The suggestion was tossed into the ring at a meeting of Markham Fair Board last week, that the Board erect an artificial ice rink at the fair grounds, at an estimated cost of \$50 to \$60,000. However the proponents of the idea got little support from the majority of the Board members we're told.

An athletic trophy in memory of the late Gar Doolittle of Aurora has been presented to the Aurora High School by his brothers. He was one of the outstanding athletes of the school, and will be remembered as a member of last year's Aurora hardball team which visited Stouffville. His death occurred a few months ago in hospital.

We know that anything on the fish line interests anglers, so fellows have you seen the finny tribe that has been raised in Musselman's Lake this spring. A good many city visitors pulled up their cars on Sunday afternoon to go down to the shore and inspect what looked like hundreds of thousands of red carp lying dead on the beach, and swimming in big schools just off shore. They do look like oversize gold fish and caused quite an interest. A few years ago there were none to be seen, but this spring the entire lakeshore is dotted with their carcasses. The lake water was high a couple of months ago, and when it receded these big "walloping fellows" stayed a little too long in the pools and were finally left high and dry on the shore.

Markham Township Softball League will open schedule on May 20th, with Markham Village and Markham Veterans, coming together at Markham, and Unionville and Buttonville at Unionville and Cedar Grove playing at Agincourt.

The Stouffville Athletic Club plans to renovate the tennis court, but there will not be any club formed. Public School children will be allowed free use of the courts, while older players will be expected to contribute.

Markham High School are holding their sports banquet this Friday night at the Tremont Hotel, when the members of their championship hockey and soccer teams will be honored.

Officers of this year's North York minor baseball league have been elected and are as follows: Pres. Simmons (Aurora); sec-treas. Bill Holloway (Aurora); executive, Grant Nighswander (Richmond Hill); Doug. James (Markham); George Smith (Stouffville); Bill Haskett and George Haskett (Newmarket). In the Bantam series, Richmond Hill will represent the league at the end of the schedule in the O.B.A., with the right to draw the best bantam players from the other teams. Both Newmarket and Markham will enter the O.B.A. midget playdowns. The league would also welcome an entry from Bradford.

Earl McCready, Whitechurch farmer, and wrestler of note, has left for "down under" to wrestle in Australia. The sports draw big crowds in Wellington, Auckland and Christchurch.

There were over forty girls turned out for the initial softball practice in the park on Monday night and enough signed up for three teams. The diamonds were fairly alive with baseball aspirants, and members of the Athletic Club in charge of the boys' minor ball had more than their quota of players for the Bantam and Midget squads.

Pickering Township Softball League will open its schedule on May 26th. There will be a home game in Clarendon on May 30, when the village will play host to Pickering.

The enthusiastic revival of baseball in Stouffville in the last couple

of seasons causes port fans to reflect on some of the great teams which have carried the Stouffville colors in years gone by. Remember the stars of 1924, finalists in the O.B.A. Intermediate series. Oakville were the winners of that season's championship. The team was piloted by the late Bill Mather and Dr. Walt Sangster, and the lineup was as follows: Red Forsyth 3b; Wes. Boardway ss; Dr. N. J. Dales 2b; Howard Underhill 1b; Lefty Lennox p; Max Reesor c; Bruce Lehman p; Murray Clendenning lf; Milt. Storey cf; Paul Boardway c; Milt. Clendenning rf; Fred. Thompson. Allan Collard, Jim Muston, Fred Fawcett utility.

## Pickering Township Softball Schedule

May 26 Greenwood vs Dunbarton, Pickering
