On the trip up, Mr. and Mrs. Goudie accompanied the Gormley Male Quartette who rendered several selections. Several other preachers of the Conference were present and took part in the services.

#### SHUT OR OPEN?

This was the big question last week among the merchants. No one knew whether there would be a holiday in town for Remembrance Day or not. The Dominion government declared it a holiday, but only if and when each provincial government adopted it. Ontario was one of the provinces that did not adopt it, but several larger cities then proclaimed the day, and so it went. Smaller places fell into line, and at paper day last week, the merchants in Stouffville didn't know what to do, or they hadn't taken time to consider it sufficiently in advance to enable the newspaper to make an announcement, consequently nothing was said. On Saturday someone revived the issue afresh, and soon cards were ordered available for all stores that would close, and all of them took advantage of them. The stores closed and few people, if any, were inconvenienced by the action taken. It is the first Remembrance Day here that has been observed as a holiday. Stores, bank, post office and schools had the day off, but the printing office and the industrial plants worked as usual.

#### Fly in the Clock

A fly in the ointment spells trouble, and a fly in the big town clock also means trouble. On Sunday night at ten minutes to seven the big time-piece stopped. Time-keeper Jake Smith discovered the trouble next morning. An ordinary house fly clogged the works, by getting caught in the most delicate and sensitive part of the works. "Wouldn't happen again in a lifetime," commented Mr. Smith, who explained that it was the one and only spot where a fly could halt the big time-piece from marching on its way.

#### No Stuffed Bird This

It was not a stuffed owl that Mrs. Chas. Nolan found perched high over the window in the living room of her home one morning last week. Her first thought was that friend husband had brought home a stuffed bird as a surprise, but as she walked closer, to, the owl cocked his head on one side and rolled wide open its eyes. Nothing dead about that, she knew, hence help was summoned and with two men advancing with an open sheet the young owl was bagged and set free out of doors where it lost no time in sailing away. How the owl got into the house would remain a deep mystery, only for evidence around the fire place. Like Santa Claus, it came down the chimney, and was mighty fortunate to get the right flue instead of the one going to the furnace.

E. A. Grubin, R.O., optometrist, will be at his office in Stouffville on Monday, Nov. 18.

Soap may be in short supply, but from reference made in many weekly papers, we judge there was plenty available for window writing on hallowe'en night, and this brought out the fact that window washing was more in evidence in most business sections of Ontario towns next morning than any other operation.

John Giles of Richmond Hill who reached his 86th birthday on Sunday, and who is reputed to be York County's oldest veteran, was honored on Sunday afternoon by being chosen to take the salute as the guest of honor at the Richmond Hill base on the return march in that village from the Hill and other parts of the county.

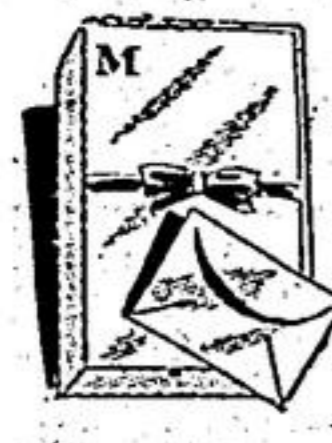

Scarcity of artificial ice arenas in proving a greater hardship to hockey teams endeavoring to compete those terms from the larger centres as each year rolls around. The city squads manage to get a couple of months practice before the country boys ever get their skates on. Interests in charge of the few artificial plants are "making hay" by reason of the shortage, the rates for hourly practices are said to be going sky-high. The Varsity Arena which just opened its doors a couple of weeks ago, is said to be charging \$20 an hour for practices. Many of the teams in this neighborhood had hoped for some relief with the erection of a large new arena in Scarboro, but trouble with the building restrictions in that area has held up the building.

#### Former Minister Here

Rev. W. M. McGuire who is conducting special meetings in the Nazarene church, Toronto, was in town on Thursday for a few hours looking up old friends who were delighted to see him again. Mr. McGuire who left Canada for the States some years ago; to enter the larger sphere of the Nazarene church, is now president of one of the four vast districts across the line and his duties keep him on the move all the time, from place to place overseeing the work.
