- Q.—What will loosen dirt when washing?
- A.—One of the most useful aids on wash day is turpentine. It will loosen dirt without the slightest injury to fabrics.
- Q.—How can I keep the top of the cake or bread smooth and tender when baking?
- A.—Before placing the cake or bread in the oven for baking, put a saucer full of boiling water in the oven. The steam will keep the top smooth and tender.
- Q.—How can I remove clogged ink from steel pens?
- A.—Dip them in a strong solution of ammonia water. This softens the ink and it can be easily wiped off.
- Q.—How can I prevent ingrowing toenails?
- A.—Stockings which are too short in the foot are very often the cause of ingrowing toenails. See that both the stockings and the shoes are not too short.
- Q.—How can I prevent olive oil from becoming rancid?
- A.—Add two medium size lumps of sugar to each quart of olive oil as soon as it is opened to keep it from becoming rancid.
