to Winnipeg by a U.S. army air force plane. His parents, Mr. and Mrs. A. I. Slotin, Winnipeg, are returning on the same plane. Dr. Slotin was fatally injured when he threw himself between the explosion and others in the laboratory.

Mr. and Mrs. Percy Fleming of Toronto were weekend visitors with Miss Mabel and Mr. Hugh Bannerman.

Mr. and Mrs. Fred Nicely and little daughter, Toronto, spent the holiday with her parents, Mr. and Mrs. D. L. Stouffer.

The Lemonville Cemetery Committee wish to thank the Minister and the members of the choir of Stouffville United Church for their generous services on the occasion of the memorial service last Sunday.

One of our young men is mourning the fact that when he visited the U.S. recently he left \$20 worth of ties in an hotel bedroom. Just what anyone but a necktie traveller would be doing with such a string of ties, we can't imagine. However, perhaps, just like the race horse game, it gets in the blood and one likes to see it growing longer and longer.

Lads Leave for Camp
Lads enjoying the privileges of the North York Camp at Lake Simcoe this week are Geo. Barkey, John Barkey, Grant Wagg, Charles Jackson, John Davis, Jim Rennie, Donald McGregor, Bobbie Bath, Jim Bodendistel, Billy Murphy, Eddie Murphy, Grant Burkholder. Next week on the return of these youthful stalwarts, an older group of boys will occupy the camp for a period.

We hear that the C.N.R. is about to remove the plank platform at the station which will be replaced with a cinder path. Railways, like other business enterprises, should keep their premises spick and span, and a cinder path such as is now in use at the station is hardly a thing of beauty, but no doubt scarcity of lumber would be offered as a reason for not replacing the board walk with something better looking than cinders.

A "Fowl" Business
Charging a motorist with deliberately running down a chicken on the road, started a free-for-all up the 9th on Monday evening. The farmer rushed down to request the J.P. to haul the offending city motorist into court, but was persuaded that a peaceful settlement might be more profitable. Finally the motorist paid over \$150 and carried off the dead bird, with a frame so cracked it might have been through the atomic bomb explosion out there somewhere on the Pacific.

Capt. Harry Worling occupied his former pulpit in the Christian Church on Sunday evening, which marks his first appearance in the place where ten and a half years ago he was the pastor. Capt. Worling also preached the sermon at the Church Hill cemetery decoration day on Sunday afternoon. He is now through with hospitals and operations, and certainly looks very fit after his long and difficult war experience.

According to announcement in the Kitchener Daily Record, Edward R. Good has formally opened his new funeral home in Waterloo. An invitation was issued to visit the premises last Saturday and Sunday. Ed. is a Stouffville boy, and we wish him every success in his chosen business.

With ceiling prices thrown overboard in the U.S. on Monday, things took a terrific upward shoot. In one place hair cuts advanced to \$1.50, which we suppose left a smile on the face of the bald-headed man at least. More than ever he could boast the lowest overhead upkeep of all his fellow citizens.

"Phew, What Perfume"
The Kelowna Courier, published at Kelowna, B.C. pioneered in bringing its readers a delicate perfumed advertisement. Believed to be the first Canadian weekly to attempt such a stunt, the Courier treated the advertisement of Dorothy Gray cosmetics with lilac scent, which brought many favorable comments. The page was perfumed with an electrically operated spray, and we are wondering now if The Tribune missed an opportunity when we failed to try the same realistic attempt on our recent skunk article, which reached Andy Clark, and later brought an application from a Toronto lady who wanted to buy one of the frisky fellows.

ANDY CLARKE WEDS IN TORONTO

Andy Clarke, whose familiar voice reaches thousands of Canadian radio listeners each Sunday morning, in his broadcast of "Neighborly News" based on information from Ontario and Quebec weekly newspaper, was himself in the news last week.

Mr. Clarke was united in marriage with Violet Isabel Dickens, former director of the women's department of the Canadian National Exhibition. The ceremony was performed quietly in Parkdale United Church in the presence of a few close friends.

A daily press story from Toronto states that Mr. and Mrs. Clarke will spend their honeymoon in Northern Ontario. However, radio listeners in this part of the province were interested to know that last Sunday morning he conducted his broadcast from the town of Durham. After that he planned a holiday from his radio activities which will last for several weeks.

Mr. Bill Bryan, Toronto, was the guest of Miss Effie and Mr. Bill Harding.

Mr. and Mrs. Jas. M. McQueen of Ottawa were Sunday guests of Dr. and Mrs. Ball and family.

Sixty years ago aluminum was in the class of luxury metals, and sold for \$8 a pound. Today it sells for 13 1/2c a pound.

Mrs. Dorothy Owen, also Mr. and Mrs. Wm. Morden, Toronto, were holiday guests at the home of W.E. Morden.

"25-year-old Mother of 500 Still Honking," was the caption used by the Lindsay Post in greeting the Tribune's recent story concerning the aged goose on the Pugh farm in Whitechurch.

Col. O. S. Hollinrake announces that he will be at his Stouffville office in the Ratcliff block every Wednesday and Saturday morning until further notice. This will provide an added convenience for his clients.

The following pupils of Bertha Stouffer were successful in passing music examinations at the Toronto Conservatory recently. Theory, Miss Audrey Good, grade II; Miss Shirley Steckley, grade II, first-class hon.; piano, Miss Helen Paisley, grade V; Miss Barbara Hisop, grade III.

Your Morning Paper is 5c.
Unless patrons of the yellow news box in front of The Tribune office discontinue putting in three cents for a morning paper instead of the proper rate of five cents, the box is to be discontinued and papers will be sold inside the office only. Attention to this error has been called before, but the practise continues on the part of only a few people. Three cents inserted in the paper box for a newspaper does not represent the cost of the paper, therefore, unless the box properly balances out, it is easy to understand that the operators are taking a loss.

Mrs. W. Hutchinson (nee Edna Madill) of St. Catharines was in town a few days visiting with Mr. and Mrs. Geo. T. Lee.

The familiar caboose at the end of a long string of box cars, painted the customary box car red, is shortly to have a color change. Just as an experiment the C.N.R. will paint all these caboose cars orange. The new color stands out clearly and will be more noticeable as the end of a long string of cars making accidents less likely.

Dorothy Gillespie was treated by Dr. John Button for injuries received when thrown from a horse. The young girl is camping at Musselman's Lake, and the steed was frightened by a passing motor cycle causing it to bolt. Severe head and body bruises were sustained, the cyclist also received slight injuries.

Rain that deluged Musselman's Lake district early Saturday evening did not come south of Bloomington. Up in Scott township there was hail and some crop damage. The Markham-Stouffville area had to wait until Monday for a shower badly needed, but it came gently, and did a great deal of good to the small fruit.

An O'Brien Avenue Function
A pleasant evening was spent at the home of Dr. and Mrs. S. S. Ball, when the residents of O'Brien Ave. gathered to do honor to Dr. and Mrs. B. W. Fearon (nee Joyce Ball) recently returned from Nova Scotia. Following a programme of entertainment which was in charge of Mrs. R. Button and Mrs. B. Stover, Mrs. Borinsky with very kindly remarks, on behalf of those assembled, presented Dr. and Mrs. Fearon with some beautiful gifts.

POLICE CHIEF BARKS
Because 200 dogs are running around Lindsay for which no tags have been bought this year, Chief Lawlor has started to bark loudly. He is making out a list of those who have not paid the tax, and intends to do more than bark in another few days.
