## OUR CAPITAL CORRESPONDENT

Written exclusively for The Stouffville Tribune by M. L. Schwartz

With a surplus probably between \$200,000,000 and \$300,000,000 in the fiscal year ending March 31 and a cut in the "main estimates" from \$2,769,000,000 last year to no less than \$1,995,000,000 for the coming year, reductions in taxation are the talk of this capital and usually well-informed quarters believe that these will be a most impressive sort, especially in the lower income brackets, though it must be reported now that many of the stories claiming that these reductions will be from 25 to 33 per cent in general are not based on official or firm foundations. It must be born in mind by the man-in-the-street that last year the "supplementary estimates" reached the sum of \$202,000,000 and this alone can be known only later in the session so that this should be considered in figuring the "main estimates" as related to the Government's financial position in relation to possible tax reductions.

"If nine out of ten atomic bombs could be intercepted well away from their targets, it is not unreasonable to believe that this new weapon might become highly unprofitable to make and use," declared in Ottawa Canada's Deputy Director-General of Defence Research, Col. W. W. Goforth, in analysing Canada's defence problems and describing his remarks as "personal and not official." He also added that much has been written about bacteriological warfare but he regarded this form of attack as impracticable and not so imminent as that of atomic missiles, lending itself more readily to defensive measures.

When the Canadian Government was asked in Parliament if any countries other than the United Kingdom have approached it regarding negotiations for wheat agreements of one year or longer since the start of 1947, Trade and Commerce Minister MacKinnon declared emphatically that it is not considered appropriate to disclose approaches which other countries have made to Canada looking towards obtaining supplies of wheat either through long-term contracts or on the basis of shorter term agreements. He did disclose that there were no long-term agreements similar to that of the United Kingdom with any other country, but a short-term arrangement was made with The Netherlands and Belgium.

It may be revealed that Mr. MacKinnon also reported that deliveries of wheat under the United Kingdom contract from Aug. 1 to Feb. 28 inclusive have been 66,643,084 bushels and 33,518,262 bushels have been made available to Canadian mills to be shipped as flour; this quantity being applied against the United Kingdom contract during 1946-47, with the rate of shipment of this flour being a matter between the United Kingdom Minister of Food and the Canadian mills. Likewise, sales of wheat to other countries from Aug. 1 to Feb. 28 have been 15,080,140 bushels as well as 25,118,213 bushels made available to Canadian mills to fill flour orders received from countries other than the United Kingdom.

A resolution on the order paper of the House of Commons in Ottawa asks the Federal Government to appoint a representative in Vatican City where 45 other nations are said to have official or semi-official representatives. It is pointed out that Britain has had a diplomatic representative in this spiritual centre of 450,000,000 Catholics who live in various sections of the world.

"The situation is being carefully studied," said in Parliament Rt. Hon. C.D. Howe in discussing a demand for decontrol of lumber. "And if those in charge of timber control and those responsible for the administration of the department come to the conclusion that the position will be improved by the removal of control, then control will be removed. But when I say that, let me say that we see nothing in the immediate situation which would lead us to that conclusion. These last few words are regarded as significant by veteran observers on Parliament Hill as a hint of things to come or rather what will not be forthcoming in regard to lumber decontrols in face of a wide-spread rumor.

**HILL LIONS OFFER NEW HALL**  
Richmond Hill Lions Club has formerly offered to that town a memorial hall which they promise to build costing \$25,000. The council of the Yonge street municipality will turn over \$5,000 to the Lions Club toward the cost of the building, on the understanding that when completed the deed of the property will be vested in the municipality where it is to be built.

## Ontario County Seed Competitions

The Ontario County Boys Seed Judging Competition was held on March 12th, in Port Perry High School, with 31 competitors taking part.

The judges in charge of the classes were: Alfalfa: Mr. W. T. Brennan, Field Crop Inspection Branch, Toronto. Red Clover: Mr. M. H. Winter, Agricultural Representative, Lindsay. Barley: Mr. H. L. Fair, Agricultural Representative, Uxbridge. Wheat: Mr. A. McKenzie, Assistant Representative, Newmarket. Oats: Mr. D. A. Knapp, Assistant Representative, Uxbridge.

Mr. Brown of Sunderland assisted by being in charge of the weed identification section of the Competition. The boy with the highest number of points in the competition was Jack Pearson, R.R.2, Uxbridge, and John Thomson, Brooklin, was second.

Winners of Section 1: Jack Pearson, R.2 Uxbridge; Bob Flett, R.2, Oshawa; Francis Willson, R.1, Locust Hill; John Thomson, Brooklin; George Stone, Blackwater; Bert Pearson, R.2, Uxbridge; Lawrence Evans, R.3 Uxbridge.

Winners of Section 2: Orvan Brethour, R.3, Uxbridge; Austin Alcock, R.1, Uxbridge; Everson Norton, R.1, Locust Hill; Lloyd Merrick, R.3, Uxbridge; Mike Cleary, R.3, Uxbridge; Bill Werry, R.2, Oshawa; Ross Gibson, Cannington.

The special coaches' prize was won by Orvan Brethour's, Uxbridge team.

### BROOKLIN JUNIOR FARMERS BUS TRIP TO TORONTO

On Friday, March 14th, about 40 members of the Brooklin Junior Institute left Brooklin for a trip by bus to Toronto. The first stop was at Eaton's College Street Branch, where the girls disembarked from the bus and were met by Miss Cowan of the Institute Branch. At Eaton's the girls made a tour of the Handicraft Department, the Thrift House and the Art Gallery, and the had lunch at the Round House. Later they visited the Institute for the Blind on Beverly Street.

They walked to the Museum at the corner of Bloor and University Avenue and spent the remainder of the afternoon there.

After leaving the girls at Eaton's, the boys went on to Toronto Elevators Ltd., where they visited the plant and lunched there. Later they visited the Massey-Harris plant on King Street, where they were welcomed to the plant by Mr. Easton and divided into two groups for a tour of the automatic shop, the foundry, the new combine plant and the tool room. The production line for the combines was a very interesting feature.

At the Goodyear Plant in New Toronto, in four groups, they saw the process of making rubber tires and tubes from the time the synthetic and crude rubber arrives at the plant until packed for shipment.

The bus brought the boys back to the Museum, where they met the girls and returned to Brooklin.

Mr. D. A. Knapp, Ontario County, Assistant Representative, accompanied the Brooklin Junior Farmers on this trip.

### SALARY DEMANDS MADE TO PLEASE FEDERATION PETERBORO BOARD SUGGESTS

Peterboro's Board of Education has turned down cold, says the Lindsay Post, new demands for salary increases made by Peterboro local of the Ontario Secondary School Teachers' Federation. "We'll take no action" was the board's reply to the teachers demands.

The board said they felt that an agreement reached last fall when every Board of Education employee was granted a 10 per cent increase still took care of the teachers' financial needs adequately. Chairman D. V. Canning said, "They seemed satisfied with our decisions at that time. I can't believe anyone could be so unreasonable. It appears to me that this request was submitted without any hope of materializing; but merely to please this Federation."

### COUNTY HERD STANDS HIGH IN HOLSTEIN CLASS

The Holstein-Friesian Association of Canada has announced their "Record of Performance Honour Roll" of the five highest producing females in Canada, in each class by ages for 1946.

Major D. E. Sprague, Superintendent of the York County House of Refuge points out that these high producing Honour Roll animals, three were either bred, or their sires owned or bred by the York County House of Refuge, Newmarket.

This Institution has a small but select wellbred herd of cattle, which is bringing credit to the County of York.
