Courier boys for Toronto evening papers are causing a lot of complaint from residents near the C.N.R. station, because of their failure to take care of the paper wrappings. Instead of throwing papers around the street they have been asked to deposit them in the cellar on the town lot. Instead of doing this some of the lads persist in littering the Main street. Unless the nuisance is stopped the matter will be taken up with the employees of the boys in Toronto.

Harry Brown, Stouffville General Electric Dealer, has received delivery of a new Pontiac car purchased through the local General Motors dealer, Chas. Cooper. It will be news to readers that motor car manufacturers are now being forced to deliver cars minus tires owing to the strike holdup. Harry, luckily, was able to obtain tires for himself and so save the situation. New tires are as scarce as "hens teeth."

Miraculously the driver who was alone escaped with injuries from which he is making excellent recovery. With the aid of crutches he is getting about and was in Stouffville one day last week.

Stouffville has wasted no time in getting their equipment lined up for this winter, and woolen goods like everything else seem to be fast disappearing.
