BISHOP HALLMAN, 81, IN PULPIT 50 YEARS

Kitchener, June 26—Fifty years of service in Canada and the United States of Bishop E. S. Hallman of Tuleta, Texas, was commemorated tonight at the Kitchener church where he was ordained exactly half a century ago.

The 81-year-old minister, still active in the work of the church in Texas, is at present visiting in this district. The special service to commemorate his induction will be held at First Mennonite Church.

Following his induction, Bishop Hallman served his church in the Kitchener district for about ten years. From the city, he went to Saskatchewan, where he served for 15 years.

Several years in Indiana marked his next service after which he commenced his long charge in Texas. He is still active at Tuleta.

The bishop is a native of this area, born in New Dundee to the late Mr. and Mrs. Abraham Hallman. While in this district he is visiting at the home of a sister, Mrs. Ephraim Snider of R.R.2, Kitchener.

M. C. Cressman and J. C. Fretz of Kitchener were in charge of arrangements for the special service.

NEW SUB-STATION

Markham Rural Hydro district is being supplied with another new sub-station which is designed to lighten the load carried by the present station in the area of which there are two or three. The new station is being located on the 6th concession just north of Unionville, and is expected to be put into service before another month.

When the work is completed lines servicing part of Markham township on the west side and a section of Whitchurch in the Markham area will get current through the sub-station on the 6th. Stouffville is serviced, of course, from the station at Ringwood.

Lucky queen and pretty, too, is Audrey Saunders, Winnipeg girl, now living in Los Angeles, Calif. Chosen "Movie Queen" in a contest, she was offered a movie contract and promptly signed for a screen test and a part in a forth-coming Hollywood production.

Named "Miss Saskatchewan 1947" is beautiful Faye Clevering. Last year she was scheduled to compete in intercollegiate beauty contest with British Columbia, but at last minute Saskatchewan entries were withdrawn.

A "SWEET" SPECTACLE IF CHARGE IS CORRECT

Insinuation over the radio last week, was to the effect that sugar rationing is only being maintained, because this is the last commodity on the list. When it goes, the broadcaster claimed, a few thousand people would have to find jobs, since it is the sugar rationing that is keeping the department alive and providing the sole excuse for not having been abandoned.

If this is correct, Mr. John Public ought to protest in a real way. No one has any right to be kept by the Dominion Government on a job that

FIVE TONS OF GROUNDHOGS

Five tons of groundhogs were shot in Dundalk district when a recent organized hunt was carried out, according to the Dundalk Herald. The affair wound up with a big supper, but so far as we could learn from the newspaper report, groundhogs were not on the menu although they were a popular subject of the evening.

does not render a service. After the insinuation was made, there has been a further loosening of the sugar coupons which rather bears out the fact that at least an element of truth is in the story.

NOTICE

I have secured the services of Walter Bryan and will be in a position to look after all general repairs and take care of all motors and tractors.
