ASK YOU TO

1. Use Your Eyes!

As you read this; look around you. No matter where you are, the sight must please.

2. Use Your Head!

Would you trade places with anyone in town or countryside of the war-ravage lands of Europe? No! Just think how easily the situation could have been reversed during the dark days of 1940. Only by the united efforts of every Canadian was this disaster staved off. The flood of munitions, guns, tanks, aeroplanes, ships and farm produce sent over by you was what held back the enemy forces, BUT, and do not forget, all the supplies in the world are useless without the men to use them. These men are now back in the Community, and for the past two years have been actively engaged in planning for the erection of a Memorial Hall.

CONSTRUCTION OF THIS HALL WILL BEGIN THIS SPRING

The hall will not only be used as a meeting place for the Veterans and their Ladies' Auxiliary Organization, but also as a youth and recreational centre for the community.

3. Use Your Heart!

A stamped, addressed envelope for your donation will be sent sometime in March. Please remember that a great many drops of water make a flood. To all who have already pledged money, we again thank you.

WATCH THIS SPACE NEXT WEEK FOR FURTHER INFORMATION

P.S.

We the ex-servicemen would like to take this opportunity of clearing up a matter which we understand was not clearly stated at the time your pledges were solicited.

Definitely No Intoxicating Beverages will be Sold or Allowed on the Premises Under Any Circumstances.

EDITOR'S MAIL

THERE ARE TWO SIDES TO MOST QUESTIONS

Your editorial in the Feb. 20th edition of The Tribune has been read by many with much interest.

The first part of this editorial gives one the impression that only part of the teachers of Ontario lend support to, or belong to the Teachers' Federation. This, of course, is wrong, as all teachers in the province are members of this organization and are in full accord with the many progressive steps made by the executive of this body in the field of education.

The accusation that this group and those teachers who are seeking higher salaries, are contributing "more wind to the inflation balloon," seems a gross exaggeration when one compares the wages of other groups with those of the teacher. Surely asking for a wage comparable with unskilled labor cannot be considered contributing to inflation.

In a column of "Teachers Wanted" ads in a large city newspaper in the Province of Ontario, five town or city schools offered less than \$1600. per year for experienced teachers. Right below a "Laborers Wanted" ad offered 65 cents per hour, which figures out for an eight-hour day to \$1622.40 per year—more money for unskilled laborers than for experienced professional men.

According to The Tribune the teachers have little reason to complain. It points out that teachers enjoy certain advantages not shared by people in other occupations. No matter how true all this may be there is another side which should, in fairness, not be overlooked.

1. All successful teachers spend a great deal of their spare time in preparation for the next day's work. Most other occupations know nothing of this. When quitting time comes they can lay down their tools and forget all about their job until the next day. No honest teacher can do this and remain very long in the profession.

2. While some teachers may loaf during the "long summer holidays" it will be found that the great majority use that time in study or in ways "to fit" themselves to do better work.

3. Other workers, be they ever so faithful, have not the same responsibility. They are handling material things while the teacher is working with human beings, citizens in the making, and there are few indeed who do not fully recognize their responsibility for the well-being, the health, the manners and the character of the pupils under their care.

4. If anyone will take the time to realize what it means to be in a room all day with immature minds and children of all kinds and with many different backgrounds, he will realize that the so-called vacations are absolutely necessary if the teacher is to come before her classes fresh and clear-minded.

Since teachers depend for their pay almost entirely upon the local taxpayer, they must always follow far behind, the trend to higher wages, but just as soon as the worthy taxpayer feels the pinch teachers' salaries take a nose-dive. Although the editor hopes that the teachers' salaries will remain where they are long after the inflated prices return to normal, there are too many teachers who remember the last depression when salaries hit rock bottom and stayed there, to believe that things will be any different if the same conditions should ever come again.

Perhaps if the general public would read over the display advertisements published by the Federation in the daily press and think about the information found therein, they would soon find the reason why there are over 4,000 too few qualified teachers in Canada. They would also understand why the teachers generally are seeking, and deserving of, more money.

Until the people of Canada realize that teachers are among the most important people in the community, and until they pay and treat them as such, good teachers will continue to leave the profession and the general quality of education in this country will suffer accordingly.

MOTHER OF REEVE

MRS. SIBBALD DIES

Sutton, Feb. 21—A member of one of Jackson Point's oldest families, Mrs. Amelia R. H. Sibbald, widow of J. D. Sibbald, died at her home here yesterday.

Mrs. Sibbald came to Canada from Ireland as a girl and settled in Western Canada. She married Mr. Sibbald in Regina and came east 20 years ago, taking up residence at the Sibbald family home, "The Briers," at Sutton.
Surviving is a son, John D. Sibbald, reeve of Georgina Township, and daughter, Kathleen Lloyd, of Woodstock.

RUNAWAY TEAM CRASHES MOTOR CAR

A team of horses owned by Andrew Jackson of R.R. 3, Uxbridge crashed into a car occupied by Oshawa people, Mr. and Mrs. N. Cooper and their young daughter who were travelling south of Greenbank, when the tongue of the wagon passed right through the motor vehicle. Mrs. Cooper was injured and sent to hospital, while the husband and child escaped with cuts and bruises. The horses wrecked and continued their wild dash for home.

When the car and team met the horses leaped right onto the engine crashing the windshield. Police said they had been frightened by two trucks.

Miss Myrtle Sider of Stouffville spent Monday with Mrs. E. Jones.

Last Sunday evening in the Brethren in Christ Church, Mr. Francis Starr related many of his interesting experiences while in China. He has spent the past two years there with the Friends' Ambulance Unit. Their work was mainly transporting medical supplies to hospitals and rural districts.

Misses Edna Eade, Agnes Sider and Mr. Bruce Steckley of Fort Erie Bible School spent last weekend in their respective homes.

Students from Emmanuel Bible School in Kitchener were in charge of the services last Friday evening and on Sunday in the M.B.C. Church. The students were entertained in various homes.

Mr. Howard Baker attended the Kivans Musical Festival in Eaton's Auditorium on Wednesday evening of this week.

We are sorry that Miss Ruth Henderson is confined to the hospital. We hope she soon may be well again.

Mr. and Mrs. Frank Warwick of Thornhill had supper Sunday evening with Mr. and Mrs. E. Hunt and Ruth.

Quite a number from Gormley attended the presentation in Unionville Rink last Friday evening.

Mr. Francis Starr of Newmarket, who has recently returned from China where he spent two years in voluntary service with the Friends' Ambulance Unit, addressed a large audience at the Young People's service at the Brethren in Christ Church on Sunday evening. Mr. Starr stated that though the organization which he represented did not engage in evangelistic work among the people of China their object was to relieve the suffering caused by war, and thus show the Christian spirit in a practical way.

He faced many dangers while carrying out his duties in driving transport trucks loaded with medical supplies to the various hospitals and clinics. He referred to his full beard which has caused so much publicity since his return, as a "natural weapon" for his protection in that bandit infested country, as the Chinese have a superstitious fear of a man with a red beard. He also stated that on several occasions when in danger he had a feeling that he was being remembered in prayer by the Heise-Hill folks.
