## Newmarket Upset Local Juniors in Last League Game

Took Commanding Lead in First Period and Held on—Fluke Goal from Campbell's Stick is Winning Tally.

Stouffville's hopes of packing the local arena for a two game tie-breaker series with Aurora went into the discard on Monday night, when their confidence was badly upset by Newmarket who came out on the top end of an 8-7 score. The home team swarmed all over the local favourites in the first period, and banged in four goals in eight minutes. Thoms and Eves collecting two each. Bill Mabbett opened the scoring books for Stouffville at the 11-minute mark, and Mac Clement tallied two minutes later, to make it 4-2. However just as the period ended Eves sailed in again from the corner, and slapped in a rebound when he was left uncovered in front of Moore. There was one penalty in the period to Broughen of Newmarket.

Stouffville worked hard to get back in the game during the second period, and Bill Mabbett completed the hat trick by scoring two more, while Paoce notched another pair. Thoms and Eves tallied for Newmarket, to end the period 7-6. Tuppington, Newmarket goalie was penalized in this frame for holding an opposing player's stick, and one of the Newmarket players set out the two minutes on the bench in his stead. Broughton was off for another minor penalty, while Clement was penalized for Stouffville. Stouffville evened the count shortly after the start of the final twenty minutes, Jack Rumney being the marksman, but the payoff came, when Newmarket went ahead a few moments later on a fluke goal, a shot by Thoms which Don Campbell deflected into his own net, when endeavoring to clear the shot from in front Moore.

Tempers flared in the last five minutes, and both Campbell and Jack Rumney went to the cooler also Thoms of Newmarket. Referee Walsh was given a rough vocal ride by the Stouffville management and team who where very displeased at his handling of the game.

The win for Newmarket settles the two top spots in the league standing, and leaves Aurora in first place and Stouffville second. Newmarket now are in third place and Bradford fourth. However, these latter two teams meet in Bradford for the final game of the schedule this Saturday night, when a win for Bradford would tie them up for third place. Stouffville and Aurora must stand by in the meantime awaiting the playoffs.

There may be shortages of meat and sundry supplies from meat in many parts of Ontario, especially in the cities, but such a situation does not confront the people of Stouffville who shop here. Reason is, that our butchers kill their own live stock, and are not dependent upon packing houses for their supplies. Most of the beef killed for the Stouffville butchers is raised in the country hereabout. When we hear our city friends saying they couldn't get a bit of beef for so many days, we feel sorry for them and realize that it is part of the price one must pay for living in the city.

The Stouffville Lions Club, Mr. Thompson stated, had made a very definite contribution to the welfare of this community, and he further added that they go hand in hand with the churches in furthering this work. ### Horticultural Meeting

The illustrated talk by John S. Hall in the United Church basement on Tuesday evening of last week was much appreciated by all present. Though the night was cold, the fund of information provided was more than ample payment for any inconvenience imposed by the weather man. Mr. Hall has a vigorous style. Every sentence is brimful of sound advice on matters pertaining to the theory and practice of horticulture. The season for indoor planting is almost upon us. Many will approach this interesting work with confidence now that the do's and don'ts are fresh in their minds. To the many local members of our Horticultural Society who were not present on Tuesday evening we advise tuning in on Mr. Hall's weekly broadcasts, Saturday noon.

Hallman telephoned home a few days ago to say that he was marooned up in the snow belt around Stayner and Collingwood, where he travelled last week in connection with his duties as District Superintendent of the M.B.C. church in Ontario. While he may reach home before this is in print, he will have encountered some of the biggest snowbanks that Ontario has been able to pile up this winter.

Business was very much at a stand-still in town on Monday morning, as business people and others were recovering from the shock of the big Sunday storm, that raged all that day and through the night. However, the snow was light, and plows readily brushed it aside but farmers were conspicuous by their absence in town, since country lanes and many roads remained blocked.

Ten tons of paper collected by the Boy Scouts in the town of Walkerton, were shipped to Toronto, and a cheque received for \$122. It would seem that \$12 per ton is not a very lucrative return after transportation charges are met, and that probably explains why youth groups everywhere are not keen on collecting old paper. However, in the case of Walkerton trucks were provided without cost to the Scouts, and the paper loaded in a box car. The Walkerton Scouts consider their effort paid off well, and it will be repeated three or four times this year.
