Few properties are better known in town than the John McKinnon place on Montreal street in the east end, since it has been in the family for half a century. This week the place was sold by Willoughby Agency through Harvey Moyer to Mr. Leo Wags. Sale price is not disclosed but is reported to be \$4,600 and \$4,800. For many years fruits and vegetables were grown on this place for the wholesale and local markets.

Heaton & Son, decorators and painters, specializing in spray painting, are locating in town, and bought a lot at the corner of Harold street and Rupert avenue, but have since sold the corner location to neighbors in that locality, and have purchased a down-town lot that is much more convenient for their work, south of the post office and the dry cleaners. A frame building brought in to form the beginning of a house was placed on the west end lot, but will be moved again to the new location, we understand.

Rev. John Mutch, former Presbyterian Church pastor at Stouffville, has been elected chaplain of the Ontario Curling Association. It is also of interest to note that the retiring president of the Association Mr. Frank E. McDonald, claims a real connection with this town, since he was a former banker here, and married a Stouffville girl Gertrude Mitchell.

Members of the Stouffville Lions Club were entertained at their regular meeting on Monday evening by Arthur Latcham, a native of this locality, who is a magician of no mean ability. During his performance Mr. Latcham told the Lions of his experience while attending some of the magicians' conventions, and of hobnobbing with Van Johnson, screen star, in Bermuda. Must Replace Cut Tree

Citizens of the west end were aroused last week, when a mover cut a lovely maple tree on the street, in order to make room to move his building up the street. Only an hour before he had been refused permission to do any cutting until a committee of councilmen were seen, and of course the owner of the property, since neither the council or property owner may cut shade trees on the street allowance without mutual consent. Only exception to this rule is when a tree is endangering public safety or dead. However, the tree cutter didn't wait in this case, he was paying a big price per hour for moving machinery, and took matters in his own hand. Constable Rusnell effected a settlement, when, in lieu of a court action, the offender agreed in writing to replace the tree. We hope this will be kept in mind by other people who wish to cut down trees on the roadside. Not many people would do this sort of thing without full authority, and it is regrettable that it happened, but a replaced tree is better than a fine, no doubt, and it will cost a good deal more than a court may impose. Stouffville would be a sorry looking spot if it were not for our lovely shade trees, and everybody should unite to protect them, and plant more trees along those barren stretches.

Mr. and Mrs. H. W. Sanders spent a day or two at the home of their son in Weston.

Anyone who has not contributed to the current Salvation Army Red Shield campaign, and wishes to do so, may leave their contribution with Frank Riches, Stouffville. Any canvassers, as well, who have funds, are asked to please turn them in to Mr. Riches.

Margaret R. Hooper, wife of Thomas J. Hooper, died at her home, 1316 Bloor west, Toronto, on Saturday, and was buried in Stouffville on Tuesday. Intimate friends with the Taun family in the east end, the Hoopers had been frequent visitors to this town, and we understand, decided on the purchase of a plot here some time ago.

Keep in mind the annual Horticultural meeting and pot luck supper to be held in the United Church basement on Tuesday, Nov. 11th at 6.30 p.m. Guest speaker will be Mr. Gordon Miller of West Hill. Mr. Miller is a photographer and horticulturalist and will have an interesting subject.

Shed More Light

Merchants who light their windows in the evenings during the closing hours from six to ten, do themselves and the town a good service. There are many people in town at this time, who love to window shop, which is quite aside from the improved appearance that window light adds to the business section. Too many merchants spend too little in advertising — and window lighting is a form of valuable advertising.

The weather has been so mild and sunny, day in and day out, that one is apt to overlook the fact that Christmas is but eight weeks from this Thursday. Merchants find it hard to create an interest in Christmas goods under such weather conditions. That leads one to reflect how even the merchants (not just the farmer) is dependent on seasonal weather all the year through.

Planing Mill Changes Hands

Another business change took place in Uxbridge on Monday last when Mr. Evan Ganton, of Toronto, took over the possession of the Planing Mill owned and operated by the Uxbridge Hardware Co., ever since 1909, when it was taken over by the Hardware Company from the late J. G. Vicars and James Reid.

Richardson Masonic Lodge has made an impressive contribution to the "Aid to Britain" fund over-subscribing their allocation three times. The contribution was on a cash basis. Markham, Uxbridge, Agincourt, Clarendon, Brougham, and all other lodges are making similar contributions to that of Stouffville.

Stouffville Horticultural Society had the largest representation from any one branch at the District meeting held in the R. H. McGregor School, Toronto, recently. The District takes in Oshawa, Mt. Albert and Clover Leaf to the west of the city. Mr. Robt. Little of Richmond Hill was re-elected director with Mr. Spencer of Toronto as his assistant.
