## EX-CELL-O HOG RATIONS

To meet the demand for a lower protein hog ration straight feeding, Ex-Cell-O Hog Grower and Ex-Cell-O Hog Finisher are meeting with splendid favour with hogmen everywhere.

These two Ex-Cell-O rations work in with the Marmill feeding plan. Nursing and weaning pigs require a higher protein content in rations as is provided in Marmill Piggy Starter Pellets and by Marmill 17% Pig Ration. At 60 lbs. weight pigs have a sufficient start to change to Ex-Cell-O Hog Grower and at 140 to 150 lbs. again change to Ex-Cell-O Hog Finisher continue until marketed. These rations supply all the essentials for growth, and most economical gains per pound of feed consumed.
